2003 PERMITS

RESIDENT ANNUAL FISH RESIDENT COMBINATION	\$15.00
FISH-HUNT	25.00
NONRESIDENT ANNUAL	45.00
NONRESIDENT 3-DAY	14.00
RESIDENT 3-DAY	10.00
SPECIAL FISHING PERMIT	5.00
AQUATIC HABITAT STAMP	5.00
ANNUAL PARK ENTRY	14.00
DUPLICATE PARK ENTRY	7.00
DAILY PARK ENTRY	2.50

WHO IS REQUIRED TO HAVE A PERMIT?

A fishing permit is required to take or attempt to take fish, bullfrogs, snapping turtles, tiger salamanders or mus- sels by any method, except for the owner or the guest of the owner of any totally protected water body which (1) is located entirely on private land; (2) is entirely privately stocked; (3) does not connect by inflow or outflow with any outside water and (4) is not operated commercially. A resident fishing permit is required for all Nebraskans 16 years of age and older. However, fee-exempt permits are available to the following resident veterans: (1) 50 percent disabled as a result of service in the armed forces, (2) received a pension from the Veterans Administration as a result of a total and permanent disability not incurred in the line of duty in military service, or (3) is 65 years of age or older who served during a specific time period that qualifies them as a veteran. In addition, residents 70 years of age or older can receive a fee-exempt permit. The fishing permit must be carried by the holder while he/she is actively fishing. A resident is a person who has resided in Nebraska continuously for at least 30 days and who has a bona fide intention of becoming a

legal resident of this state. Others who may obtain a resident permit include: (1) military personnel officially stationed in Nebraska and on active duty here for at least 30 consecutive days; (2) nonresident students upon proof they have attended classes full time for at least 30 consecutive days at any Nebraska college, university, junior college, vocational school or any foreign exchange high school student; and (3) any person duly enrolled in and attending a civilian conservation center or similar government work or training facility for 30 consecutive days.

A nonresident fishing permit is required of all people who are not residents of Nebraska, except those listed and those under 16 years of age who are accompanied by someone possessing a valid permit.

A "special fishing permit" is available for severely physically disabled or developmentally disabled persons who cannot cast or retrieve without assistance. This permit entitles the disabled person and one person assisting him or her to take, hunt, fish, catch, harvest or possess any aquatic organism in compliance with state law. If the person assisting doesn't possess a current fishing permit, they are restricted to one daily bag limit between the two anglers. An Aquatic Habitat Stamp is not required with this special permit. The annual permit is issued on a calendar year basis and costs \$5 regardless of the age of the applicant. A "disabled person" means a person certified

by a physician to have a permanent physical impairment or developmental disability that results in the inability to use fishing equipment unassisted. Applications are available from the Game and Parks Commission headquarters in Lincoln or Commission offices in Alliance, Bassett, Kearney, Norfolk, North Platte, Omaha, and Ak-Sar-Ben Aquarium at Gretna. The application must be verified by a physician before a permit can be issued. Information and application forms for fee-exempt fishing permits are available from Game and Parks Commission offices across the state and also permit agents.

An Educational Fishing Project Permit can be obtained by instructors of any university, college, or high school from the Fisheries Division for his or her students, 16 years of age and older that are participating in an educational fishing project.

*See Boundary Waters section for permit requirements for fishing the waters of the Missouri River.

PARK ENTRY PERMIT

A vehicle Park Entry Permit is required to enter state park and state recreation areas to fish.

LIFETIME PERMITS

A Nebraska lifetime hunting or fishing permit, representing a lifetime of exciting outdoor experiences, is the most valuable gift you can give yourself or a special friend or relative.

Three types of lifetime permits are available to Nebraska residents: Fishing, \$300.00; Hunting, \$260.00; and the Combination Hunting and Fishing, \$520.00.

The permit is valid for the life of the person to whom it is issued, even if the holder moves from the state. Only Nebraska residents may purchase a lifetime permit, and only for themselves or for another Nebraska resident. Not included in the cost are some special stamps which must be purchased annually. Permits do not cover fees for big-game hunting.

BEDLAN'S

SPORTING GOODS

Fairbury, NE (402) 729-6112

www.bedlans.com

Lifetime permits are available at Commission offices, Chadron State Park, Fort Robinson State Park, Wildcat Hills State Recreation Area (SRA) and the Calamus Fish Hatchery. Applications are also available from about 900 permit agents across the state.

AQUATIC HABITAT STAMP

An Aquatic Habitat Stamp is required of all residents and nonresidents, 18 years of age and older, who participate in activities that require a fishing permit. This includes three-day permits; however, an angler is required to purchase only one Aquatic Habitat Stamp per year.

Veterans 65 years and older and residents 70 and older who have a fee-exempt permit are exempt from purchasing an Aquatic Habitat Stamp. Anglers who have a Lifetime Fishing Permit also are exempt from the Aquatic stamp requirement. Although they are required to purchase an annual Nebraska Fishing Permit, anglers

ages 16 and 17 are not required to have the Aquatic Habitat Stamp. Revenue from the sale of these stamps is used solely to enhance and restore aquatic habitat and quality fishing in Nebraska's reservoirs, lakes and streams.

CHANGES FOR 2003 Species Length and Bag Limit Changes

Trout: Eliminated the length limit and special bag limit restrictions on Lake McConaughy.

Largemouth bass: Buckskin Hills Lake and Stagecoach Lake now have a 21" minimum length limit while Memphis Lake is total catch and release.

Striped bass hybrid: Summit Lake was removed from the list of waterbodies that have a daily bag limit of 3.

Channel and Blue catfish: Memphis Lake and the Niobrara State Park ponds now have a daily bag limit of 3.

Channel and Flathead catfish: The Niobrara River from its mouth to the Spencer Dam now has a daily bag limit of 5 for each species.

Walleye, Sauger and Saugeye: There is now a statewide minimum length limit of 15 inches, with the exception of Harlan County, Calamus and Sherman reservoirs which retain the 18-inch minimum and Elwood Reservoir which now has a 18 to 24-inch protective slot limit with only one walleye over 24 inches allowed in the daily bag limit. With the exception of Elwood Reservoir, the rest of states' daily bag limit can contain only one walleye over 22 inches. Merritt Reservoir regulations did not change except for the restriction that allows only one over 22 inches in the bag limit. Branched Oak Lake walleye regulations did not change.

Northern pike: The minimum length limit of 24 inches east of Hwy. 281 was eliminated. In its place the following waterbodies were added to the list that are managed with a 30-inch minimum length limit: Goose, Grove, Maskenthine, Sherman, Blue Hole East and Alda lakes.

Baitfish: Salamanders and leopard frogs are now included with baitfish as related to daily bag limit and possession limits by those collecting them for personal use. No live baitfish may be used or possessed on Frye Lake

Panfish: Memphis Lake and the Niobrara State Park ponds now have a daily bag limit of 10 panfish in combination.

Paddlefish: There is now a \$5.00 application fee for archery and snagging permits.

Two Rivers SFA Lake #4: The special catch and release regulation on Lake #3 has been expanded to also include Lake #4.

Urban Fishing Areas: Eight additional lakes have been added to the Urban Fishing Program. They are: Auble Pond (Ord), Benington Lion's Club Pond, Grand Island Such's Lake, Hartwell Park Lake (Hastings), Pawnee City Pond, Sutton Clark Pond, Tilden City Pond, and Wolbach City Pond. Check the Urban Fishing Section for special regulations.

IT IS UNLAWFUL...

- to borrow or use the permit of another or lend your permit to another.
- to leave fish or any part thereof on the banks or in the water of any stream, lake or other body of water.
- to fish on any private land without landowner permission.
- to use a crossbow or similar device, except a handicapped person who has a medical certificate on file.
- to seine sport fish of any size.
- to attach limb lines with nails, or attach them more than 12 inches above the water to trees on any lake or reservoir.

- to leave fish in a trap for more than 24 hours.
- to use float lines.
- to release in public waters of the state any fish that did not originate in that body of water.
- to attempt to snag fish, except in areas designated. See section on Snagging for details.
- to keep an externally foul-hooked fish.
- to purchase or attempt to purchase a permit while under suspension or revocation in any state.
- to consume and/or have an open container of alcohol at any state park, state recreation area or wildlife management area.

SEASONS

Hook-and-Line: Open year-round throughout the state, except as noted or as posted at the area.

Archery: Sport fish may be taken from sunrise to sunset from July 1 through Dec. 31 statewide, except paddlefish in the Missouri River. Nongame fish may be taken year-round, sunrise to sunset and from Apr. 1 through Aug. 31, 24 hours a day, statewide. Paddlefish archery season begins on the 2nd Saturday of July and runs for 16 consecutive days. A valid Paddlefish Tag is required (see section on Paddlefish, pgs. 17-18). See section on Archery/Surface Spearing (pg. 15) for other exceptions. Hook and line, length, and bag limits apply for archery.

Snagging: The paddlefish snagging season is Oct. 1 through Oct. 30. A valid paddlefish tag is required. See section on Paddlefish Tags (pg. 18). All other waters of the state are closed to snagging at all times. See section on Snagging (pg.18).

Surface Spearing: The entire state is open to the taking of nongame fish year-round, sunrise to sunset. Spearing is allowed 24 hours a day Apr. 1 through Aug. 31.

Underwater Spearing: Sport fish may be taken from sunrise to sunset

July 1 through Dec. 31. Nongame fish may be taken year-round, sunrise to sunset. See Underwater Spearing section (pgs 15-16) for open waters.

BAG / POSSESSION

Bag and possession limits may vary between "Inland Waters" and "Waters of the Missouri River." For this purpose only, Inland Waters includes all waters of the state except the waters of the Missouri River. Waters of the Missouri River includes all of the river within Nebraska and all reservoirs, oxbows, sloughs, chutes, backwaters and marshes that have annual surface water connection to the river and the first 300 yards upstream from the mouth of all tributary streams.

Any fish that is not to be counted in the bag limit must be returned immediately to the water with as little injury as possible. Any fish placed on a stringer or in a container, or not returned to the water must be counted in the bag. No culling or high-grading allowed.

Daily Bag: The daily bag limit is fish harvested from midnight to midnight. No person may possess more than one day's bag limit of fish while on the water or actively engaged in fishing. Fish species subject to a bag limit and possession limit, but not a length limit, can be filleted prior to transport if the fillets are kept in one piece until cooked, so the bag and possession limits can be determined. Fish species subject to a length limit can only be gilled and gutted prior to completion of that day's fishing. Once off the water, the fish can be filleted for transportation and storage.

Possession Limit: This is the total number of a species of fish that a person may have in possession in portable coolers, home freezers, registered in his name in a commercial cold storage locker or in any other way under their control. Fish or aquatic animals placed in public storage must be labeled with the owner's name, address, phone number, date of birth, signature, date taken, species and numbers and the name of recipient if they are transferred.

BAG AND POSSESSION LIMITS

STATEWIDE

** Be sure and check the "Nebraska's Public Fishing Waters" section for special bag, possession and length limits on specific waterbodies.

SPORT FISH

The following fish species are designated as sport fish:

- American eel
- black crappie
- blue catfish
- bluegill
- brown trout
- brook trout
- burbot
- channel catfish
- chinook salmon
- cutthroat trout
- fathead catfish
- goldeye
- grass pickerel
- green sunfish
- largemouth bass
- muskellunge
- northern pike
- orange-spotted sunfish
- paddlefish
- pumpkinseed
- rainbow trout
- reardar sunfish
- Sacramento perch
- sauger
- saugeye
- shovelnose sturgeon
- skipjack herring
- smallmouth bass
- spotted bass
- striped bass
- striped bass hybrid (wiper)
- tiger muskellunge
- walleye
- white bass
- white crappie

PANFISH

The following fish species are designated as panfish:

- black crappie
- white crappie
- yellow perch
- rock bass
- bluegill
- green sunfish
- pumpkinseed
- orange-spotted sunfish
- reardar sunfish
- all sunfish hybrids

COMMERCIAL FISH

The following fish species are designated as commercial fish:

- black bullhead
- yellow bullhead
- freshwater drum
- yellow perch

BAITFISH

The following fish species are designated as baitfish:

- alewife
- bigmouth shiner
- brassy minnow
- creek chub
- emerald shiner
- fathead minnow
- gizzard shad
- golden shiner
- goldfish
- longnose dace
- plains killifish
- red shiner
- river shiner
- sand shiner
- stoneroller
- sucker-mouth minnow
- white sucker

The following

amphibians and crustaceans are covered under the baitfish regulations:

- plains leopard frog
- northern leopard frog
- tiger salamander
- ringed crayfish
- papershell crayfish
- northern crayfish
- devil crayfish

THREATENED AND ENDANGERED SPECIES

The following fish species are designated as Threatened or Endangered in Nebraska and are not legal to possess:

- blacknose shiner
- finescal dace
- northern redbelly dace
- pearl dace
- pallid sturgeon
- lake sturgeon
- sturgeon chub

NON-GAME FISH

All species that do not appear on any of the above lists are considered non-game.

LENGTH LIMITS

Bass (Largemouth)

12-inch minimum: There is a 12-inch minimum length limit in the section of the Missouri River between Nebraska and Iowa and Nebraska and Missouri with the exception of Missouri River

lakes and oxbows regulated with a 15-inch minimum length limit. Non-public waters except for totally private waters. **15-inch minimum:** Statewide on all government or publicly owned, controlled or managed waters, except where other limits apply and parts of the Missouri River. There is a 15-inch minimum length limit on the following Missouri River lakes and oxbows: DeSoto National Wildlife Refuge Lake, Washington County; Snyder Bend Lake, Dakota and Thurston counties; and Lake Yankton, Cedar County.

18-inch minimum: Marina Lake (Mahoney State Park)

21-inch minimum: Auburn Rotary Lake (Nemaha County), Buckskin Hill Lake (Dixon County), Burchard Lake (Pawnee County), Stagecoach Lake (Lancaster County), Skyview Lake (Madison County), Wagon Train Lake (Lancaster County), Walnut Creek Recreation Area (Papio 21) and Wehrspann Lake (Sary County), Olive Creek Lake (Lancaster County) and Zorinsky Lake (Douglas County).

Note: The statewide bag limit only allows one bass 21 inches or longer. Catch and release largemouth bass lakes: Refer to Special Bag Limit Section.

Bass (Smallmouth and Spotted)

12-inch minimum: Statewide on all publicly owned, controlled or managed waters, except where other limits apply and parts of the Missouri River. There is a 12-inch minimum length limit on all black bass in the section of the Missouri River between Nebraska and Iowa and Nebraska and Missouri.

Walleye, Sauger and Saugeye

15-inch minimum: Statewide except for that portion of the Missouri River downstream of Gavins Point Dam and reservoirs with more restrictive length limits listed below. The daily bag limit of four fish can have only one over 22 inches in length with the exception of Elwood Reservoir which allows one fish over 24 inches.

18-inch minimum: Harlan County Reservoir (including the Republican River upstream to the Highway 46 bridge), Harlan County; Sherman Reservoir, Sherman County; Calamus Reservoir, Loup and Garfield Counties.

Other walleye length limits: Merritt Reservoir, the daily bag limit of four may include one walleye 15 to 18 inches and three over 18 inches or four over 18 inches, but only one walleye over 22 inches is allowed. Elwood Reservoir has an 18 to 24-inch protective slot limit with only one walleye over 24 inches allowed in the daily bag limit. At Branched Oak Lake the limit is one fish 22 inches or longer.

Special restrictions at Lake

McConaughy can be found in the Nebraska's Public Fishing Areas section which begins on page 30.

Muskellunge/Tiger Muskie

40-inch minimum: Statewide.

Showelnose Sturgeon

No harvest is allowed on that portion of the Missouri River upstream from the mouth of the Big Sioux River.

Northern Pike

30-inch minimum: Aida DOR (Hall County), Blue Hole East WMA (Buffalo County), Cottonmill Lake (Kearney County), Enders Reservoir (Chase County), Goose Lake (Holt County), Grove Lake (Antelope County), Humphrey Pond (Keith County), Maskenthine Reservoir (Stanton County), North Platte I-80 Lake (Lincoln County), Red Willow Reservoir (Frontier County), Sherman Reservoir (Sherman County) Swan Lake (Holt County).

Crappie

10-inch minimum: Branched Oak Reservoir (Lancaster County), Cottonmill Lake (Buffalo County), Czechland Lake (Saunders County), Sherman Reservoir (Sherman County), Walnut Creek Recreation Area and Wehrspann Lake (Sarpy County), Yanney Park Lake (Buffalo County), and Zorinsky Lake (Douglas County). Note the length limit is not in effect during the month of April on Wehrspann and Zorinsky lakes.

Bluegill

8-inch minimum: Cottonmill Lake (Buffalo County), Czechland Lake (Saunders County), Morrison Island Lakes No. 1, 2, and 3 (Hall County), Olive Creek Lake, Stagecoach Reservoir and Wagon Train Lake (Lancaster County), Walnut Creek Recreation Area (Sarpy County), Wildwood Lake (Lancaster County), Windmill SRA No. 4 (Lancaster County), Windmill SRA No. 4 and Yanney Park Lake (Buffalo County)

Redear Sunfish and their Hybrids

8-inch minimum: Wagon Train Lake (Lancaster County)

Striped Bass and Hybrids/ White Bass (combined)

Inland waters and waters of the Missouri River allow no more than one fish over 18 inches in length in the daily bag. Conestoga and Elwood reservoirs and Willow Creek have a three fish daily bag limit. Total catch and release: Branched Oak Reservoir.

Flathead Catfish

Total catch and release — Branched Oak Reservoir.

Trout

Total catch and release — Big Bordeaux Creek on Big Bordeaux Creek WMA.

20-inch minimum: Lake Ogallala (Keith County) on brown trout. Combination daily bag, which includes all trout species, is 4 with a possession limit of 8.

All Other Species:

No length requirements.

CATCH AND RELEASE

Waterbodies or fish species that have catch and release regulations require that the angler return the fish to the water as quickly as possible in order to reduce any potential physical damage.

TROUT WATERS

It is unlawful to possess a dip/landing net or seine of any type on trout spawning streams in Sioux, Scotts Bluff, Morrill, Garden and Keith counties that are tributary to the North Platte River

and Lake McConaughy, including: Pumpkin, Red Willow, Wildhorse, Stuckenhole, Nine Mile, Tub Springs, Winter, Sheep, Dry Sheep, Spotted Tail, Dry Spotted Tail, Otter, Clear, Loneran, Upper Dugout, Indian, Silvernail Drain and Cedar creeks.

It is unlawful to take or attempt to take sport or nongame fish by bow and arrow or spearing or to take or attempt to take by seine or trap any bait or minnows in any of the following trout streams:

Antelope County: Verdigre Creek and all tributaries.

Brown County: Bone Creek and all tributaries, Long Pine Creek and all tributaries, Plum Creek and all tributaries, Fairfield Creek.

Box Butte County: Niobrara River.

Cherry County : Middle Loup River and all tributaries, North Loup River and all tributaries, Schlagel Creek, Fairfield Creek, Snake River and all tributaries, Plum Creek and all tributaries.

Cheyenne County: Lodgepole Creek west of Brownson.

Dawes County: Chadron Creek, Big Bordeaux Creek, Little Bordeaux Creek, White River above Crawford, Niobrara River from Box Butte Reservoir west to the Wyoming line and all tributaries, Dead Horse Creek, Squaw Creek and White Clay Creek.

Garden County: Blue Creek.

Holt County: Steel Creek and North, Middle and South branches of Verdigre Creek.

Hooker County: Dismal River and all tributaries.

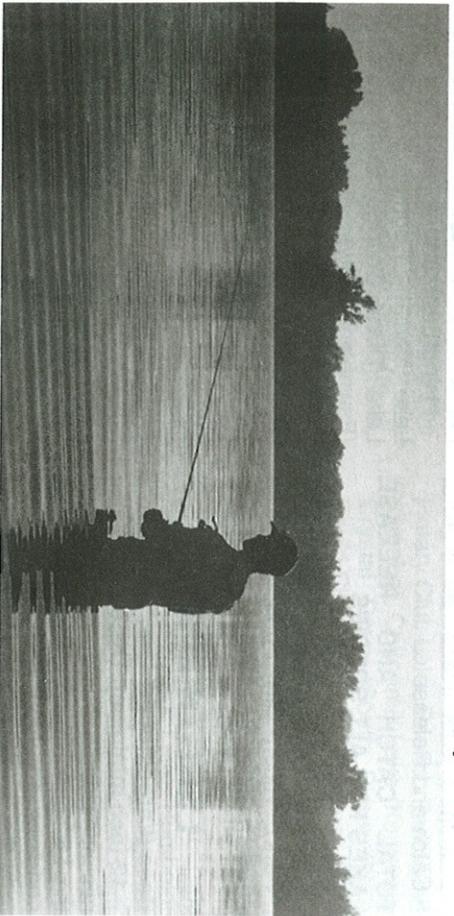

Keith County: Otter Creek, White Tail Creek and Loneran Creek and all tributaries.

Kimball County: Lodgepole Creek and all tributaries.

Knox County: North, Middle and South Verdigre and all tributaries above the town of Verdigre and Steel Creek.

Loup County: Gracie Creek.

Morrill County: Red Willow Creek, Cedar Creek, Greenwood Creek,

Wildhorse Creek, Lawrence Fork Creek, Silvernail Drain, Indian Creek, Stuckenhole Creek, and Pumpkin Creek below Highway 88.

Rock County: Long Pine Creek.

Scotts Bluff County: Nine Mile Creek, Winters Creek, Tub Springs, Wet Spotted Tail Creek, Dry Spotted Tail Creek, Sheep Creek, Dry Sheep Creek, Stuckenhole Creek, Akers Draw, Mitchell Drain, Moffett Drain, Alliance Drain and Bayard Drain.

Sheridan County: Snake River, Larabee Creek, White Clay Creek, Pine Creek, Deer Creek and Little Bordeaux Creek.

Sioux County: Sheep Creek Drain, Dry Sheep Creek Drain, Dry Spotted Tail Creek, Spotted Tail Creek, Niobrara River and all tributaries, White River, Soldier Creek and all tributaries, Monroe Creek, Sowbelly Creek and Hat Creek.
Webster County: Elm Creek.

LIMITS AND FILLETING

Where length and bag limits apply, fish may not be filleted until fishing is completed for the day. Fish subject to a length limit cannot be possessed with more than the gills, viscera and scales removed while on the water, wading or engaged in fishing. Fillets must be kept in one piece until cooked, so bag and possession limits can be determined. Any fish in possession while actively fishing will be subject to length and bag limits that apply to the water being fished.

HOOK AND LINE LIMIT

Ponds, lakes or reservoirs -

Anglers are limited to no more than two lines with a maximum of two hooks on each line with these being any type of attached line (rod and reel, bank line pole or limb line) on all lakes, ponds, or reservoirs or in their inlets, outlets and canals within one-half miles of these water bodies with the exception of ice fishing line limits. This includes Lewis and Clark Lake from Gavins Point Dam upstream to the Santee boat ramp in Knox County, Nebraska.

Limb lines - Allowed but must not be more than 12 inches above the water line and cannot be attached by nails or spikes. The name, address and fishing permit number or current driver's license number of the angler must be attached to all limb lines.

Ice fishing - A total of 5 lines with 2 hooks on each line are permitted during ice fishing, unless listed under special regulations (pg. 10). Each ice fishing line must be under the direct supervision and within the unaided observation of the angler.

Rivers or streams - A total of 15 hooks are allowed ranging from 15 lines with a single hook attached or 3 lines attached. These can be rod and reel, poles, bank lines or setlines which are in some way attached to the bank and not free-floating. Float lines or trot lines are not legal in Nebraska. Float lines are defined as any line not attached to the shoreline or pole. All lines must contain identification to include name, address and fishing permit number or current driver's license number.

Snagging - Only 1 hook which has a gap between the point of the hook to the shank of not more than one-half inch is allowed.

Definition of a hook - 1 hook means a single, double or treble-pointed hook. All hooks attached to an artificial bait or lure shall be counted as 1 hook.

Note - Upon completion of fishing, all limb lines, bank lines and set lines must be removed.

SNAGGING

Snagging of paddlefish and nongame fish is permitted only in the Missouri River under season dates and limits specified in the Paddlefish and Snagging of Nongame Fish (pg. 18) section. All other waters of the state are closed to snagging for all species at all times. All fish that are snagged accidentally or otherwise foul-hooked must be returned to the water immediately.

ARCHERY/SURFACE SPEARFISHING

Game fish may be taken by bow and arrow from July 1 through Dec. 31 from sunrise to sunset, statewide. Game fish may not be taken with surface spears. Nongame fish may be taken by archery or surface spear year-round statewide, sunrise to sunset between Sept. 1 and Mar. 30 and 24 hours a day from Apr. 1 through Aug. 31.

Only hand-drawn longbows (including compound bows) are legal. A crossbow may be used by a handicapped person who has a medical certificate on file with the Game and Parks Commission's Fisheries Division. Arrows may have only 1 point, which must be barbed and must be attached by a line to the bow.

The following waters are closed year-round: Two Rivers, Louisville, Fort Kearny, Fremont, Mormon Island and Windmill SRAs; Platte River and E. T. Mahoney state parks, and trout streams (see Special Areas). For surface spearing, only hand spears are legal. All spearing devices must be barbed.

UNDERWATER SPEARFISHING

Lawful spear guns include hand spears, rubber band-powered spearguns and spring-loaded spearguns. All spears used on powered spear guns must be attached to a lanyard no more than 20 feet long. Underwater spearfishing is not permitted within 100 yards of any designated swimming or water-ski jump area, boat dock, boat ramp or spillway.

Seasons

Sport fish: July 1 through Dec. 31 in waters listed below. Bag, possession and size limits are the same as for hook and line, except that there is a daily bag limit of 2 walleyes and a possession limit of 4 walleyes in effect on all lakes listed below. Hours are sunrise to sunset.

Nongame fish: Open year-round in waters listed below. There are no size, bag or possession limits. Hours are sunrise to sunset.

Waters Open to all Species

• Privately owned lakes with permission of the lake owner

- Lake McConaughy, Keith County
- Lake Ogallala, Keith County
- Lake Minatarte, Scotts Bluff County
- Box Butte Reservoir, Dawes County
- Lewis and Clark Lake, Knox County

Diver's Flag

The diver's flag must be displayed on the water on a float or buoy when diving or underwater-powered spearfishing. Divers and underwater spearfishers must remain within 150 feet of the flag. The flag must be at least 12 inches square, with a red background and white diagonal stripe that is one-fifth the width of the flag. The white stripe must run from the top of the hoist to the bottom of the flag. It is unlawful to display this flag when diving or spearfishing is not in progress.

HOW TO MEASURE LENGTH OF A FISH

Lay the fish on its side with the mouth closed and the tail lobes pressed together. Measure the length from the tip of the snout to the end of the tail. (Do not follow the contours of the fish

PADDLEFISH - ARCHERY

Missouri River

Paddlefish may be taken by bow and arrow and possessed on open waters of the Missouri River only during the season that begins on the 2nd Saturday of July and runs for 16 consecutive days, with legal hours being sunrise to sunset. The area of the Missouri River open to archery paddlefish is from Gavins Point Dam downstream to the mouth of the Big Sioux River at mile marker 734, except for a closed area that extends downstream from Gavins Point Dam to a line that extends from the east end of the south cement wall of the discharge canal northwest to the east end of the north wall of the stilling basin.

During the archery paddlefish season, the portion of the Missouri River from the Gavins Point Dam downstream to the Nebraska tailwaters boat ramp is closed to the taking of game and non-game fish by archers. Only archers with an open tag pursuing paddlefish are allowed in this area.

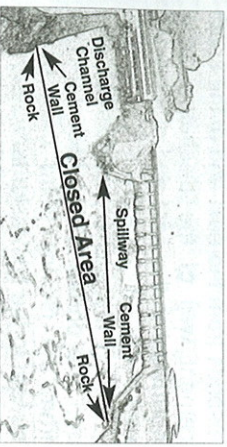

Paddlefish harvested by bow and arrow may be possessed only on the Missouri River that is open during the respective season in the designated open area. All paddlefish archery anglers must obtain and have in their possession a paddlefish tag in addition to a fishing permit (if required). Applicants must be 12 years old by the second Saturday of July to apply. See section on Paddlefish Tags on (pgs. 60-61). Any paddlefish landed must be tagged immediately in the dorsal fin with the angler's tag. Any paddlefish tag that is locked or modified shall be void and **WILL NOT BE REPLACED**. A harvest quota will be managed by issuing

17

a limited number of paddlefish tags with a limit of no more than two tags per person. Only the head, viscera and tail may be removed from archery-harvested paddlefish during transport until the place of residence is reached or the paddlefish is consumed.

PADDFLEFISH AND SNAGGING OF NONGAME FISH

Missouri River — Snagging of paddlefish and non-game fish is permitted from the Gavins Point Dam downstream to the mouth of the Big Sioux River at Mile Marker 734, except for a closed area that extends downstream from Gavins Point Dam to a line that extends from the east end of the south cement wall of the discharge canal northwest to the east end of the north wall of the stilling basin. Paddlefish harvested by

snagging may be possessed only on the Missouri River during the respective open season in the designated open area. All inland waters are closed to paddlefish harvest. The snagging season runs only from Oct. 1 through Oct. 30. Legal hours are 7 a.m. to 7 p.m. All snaggers must obtain and have in their possession an unfilled paddlefish tag in addition to a fishing permit and Aquatic Habitat Stamp (if required) while actively snagging. Applicants must be 12 years old by Oct. 1 in order to apply for a snagging permit (see section on Paddlefish Tags). A paddlefish must be tagged immediately in the dorsal fin with the angler's tag upon addition to the creel. Any paddlefish tag that is locked prior to attachment, altered or modified shall be void and **WILL NOT BE REPLACED**. Only one hook may be

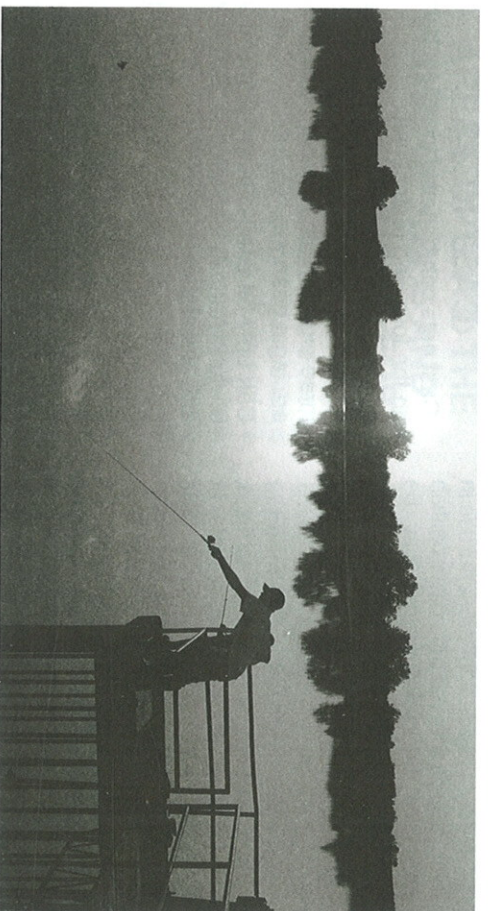

used when snagging, and the gap between the point of the hook to the shank may not exceed one-half inch.

The daily bag and possession limits are the total number of tags issued to an individual. A harvest quota will be managed by issuing a limited number of paddlefish tags with a limit of no more than two tags per person. (Consult section on paddlefish tags pgs. 60-61). All paddlefish anglers are required to cast for and hook their own fish. All paddlefish between 35 and 45 inches long (measured along the center line of the fish, lying flat, including the entire eye to the natural fork of the tail), must be returned to the water immediately. The slot limit is designed to protect spawning-size fish.

It is unlawful to use a gaff hook or other penetrating device while landing snagged paddlefish. Immediate cleaning of a snagged paddlefish is restricted to the removal of only the snout, in front of the eye, and the viscera. Final processing may only be completed once the angler has reached his residence or prior to consumption. Anglers should be prepared to transport a large paddlefish with only the snout removed, if they choose to harvest a fish more than 45 inches in length.

BAIT REGULATIONS

Baitfish, listed amphibians, and crayfish may not be sold except by permit. For commercial purposes (bait vendors, private aquaculturists and nonresident fish dealers), refer to the official regulations supplied with your permit. The following regulation guidelines apply only to bait obtained for personal use. It is unlawful to take baitfish, listed amphibians or crayfish from any lake, reservoir or bayou unless otherwise stated below. Digging and trapping for bait or any other purpose is prohibited on all state-owned or controlled areas. Seining for baitfish, listed amphibians or crayfish is allowed on streams located on SRA's and WMA's unless the stream is listed as closed. All non-baitfish, of whatever size, taken while netting or seining for

bait must immediately be returned to the waters from which taken. The bag and possession limit of baitfish and listed amphibians for personal use is 100.

Gizzard Shad and Alewife: May be taken for use as bait by legal dip nets from lakes, ponds, reservoirs, and below dams and other artificial obstructions for a distance of 200 yards below such obstructions. Live shad and alewife can only be used in the body of water in which they were captured (see section on cast nets). Shad and alewife may be taken by legal seine, or dip net in any number in streams except those streams closed to the taking of baitfish or bait by such method. Bag and possession limit is 100.

Below Dams: The seining of baitfish, listed amphibians or crayfish is unlawful for a distance of 200 yards below any dam, check, spillway or other artificial check. In these waters baitfish, listed amphibians, and crayfish can be taken by legal baitfish dip nets for personal use only.

Restricted Species: It is unlawful to sell, transport or offer for sale as bait, any live carp, carp sucker, bullhead, burfalo, gar, quillback, gizzard shad, alewife or bowfin. Live fish of those species may be used for bait only in the same waters from which they are legally taken. Dead carp, carp sucker, bullhead, burfalo, gar, quillback, gizzard shad, alewife or

bowfin may be transported for use as bait. Sport fish can be used for bait. (1) if they have been legally acquired from a licensed aquaculturist or a nonresident fish dealer. The angler must keep a legible receipt or invoice from the dealer listing the date, seller's name and address; and number and size of each species sold, or (2) if they are captured using hook and line and used at the body of water from which they were captured. In the latter case, the angler will be required to follow both size and bag limits that are enforced on that water body.

NO LIVE BAITFISH AREAS

The following areas do not allow the use or possession of live baitfish:

- Chalkrock Lake (Cedar County)
- Crescent Lake National Wildlife Refuge (Garden County)
- Frye Lake (Grant County)
- Olive Creek Lake (Lancaster County)
- Pipe Lake (Wheeler County)
- Valentine National Wildlife Refuge (Cherry County)
- Wagon Train Lake (Lancaster County)
- Wildwood Lake (Lancaster County)

Note: It is illegal to transport or possess live white perch away from the water body from which they were caught. It is illegal to release your baitfish or any fish caught from a different water-body into public waters.

Exporting: Up to 100 legally captured baitfish and/or listed amphibians can be

exported by a resident for personal use in fishing outside the state. No other baitfish taken from Nebraska waters may be transported out of the state in any manner, except baitfish artificially propagated in man-made impoundments by licensed aquaculturists.

Importing: It is unlawful to import or transport carp, carpsucker, buffalo, quillback, gar, gizzard shad, alewife, or bowfin into the state for use as bait. Special permits are required for a person to import and sell bait or baitfish.

Baits and Scents: Cutbait is legal if the fish used has been legally acquired and the size, bag and possession limits for that species and water body have been followed. It is also legal to chum for fish using non-harmful baits. Anise oil and other scents that do not stun, kill or harm fish are permitted.

Leopard Frogs and Tiger Salamanders: All regulations that cover the legal use of baitfish also apply to the use of leopard frogs and tiger salamanders.

Crayfish: There is no limit on the number of crayfish a person may possess. Anyone over the age of 16 must have a bait vendor's license in order to sell crayfish. Crayfish may be captured by hook and line, by hand or by legal fish nets and traps as described below.

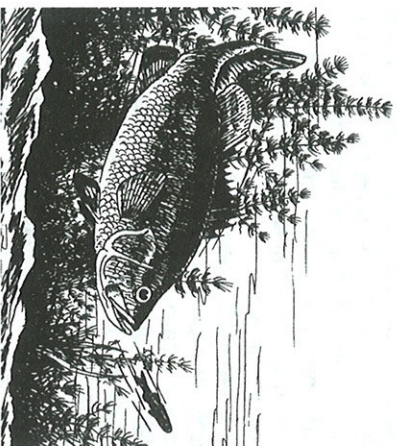

Fish Nets and Traps: The possession or use of any nets, traps, electrical gear capable of stunning fish or other devices except the following is unlawful:

- Baitfish seines of one-fourth inch non-metallic square mesh only and not over 20 feet long and four feet deep.
- Baitfish dip nets of one-fourth inch non-metallic square mesh. Neither length nor width may exceed 36 inches.
- Baitfish and bait traps of one-fourth inch square mesh material with a length of 24 inches or less, a diameter of 16 inches or less and a throat one inch or less in diameter. All minnow traps shall be raised and the baitfish removed at least every 24 hours.
- Landing nets, made of non-metallic mesh, used only for landing fish caught on hook-and-line.

CAST NETS

Cast nets can be used to collect bait with the following restrictions:

- Only cast nets up to 10 feet in diameter with a mesh size no larger than three-eighths inches square measure are legal gear.
- Can only be used during the months of July, August, September, October and November.
- Can only be used to collect gizzard shad and alewife.
- Live gizzard shad and alewife may only be used for bait the same day they were captured in the same water body where they were collected.
- Cast nets can only be used on the following water bodies: Callamus Reservoir, Davis Creek Reservoir, Enders Reservoir, Farwell Reservoir, Gallagher Canyon Reservoir, Harlan County Reservoir, Jeffrey Reservoir, Johnson Lake, Lake Maloney, Lake McConaughy, Medicine Creek Reservoir, Midway Complex Reservoir, Phillips Canyon Reservoir, Red Willow Reservoir, Sherman Reservoir, Sutherland Reservoir, Swanson Reservoir, and the Tri County Canal from the diversion dam in Lincoln County to the J-2 return.

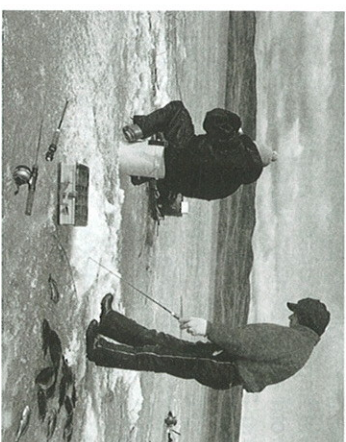

AREAS OPEN TO THE USE OF ATVs AND SNOWMOBILES FOR ICE FISHING

Snowmobiles, all-terrain and motorized off-highway amphibious vehicles may be operated on the frozen surface of the following designated lakes, unless otherwise posted as being closed: Bluestem, Branched Oak, Conestoga, Olive Creek, Pawnee, Stagecoach, Wagon Train, Enders, Medicine Creek, Red Willow, Swanson, Box Butte, Merritt, Oliver, Sherman, Elwood, Sutherland and Callamus Reservoirs; Fremont Lakes, Gallagher Canyon, Johnson Lake, Lake Maloney, Lake McConaughy, Lake Minatare, Lake Ogallala, Lewis and Clark Lake, Louisville Lakes, Rockford Lake, Summit Lake, Willow Creek Lake, Walgren Lake, Willow Lake (Brown County), Big Alkali Lake, and Cottonwood-Steverson Lake. These vehicles can be operated on the state park areas only one-half hour before sunrise until 9:00 p.m. or dusk posted. It is recommended that these vehicles not be used unless the ice thickness is a minimum of 8 inches.

ICE FISHING

When ice fishing, only five lines with no more than two hooks on each line are permitted. Each line or tip-up used while fishing public standing waters must be under the direct supervision and within the unaided observation of the angler. Holes made for ice fishing may not exceed 10 inches in diameter on any area controlled by the Game and Parks Commission.

A special \$5 permit is required for a permanent shelter on state recreation and wildlife management area lakes. Applications and regulations are available from conservation officers, Commission offices or by mail from the Game and Parks Commission, Box 30370, Lincoln, NE 68503. This does not apply to temporary shelters used and removed each day.

BULLFROGS

Bullfrog season runs Aug. 15 through Oct. 31. The bag limit is 8 bullfrogs per person. They may be captured only by hand or by the use of a hand net or hook-and-line. Artificial light may be used when taking bullfrogs. Bullfrogs must measure 4½ inches from snout to vent or be released. Only the entrails may be removed prior to transport.

SNAPPING TURTLES

Snapping turtles may be taken year-round, and limits are 10 in the daily bag and 20 in possession. They may be taken only by hand, hand net, hook-and-line, bow-and-arrow or gaff hook.

MUSSELS (CLAMS)

Mussels may be taken year-round by hand, hand net or hook-and-line. The limit is 10 daily and 20 in possession.

BORDER WATERS

Missouri River (South Dakota, Iowa and Missouri): Anglers holding a valid Nebraska, South Dakota, Iowa or Missouri sport fishing license or permit may fish all waters of the Missouri River in the state they are licensed, as well as those of the adjacent state. Waters of the Missouri River are defined to include all flowing portions and backwaters, sloughs and chutes that draw water from the Missouri River. Oxbows and backwaters separated from the Missouri River by land are included if the state boundary line passes through some part of such waters. Mouths of tributar-

ies may only be fished in the state that the angler is licensed. Anglers may fish from either bank or boats. Anglers fishing in the state for which they do not hold a fishing permit must abide by the more restrictive of the two state's regulations. Both Iowa and Missouri resident anglers can fish waters of the Hamburg Bend WMA and the Nebraska portion of the Missouri River from the chute entrance (adjacent to Iowa) to the chute exit (adjacent to Missouri).

FISH STOCKING

It is unlawful to release any non-native fish, reptile or amphibian in waters of the state or to release any fish in any public waters in the state except those from which it came, without written authorization from the Game and Parks Commission.

NOTICE: DO NOT transfer any fish from one lake or stream to another. It is illegal to dump baitfish in a water body. You could be destroying your own fishing!

URBAN FISHING PROGRAM WATERS

The Urban Fishing Program was created by the Commission in 1999 to improve fishing in and around Nebraska's urban areas. The program focuses on city park and state recreation area lakes which are accessible to large numbers of urban residents, particularly children. Program activities include aquatic habitat improvement, fishing access development, fish stocking, fish population management, and family fishing clinics. Special fishing regulations will be used on some waters to help improve their fisheries and angler catch rates. In general, these regulations will reduce or restrict harvest of certain game species. Populations of these species should subsequently increase and provide anglers with higher catch rate opportunities.

The program focuses on city park and state recreation area lakes which are accessible to large numbers of urban residents, particularly children. Program activities include aquatic habitat improvement, fishing access development, fish stocking, fish population management, and family fishing clinics. Special fishing regulations will be used on some waters to help improve their fisheries and angler catch rates. In general, these regulations will reduce or restrict harvest of certain game species. Populations of these species should subsequently increase and provide anglers with higher catch rate opportunities.

It is vital that anglers follow the restrictive harvest regulations as these small urban waterbodies cannot handle high harvest and still maintain good catch rates. Program waters should become favorite destinations for adults wishing to teach young children how to fish. Special fishing regulations are being placed on the following waters. (See Public Fishing Areas pgs. 30 - 55)

- Adams Park Pond (Omaha)
- Anseley City Lake
- Auble Pond (Ord)
- Auburn Rotary Club Lake
- Bennington Lion's Club Pond
- Benson Park Pond (Omaha)

- Yanney Park Lake (Kearney)

HELP WANTED

You can help fisheries managers by returning the tags from any tagged fish you catch. It will be returned along with data on where the fish was tagged.

FREE FISHING DAY

MAY 17

Free Fishing and Park Entry Day is designed to attract those who no longer fish or who have never fished and to give them an opportunity to do so without purchasing a permit. It is held on the Saturday prior to Memorial Day weekend. Anglers, both resident and non-resident, can take advantage of that day by taking a non-angler friend along to any water body in the state and showing them how much fun fishing can be.

KIDS' FISHING CLINICS

Is your club or organization interested in hosting a kids' fishing clinic? The Commission's Aquatic Education program has all the materials necessary to teach the youth in your community how much fun fishing can be. Fishing rods, bobbers, stickers and more are available from the Outdoor Education Division at the Outdoor Education Center at Ak-Sar-Ben Aquarium near Gretna, phone 402-332-3901.

FISHING TACKLE LOANER PROGRAM

The Nebraska Game and Parks Commission fishing tackle loaner program continues to grow. The program is a combined effort of the Outdoor Education, Parks, and Fisheries Divisions. The Commission is hoping to introduce even more Nebraskans to the fun of fishing by making fishing tackle available at 16 State Parks across the state. Zebco 33 spincast rod and reel combos, hooks, bobbers, weights, and other tackle are available for park guests to use during their stay, at no charge. Would-be anglers of all ages may borrow the fishing tackle, but during periods of high demand, children are given priority. Anglers are asked to return the tackle promptly when finished fishing so others may use the equipment. Anglers should not keep the tackle at their campsite for the duration of their visit. Some parks loan the tackle out of their main office, while

others have their campground hosts loan the equipment out. A few parks have bait you can use as well, but at most you will need to purchase your own at the park or bring it with you. The 16 participating park areas in Nebraska are:

- Alexandria SRA (Jefferson County)
- Branched Oak SRA - Area 1 and 4 campgrounds (Lancaster County)
- Calamus Reservoir SRA (Garfield County)
- Chadron State Park (Dawes County)
- Dead Timber SRA (Dodge County)
- Fort Kearny SRA (Kearney County)
- Fort Robinson State Park (Sioux County)
- Fremont SRA (Dodge County)
- Lewis and Clark SRA (Knox County)
- Mahoney State Park (Sarpy County)
- Medicine Creek Reservoir SRA (Frontier County)
- Pawnee SRA (Lancaster County)
- Platte River State Park (Cass County)
- Ponca State Park (Dixon County)
- Victoria Springs SRA (Custer County)
- Willow Creek SRA (Pierce County)

FISH KILL REPORTS

Report dead or dying fish by notifying your local conservation officer, district Game and Parks Commission office or the 24-hour State Patrol pollution complaint number, 402-471-4545, as soon as possible. Prompt notification will make it easier to determine the cause. Keep the water safe and clean for future fishing. Report dumping/pollution activities to the Environmental Protection Agency at 1-800-223-0425.

PRIVATE WATERS

Permission from the landowner is required to access any body of water, or stream, located on private property. The issue of fishing private waters raises several questions. Although a private body of water may receive fish for stocking from the Game and Parks Commission, the owner controls access to it and any-one fishing it must have a valid fishing permit. What constitutes a private pond that doesn't require anglers to have a

fishing permit? The only exception to the requirement of a permit is when a body of water is entirely on private land, has been entirely privately stocked with private hatchery-reared fish, and doesn't connect by inflow or outflow with other waters outside the pond owner's property. An unlicensed angler who catches fish from such a body of water and wants to remove them from the premises must have a written statement from the pond owner listing the pond owner's name and the number of fish taken.

On a river or stream, when can a person legally enter private property without the owner's permission? After properly accessing a flowing body of water, an angler can fish while afloat in a tube, canoe or boat. An angler or canoeist in an unpowered vessel can enter private property without permission, only if it's necessary to portage around a fence or obstruction. Landowner permission is required to operate vehicles, such as all-terrain vehicles, along or in a stream.

TOURNAMENTS, CONTESTS AND DERBIES

Tournament Registration - All fishing tournaments, derbies or contests held on waters owned or controlled by the Commission, that require an entry fee to participate, must be registered with the Commission's Fisheries Division at least 45 days prior to the event. Voluntary information on other tournaments, such as club tournaments, are also welcome. A Fishing Tournament Approval Certificate must be present at the tournament site. Your tournament date will be listed on the Nebraska Game and Parks website.

Tournament Results - A "tournament results form" will be sent to the tournament director. This form must be completed and returned to the Commission's Fisheries Division within 30 days following the completion of the fishing tournament. Failure to return the form or provide the requested information will result in denial of future fishing tournament requests for at least one year.

Tagged fish - The use of tagged or otherwise marked fish are prohibited in any fishing tournament, derby or contest that are held on (1) waters owned or controlled by the Game and Parks Commission and (2) waters stocked by the Game and Parks Commission during the preceding 24 months, excluding private lakes not owned by the state or other governmental entity.

CATCH AND RELEASE WORKS

While fish populations are renewable resources and keeping some fish is good, big fish are rare. By releasing large fish, you are helping to maintain our future fishery resources.

Catch-and-release fishing only works when the fish you release survive. By using proper techniques, you give fish the best chance of survival. Here are a few guidelines:

- Wet hands and keep fish in water as much as possible when handling and removing the hook.
- Remove the hook gently. Do not squeeze the fish or put your fingers into the gills.
- Barbless hooks reduce handling time and make it simpler

- to remove the hook, often by backing it from the fish's mouth without lifting the fish from the water.
- Release the fish only after its equilibrium is maintained. If necessary, hold fish gently upright until it can swim away.
- Do not play the fish to exhaustion.

- Removal of deeply imbedded hooks by use of a hemostat or hook removal device is presently considered the best method to ensure higher survival of released fish. Modern hooks require a longer time period to rust so their presence can result in delayed mortality.

HOW TO MINIMIZE RISK BY CAREFULLY CLEANING YOUR FISH

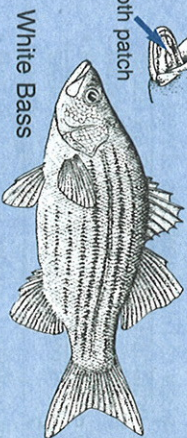

Limited Consumption: Although fish consumption advisories have been issued for the water bodies listed here, please note that a person consuming an occasional meal of fish (less than one 8-ounce serving per week) from these waters is not considered to be subject to a significant health risk.

KNOW WHAT YOU CAUGHT

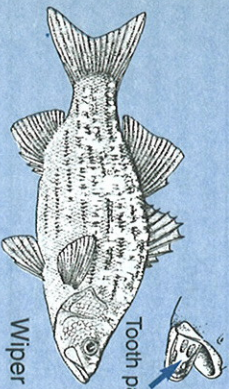

White Bass

- Anal fin spines stair-stepped
- Broken lateral stripes
- One tooth patch on base of tongue

Wiper

- Broken horizontal lines
- Usually two tooth patches on base of tongue

White Perch

- Second and third anal spine same length
- Sides nearly plain

Yellow Bass

- Has yellow cast
- 6-7 lateral stripes, 3 are above lateral line
- Lines are broken toward tail
- Second anal spine heavier than third

Merritt Reservoir – Nebraska's premier trophy fishery is one of the top fisheries in the U.S.! The lake is 11 miles long with 2,906 surface acres and 44 miles of shoreline. Depths reach 104 feet. Nestled in the heart of Nebraska's awesome Sandhills, Merritt's pure water, beautiful sand beaches and lack of development (other than Merritt Resort) make it a truly special impoundment. **Home of the Big Fish** – It's pristine waters produce an outstanding prey base to maintain our trophy fishery. Merritt has produced hundreds of Nebraska Master Angler Award fish as well as the state records for muskellunge and channel catfish.

Merritt Trading Post Resort

We can handle all your needs and services for an *eventful Sandhills experience* – full-service concession, cabins and camping.

WatersEdge Restaurant – Where great food is only the beginning! Truly "a place of casual elegance," this beautiful eatery is located right on the water, next to the resort. You can enjoy an even more casual atmosphere downstairs at Dillons. The panoramic view is dramatic from both levels.

NEBRASKA'S PUBLIC FISHING AREAS

PANHANDLE

The Panhandle is a haven for trout anglers. Rainbows, browns and brooks abound in the many Pine Ridge and North Platte valley cold-water streams. This area also contains several reservoirs and sandhill lakes that provide excellent walleye, tiger muskie, northern pike and panfish fishing.

DISTRICT I - PANHANDLE
Alliance Office
Al Hanson,
Fisheries Supervisor
(308) 763-2940
Fax (308) 763-2943

Box Butte County

Kilpatrick Lake - 160 acres, 22W, 1S of Alliance; Bluegill, channel catfish, largemouth bass, tiger muskie, walleye, yellow perch; Privately owned, but managed by NGPC, special regulations listed at the lake, water level very low in 2002.

Laing Lake - 10 acres, Alliance, W, 18th Street & Box Butte Avenue; Largemouth bass, bluegill, channel catfish; Channel catfish - daily bag limit of 3. Urban Fisheries Program Lake.

Dawes County

Bourdeaux Creek - SE of Chadron; Brook and brown trout; Total catch and release for all trout species on that portion of the creek located on the WMA. Only artificial lures with barbless hooks or hooks with flattened bars are allowed. Public access on Big Bourdeaux Creek WMA.

Box Butte Reservoir SRA - 1,600 acres, 10N of Hemingford; Bluegill, channel catfish, crappie, largemouth & smallmouth bass, pike, walleye, yellow perch, rock bass; Subject to severe summer drawdown, primitive camping, all boats allowed.

Chadron City Reservoirs - 20 acres in 2 ponds, 5½S of Chadron; Bluegill, channel catfish, largemouth bass, yellow perch, rainbow trout; non-powered boats allowed, public access.

Chadron Creek - S of Chadron; Brook and brown trout; Private access, permission required; public access at Chadron State Park.

Chadron State Park Pond - 2 acres, 9S of Chadron; Rainbow trout; Boats not allowed, wheelchair-accessible fishing pier.

Gabel Ponds - 6 acres in 4 ponds, Ft. Robinson SP; Rainbow trout, largemouth bass, bluegill, rock bass; No more than two lines with two hooks per line can be used ice fishing.

Ice House Ponds - 6 acres in 3 ponds, Ft. Robinson SP; Largemouth bass, bluegill; No more than two lines with two hooks per line can be used ice fishing.

Soldier Creek - 3W of Crawford; Brook, rainbow and brown trout; Public access at Fort Robinson State Park and Fort Robinson Wood Reserve.

Whitney Lake - 900 acres, 1½W of Whitney; Channel catfish, crappie, walleye, yellow perch, white bass; Private irrigation reservoir, access limited.

Wood Reserve Pond - 2 acres in 4 ponds, Ft. Robinson SP; Rainbow trout; located on Soldier's Creek Wilderness Area.

White River - W of Fort Robinson; Brown and rainbow trout; Public access at Fort Robinson State Park; private access requires permission.

Deuel County

Chappell Interstate Lake - 30 acres, ½S of Chappell, I-80 Exit 85 - Wheatland Drive; Black crappie, bluegill, channel catfish, walleye, largemouth bass, yellow perch; Owned and controlled by the city of Chappell, open to public fishing.

Goldeneye WMA - 17 acres, 1S, 3W of Big Springs; Black crappie, bluegill, channel catfish, largemouth bass, walleye, yellow perch

Garden County

Island Lake - 711 acres, Crescent Lake National Wildlife Refuge, 22N of Oshkosh; Bluegill, crappie, largemouth bass, yellow perch, walleye; No baitfish allowed, only dead smelt. No camping, electric motors only, area open one hour before sunrise to one hour after sunset.

Smith Lake - 225 acres, Crescent Lake National Wildlife Refuge, 26N of Oshkosh; Bluegill, black crappie, largemouth bass, yellow perch; No baitfish allowed, only dead smelt. No camping, open to fishing Nov. 1st - Feb. 15th. Fishing allowed during daylight hours only; Fisherman must be OFF the lake no later than 1 hour after sunset. No boats or float tubes allowed.

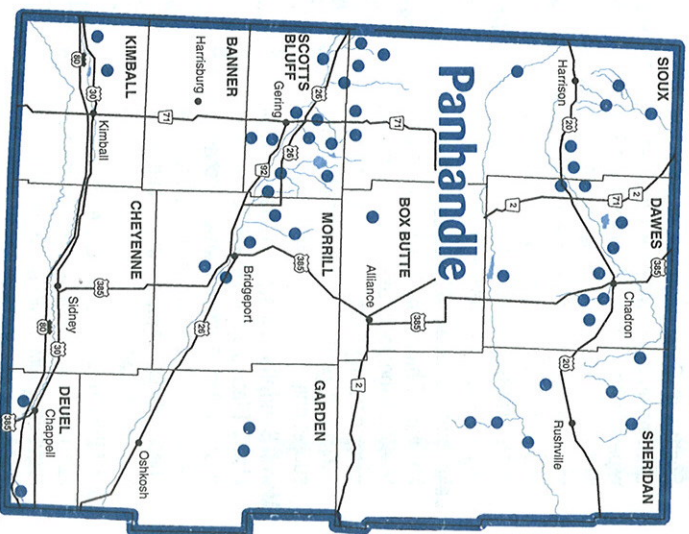

Kimball County

Lodgepole Creek - Kimball to Wyoming border; Brown and rainbow trout; Private access, permission required.

Oliver Reservoir SRA - 270 acres, 10W of Kimball; Bluegill, crappie, largemouth bass, yellow perch, walleye, channel catfish, carp, tiger muskie; All boats, primitive camping, wheelchair accessible; fishing pier.

Morrill County

Bridgeport SRA - 78 acres in 5 lakes, NW edge of Bridgeport; Bluegill, channel catfish, crappie, largemouth bass, walleye, yellow perch, (rainbow trout NW lake); primitive camping, all boats allowed on middle pit, all other pits electric trolling motors only.

Greenwood Creek - SE of Bridgeport; Brown and rainbow trout; Private access, permission required.

Red Willow Creek - E of Bayard; Brown and rainbow trout; Private access, permission required.

Silvernail Drain - E of Northport; Brown & rainbow trout; Private access, permission required.

Wildhorse Creek - N of Bayard; Brown trout; Private access, permission required.

Scotts Bluff County

Buffalo Creek WMA - 7 acres, 5S, 1½W of Melbeta; Largemouth bass, rainbow trout; No more than two lines with two hooks per line can be used ice fishing. Access via 1-mile foot trail.

Cochran Lake - 45 acres, 2SW of Melbeta; Carp, channel catfish; Private lake managed by NGPC.

Lake Minatare SRA - 2,300 acres, 12NE of Scottsbluff; Channel catfish, crappie, smallmouth bass, white bass, walleye, wipers, yellow perch; Waters within 150 feet of the dam are closed to fishing from sunset to sunrise beginning 12:01 a.m. March 1st and ending 12 p.m. April 30th. Camping, all boats allowed, closed Oct. 15 - Jan. 14 or as posted, subject to severe drawdowns.

Lake Winters Creek - 235 acres, N of Minatare; Channel catfish, yellow perch, bluegill, largemouth bass, walleye, muskie; Electric trolling motors only, closed Oct. 15 - Jan. 14 or as posted. Area open sunrise to sunset only.

Morrill Sandpits - 25 acres in 3 lakes, 3S of Morrill; Black crappie, bluegill, largemouth bass, rainbow trout, yellow perch, channel catfish; county owned, permission required, check with city of Morrill, no boating or camping allowed.

Nine Mile Creek - E of Minatare; Brown and rainbow trout; Private access, permission required; public access at Nine Mile Creek WMA.

Stuckenhole Creek - W of Bayard; Brown and rainbow trout; Private access, permission required.

Terry's Pit - 7 acres, Terrytown; Largemouth bass, rainbow trout.

Winters Creek - NE of Scottsbluff; Brown and rainbow trout; Private access, permission required.

Spotted Tail Creek - NW of Mitchell; Brown and rainbow trout; Private access, permission required.

Sheridan County

Isham Dam - 26 acres, NW of Hay Springs; Bluegill, bullhead, largemouth bass, yellow perch, crappie; Private lake, permission required, all boats allowed.

Larabee Creek - N of Rushville; Brook and rainbow trout; Private access, permission required.

Pine Creek - 20S of Rushville; Brown trout; Private property, permission required.

Smith Lake WMA - 290 acres, 23S of Rushville; Bluegill, black crappie, bullhead, largemouth bass, yellow perch, pike, walleye; Primitive camping, motor boats limited to 5 mph (no wake).

Walgren Lake SRA - 100 acres, SSE of Hay Springs; Bluegill, bullhead, largemouth bass, pike, walleye, yellow perch; Primitive camping, motor boats limited to 5 mph (no wake), wheelchair-accessible fishing pier.

White Clay Creek - NW of Rushville; Brown trout; Private access, permission required.

Sioux County

Carter P. Johnson Lake - 15 acres, Ft. Robinson SP; Rainbow trout; No more than two lines with two hooks per line can be used for ice fishing. Electric trolling motor only, wheelchair-accessible fishing pier.

Dry Sheep Creek - NW of Morrill; Brown and rainbow trout; Private access, permission required.

Dry Spotted Tail Creek - NW of Mitchell; Brown and rainbow trout; Private access, permission required.

Gilbert-Baker Pond - 2 acres, 10N of Harrison; Rainbow trout; Located on the Gilbert-Baker WMA.

Hat Creek - NE of Harrison; Brook trout; Private access, permission required.

Monroe Creek - 4½N of Harrison; Brook trout; Private access, permission required; public access on Gilbert-Baker WMA.

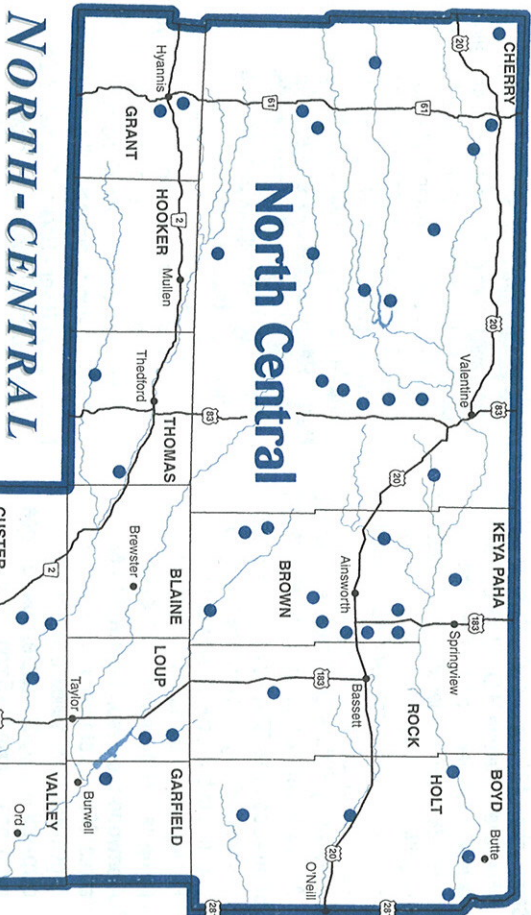

Niobrara River - Sioux and Dawes Cos.; Brown and rainbow trout; Private access, permission required; extremely low water in summer.

Sheep Creek - NW of Morrill; Brown and rainbow trout; Private access, permission required.

Sowdell Creek - NE of Harrison; Brook trout; Private access, permission required.

Tub Springs - NE of Mitchell; Brown and rainbow trout; Private access, permission required.

University Lake - 30 acres, 7NW of Scottsbluff; Largemouth bass, bluegill, yellow perch.

NORTH-CENTRAL

The Sandhills region contains most of the natural lakes that occur in the state. These shallow, but very productive lakes provide excellent fishing for northern pike, yellow perch and bluegill.

DISTRICT II - SANDHILLS
Bassett Office
Joel Klammer,
Fisheries Supervisor

(402) 684-2816

Boyd County

Hull Lake - 6 acres, ½W, 2S 1W 1½S of Butte; Bluegill, channel catfish, largemouth bass; no drinking water.

Brown County

Keller Park SRA - 7 acres in 5 ponds, 11S of Springview; Bluegill, channel catfish, largemouth bass, rainbow trout; ponds No. 4 & 5 have catchable trout, camping.

Long Lake SRA - 155 acres, 8½W, 21S of Ainsworth; Bullheads, pike, yellow perch; Motor boats limited to 5 mph (no wake).

Long Pine SRA (Long Pine Creek) - W of Long Pine; Brown & rainbow trout; Long Pine Creek access.

Long Pine WMA (Long Pine Creek) - 1N, ¼W of Long Pine; Brown & rainbow trout; Public access to Long Pine Creek, remainder of stream is private access, permission required.

Pine Glen WMA (Long Pine Creek) - 2E, 8¼N of Long Pine; Brown & rainbow trout; Long Pine Creek access.

Plum Creek - W of Johnston; Brown & rainbow trout; Public access at Bobcat WMA (10N, 1W, ½N of Ainsworth) and Plum Valley WMA (½W of Johnston on US 20, 1.25 S on county road). One acre pond on Plum Valley WMA stocked with rainbow trout. Rest of stream privately owned, permission required.

Willow Lake - 313 acres, 18½S 12¼W, 1N of Ainsworth; Bluegill, bullhead, channel catfish, crappie, largemouth bass, yellow perch; Largemouth bass - 21" minimum length limit. Primitive camping, motor boats limited to 5 mph (no wake), snowmobiles and ATV's allowed on ice.

Calamus River - Brown Co. and Loup Co.; Carp, channel catfish, pike; Private access, permission required, canoe sites and camping.

Cherry County

Big Alkali WMA - 842 acres, 16S, 4W, 1½S of Valentine; Bluegill, channel catfish, crappie, largemouth bass, pike, yellow perch; All boats allowed, ramp, camping, fishing camp. Snowmobile and ATV's allowed on ice.

Boardman Creek - 35SW of Valentine; Brown & rainbow trout; Private access, permission required.

Clear Lake - 425 acres, 16S, 6W 8S of

Valentine to Refuge H.Q.; Black bullhead, bluegill, pike, yellow perch; Northern pike - 28" maximum length limit; Possession of baitfish prohibited, dead smelt allowed; Possession of fish not taken from refuge waters unlawful; No camping, electric motors only; Refuge open sunrise to sunset; Aquatic vegetation hampers summer fishing.

Cottonwood Lake SRA - 34 acres, 1/2E, 1/2S of

Merriman; Bluegill, channel catfish, crappie, largemouth bass, pike, yellow perch; Primitive camping, aquatic vegetation hampers summer fishing, all boats allowed.

Cottonwood-Steverson Lake WMA - 680

acres, 30N, 2E of Hyannis; Bluegill, largemouth bass, yellow perch, muskie, carp, walleye, black crappie; Concrete boat ramp, boats limited to 5mph (no wake), snowmobile and ATVs allowed on ice.

DeFair Lake WMA - 70 acres, 1E, 2S, 1/2E of

Hyannis; Largemouth bass, yellow perch.

Dewey Lake - 550 acres, 16S, 6W 8S of

Valentine to Refuge H.Q.; Bluegill, largemouth bass, pike, yellow perch; Northern pike - 28" maximum length limit; Possession of baitfish prohibited, dead smelt allowed; Possession of fish not taken from refuge water unlawful; No camping, electric motors only; Refuge open sunrise to sunset; Aquatic vegetation hampers summer fishing.

Duck Lake - 66 acres, 16S, 6W 8S of

Valentine to Refuge H.Q.; Bluegill, bullhead, largemouth bass, yellow perch; Possession of baitfish prohibited, dead smelt allowed; Possession of fish not taken from refuge waters unlawful; No camping, electric motors only; Refuge open sunrise to sunset; Aquatic vegetation hampers summer fishing.

Hackberry Lake - 680 acres, 16S, 6W 8S of

Valentine to Refuge H.Q.; Bluegill, largemouth bass, pike, yellow perch; Northern pike - 28" maximum length limit; Possession of baitfish prohibited, dead smelt allowed; Possession of fish not taken from refuge waters unlawful; No camping, electric motors only; Refuge open sunrise to sunset; Aquatic vegetation hampers summer fishing.

Home Valley Lake - 220 acres, 30N, 21/2E, 1N

of Hyannis; Bluegill, largemouth bass, yellow perch, black crappie, walleye, carp; Part of the Cottonwood-Steverson WMA, no motorboats allowed, portage route from Cottonwood-Steverson Lake; Snowmobile and ATVs allowed on ice.

Merritt Reservoir SRA - 2,900 acres, 26SW of

Valentine; Bluegill, yellow perch, bullhead, channel catfish, crappie, largemouth & smallmouth bass, muskie, pike, walleye, white bass, yellow perch, carp; The daily bag limit of four walleye may include one walleye 15-18" and three over 18" or four over 18" but only one walleye over 22 inches is allowed; Camping available, all boats allowed.

Middle Loup River - Hooker, Thomas, Blaine &

Custer counties; Upper river - brown & rainbow trout; Lower - carp, channel catfish; Public access at Milburn & Arcadia diversions; rest private access, permission required.

Niobrara River - Brown, Keya Paha & Boyd

Co.; Channel catfish, sauger, carp; Private access, permission required.

North Loup River - Blaine & Loup counties;

Upper river - brown & rainbow trout, Lower - carp, channel catfish; Private access, permission required.

Pelican Lake - 798 acres, 16S, 6W 8S of

Valentine to Refuge H.Q.; Black bullhead, bluegill, largemouth bass, pike, yellow perch; Northern pike - 28" maximum length limit; Possession of baitfish prohibited, dead smelt allowed; Possession of fish not taken from refuge waters unlawful; No camping, electric motors only; Refuge open sunrise to sunset; Aquatic vegetation hampers summer fishing.

Rat and Beaver WMA - 450 acres in 2 lakes,

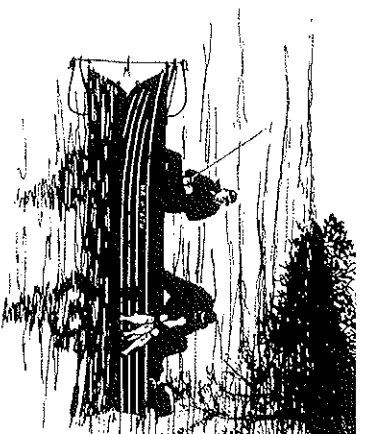

30S, 7W of Valentine; Bullhead, crappie, bluegill, carp, pike, yellow perch; no direct public access, permission across private land required for access.

Schlagel Creek WMA (Schlagel Creek) -

16S, 4W, 4N of Valentine; Brown trout; Private access, permission required except on Schlagel Creek WMA.

Schoolhouse Lake - 105 acres, 24S of Nenzel;

Black crappie, bluegill, bullhead, largemouth bass; Private access, permission required.

Shell Lake - 160 acres, 3N, 4E, 8N of Gordon;

Bluegill, channel catfish, largemouth bass, pike, yellow perch; Aquatic vegetation hampers summer fishing, power boats limited to 5 mph (no wake).

Snake River (Upper Reach) - near Gordon;

Brown & rainbow trout; Private access, permission required.

Watts Lake - 230 acres, 16S, 6W 8S of

Valentine to Refuge H.Q.; Bluegill, largemouth bass, muskie, yellow perch; Catch and release only for largemouth bass and muskelunge; Possession of baitfish prohibited, dead smelt allowed; Possession of fish not taken from refuge waters unlawful; No camping, electric motors only; Refuge open sunrise to sunset; Aquatic vegetation hampers summer fishing.

West Long Lake - 62 acres, 16S, 6W 8S of

Valentine to H.Q.; Bluegill, largemouth bass, yellow perch, pike; Northern pike - 28" minimum length limit; Possession of baitfish is prohibited, dead smelt allowed; Possession of fish not taken from refuge waters unlawful; No camping, electric motors only; Refuge open sunrise to sunset; Aquatic vegetation hampers summer fishing.

Willow Lake FWS - 354 acres, 23 1/2S, 3W of

Valentine; Carp, pike, yellow perch; Northern pike - 28" maximum length limit; Possession of baitfish prohibited, dead smelt allowed; Possession of fish not taken from refuge waters unlawful; No camping, electric motors only; Refuge open sunrise to sunset; Aquatic vegetation hampers summer fishing.

Fairfield Creek - 8N, 2E of Wood Lake to forks

or 2 1/2W of Norden Road on S side of Niobrara River to mouth of creek; Brown & rainbow trout; Private access, permission required; vehicle access difficult, most areas accessible by long hike.

Custer County

Arnold Lake SRA - 4 acres, 1/2S of Arnold,

west side of Rt. 40; Bluegill, channel catfish, largemouth bass, pike; Dense aquatic vegetation in summer.

Melham Park Lake - 4 acres, Broken Bow,

north of Memorial Drive, east of N. 5th Avenue; Largemouth bass, bluegill, channel catfish; Panfish - daily bag limit of 10 in combination, channel catfish - daily bag limit of 3. Urban Fisheries Program Lake.

Milburn Diversion (Middle Loup River) -

Milburn; Carp, channel catfish; Middle Loup River access.

Victoria Springs Lake SRA - 6 acres, 6E of

Anselmo off Rt. S21A; Bluegill, channel catfish, largemouth bass, rainbow trout; Cabins and camping, electric motors only.

Grant County

Frye Lake - 243 acres, 1N, 1 1/2E of Hyannis;

Bluegill, largemouth bass, yellow perch, walleye; Power boats limited to 5 mph (no wake), fishery renovated in fall of 2002, no fishing opportunity in 2003.

Holt County

Atkinson SRA - 5 acres, 1/2W of Atkinson;

Bluegill, channel catfish, carp, largemouth bass, pike; Primitive camping; electrical hookups; Elkhorn river access.

Spencer WMA (Niobrara River) - 18N of

O'Neill; Channel catfish, carp, sauger; Bag limit on channel catfish is 5 from the dam downstream to the Missouri River. Primitive camping; Niobrara River access below dam.

Swan Lake - 235 acres, 26S, 1/2W of Atkinson;

Bluegill, channel catfish, largemouth bass, northern pike, yellow perch; Power boats limited to 5 mph, private lake leased for fishing only.

Keya Paha County

Cub Creek Lake - 27 acres, 8 1/2W of Springview;

Bluegill, channel catfish, largemouth bass, walleye, yellow perch; Electric fishing motors only; primitive camping; NRD lake.

NORTHEAST

Anglers in the northeast find exciting fishing action at popular Lewis & Clark Lake, as well as many small farm ponds, catfish and trout streams and the mighty Missouri River.

Narrows WMA (Republican River) - 4W of Red Cloud on Hwy. 136; Carp, channel catfish, white bass.

SOUTHEAST

Fishing opportunity is increasing in the Southeast. NRD lakes are adding hundreds of acres of fishing water to the area. Farm ponds, streams and rivers are important, but under-used, fisheries. In spite of potential for heavy fishing pressure, anglers will find plenty of opportunities to catch catfish largemouth bass and bluegill in most waters.

If you make an outstanding catch, it may qualify for either a Game and Parks Commission State Record or a Master Angler Award. Application forms are available from any Commission office, conservation officer or permit vendor. Rules include:

STATE RECORD RULES

1. Fish **MUST** be caught in accordance with Nebraska Fishing Regulations by rod and reel (not set lines or limb lines), underwater spear-fishing, surface spearing, or archery, and **MUST** be taken from Nebraska waters.

2. Accredited or certified weigh scales **MUST** be used to weigh the fish. A commercial measuring tape or stick should be used to measure the fish. The fish should be measured, from the tip of the mouth (closed) to the tip of the tail (tail lobes pressed together) with the fish laying flat on the tape.

3. Only fish that exceed current record by at least one ounce, are eligible for a new State Record.

4. Two witnesses, one of which **MUST** be a permanent employee of the Nebraska Game and Parks Commission, must witness the weighing and measuring of the fish and sign the application.

5. The angler **MUST** display a Nebraska fishing permit to the Game and Parks employee that witnesses the weight on the application.

6. One clear photograph showing a close-up sideview of the fish, and one clear photograph showing the angler with the fish **MUST** accompany the completed application form. All photographs become the property of the Commission.

7. The species of fish **MUST** be verified by a Nebraska Game and Parks fisheries biologist. The fish **MUST** be preserved flat until species is verified.

8. The Commission reserves the right to collect fish scale, tissue, or spine samples to check fish identification, and to refuse any questionable application submitted.

9. The Commission reserves the right to revoke state records if the record holder is found in possession of illegal fishing gear or has been cited for repeated fishing violations that cast suspicion on the authenticity of the record catch.

10. No fish caught from any aquaculture or commercial put-and-take facility is eligible.

11. The application must be submitted within 30 days of the date the fish is caught.

MASTER ANGLER

1. All fish must be taken from Nebraska waters.

2. If a fish is caught from private waters, a valid fishing permit is required to receive the award.

3. Fish must be taken by hook-and-line. Fish caught on banklines are not eligible. Fish must be legally hooked, played and landed by the applicant for the award.

4. The catch must be verified. This may be done by an employee of the Game and Parks Commission, a permit vendor, a witness or a photograph.

5. Anglers 16 years of age or older must possess a current Nebraska fishing permit and enter the permit number on the application.

6. Only fish immediately released are eligible for an award based on length. Any fish kept in a livewell or on a stringer must meet the minimum weight requirement to receive an award.

7. Anglers may receive only one award based on weight per year for each species. There is no limit on the number of catch-and-release awards.

8. Anglers who release a Master Angler fish will receive a "Catch and Release Master Angler" pin in addition to the Master Angler certificate.

9. Minimum weights must be met to qualify for a Master Angler Award for a harvested fish.

10. Minimum lengths are used strictly for Master Angler Awards for a fish that was caught and released.

THE MINIMUM SIZE REQUIREMENTS ARE:

American Eel	24 in. or 1 lb.	Crappie	15 in. or 2 lbs.
Largemouth Bass	20 in. or 5 lbs.	Drum	22 in. or 5 lbs.
Spotted Bass	18 in. or 3 lbs.	Gar	40 in. or 8 lbs.
Rock Bass	11 in. or 1 lb.	Goldeye	16 in. or 1.5 lbs.
Smallmouth Bass	18 in. or 3 lbs.	Muskellunge/Tiger Muskie	40 in. or 15 lbs.
Striped Bass	32 in. or 10 lbs.	Paddlefish	*45 in.
Striper Hybrid	24 in. or 8 lbs.	Yellow Perch	13 in. or 1.25 lbs.
White Bass	17 in. or 2.5 lbs	White Perch	12 in. or 1 lb.
Bluegill	10 in. or 1 lb.	Northern Pike	36 in. or 10 lbs.
Buffalo	26 in. or 10 lbs.	Sauger	21 in. or 3 lbs.
Bullhead	15 in. or 2 lbs.	Saugeye	23 in. or 5 lbs.
Burbot	16 in. or 1 lb.	Shovelnose Sturgeon	28 in. or 2.5 lbs.
Carp	32 in. or 15 lbs.	Sucker	18 in. or 2 lbs.
Blue Catfish	40 in. or 30 lbs.	Sunfish	10 in. or 1 lb.
Channel Catfish	30 in. or 12 lbs.	Brook Trout	14 in. or 1 lb.
Flathead Catfish	32 in. or 15 lbs	Brown Trout	22 in. or 4 lbs.
		Rainbow Trout	23 in. or 5 lbs.
		Walleye	28 in. or 8 lbs.

Note: for additional information on Nebraska's Record Fish check the Nebraska Game and Parks Commission website at www.outdoornebraska.org

NEBRASKA PADDLEFISH HARVEST TAGS

The paddlefish is a limited and precious resource, and it is important that the harvest be closely regulated. A tag will be required for both archers and snaggers who want to harvest a paddlefish (see "Paddlefish Archery" and Snagging," p.17).

It is important to remember that one person can have no more than one tag for the archery season and two for the snagging season. These tags are non-transferable, they must be in possession while actively pursuing a paddlefish, and they must be immediately attached and locked shut to the dorsal fin of a harvested paddlefish. Archers will have a 16 consecutive day season, beginning on **JULY 12** and snaggers will have a 30-day season, **OCTOBER 1-30**.

*Current regulations allow only one permit per person during the archery season. This regulation may be changed prior to the 2003 archery season.

Application Fee:

Starting in 2003, a \$5.00 application fee must be submitted by each resident and non-resident applicant in order to be placed into the drawing for a paddlefish tag. This is a non-refundable fee. To apply for a paddlefish tag, fill out the form to the right or apply online at www.outdoornebraska.org. An angler may only apply once during each application period.

Archery and Snagging Preference System

- **Preference.** During the first application period preference will be given to those that did not have a permit the previous year.

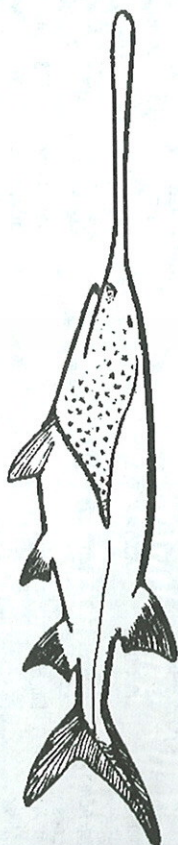

If all tags are taken in the first application period, there will be no second application period.

Paddlefish Archery Harvest Tag Application Periods

First Application Period April 1 - 30*
There will be no second drawing if all harvest tags are issued in the first drawing
 Second Application Period (First tag only) May 15 - 31*

Paddlefish Snagging Harvest Tag Application Periods

First Application Period July 1 - 31*
There will be no second drawing if all harvest tags are issued in the first drawing
 Second Application Period (First or Second Tag) August 15 - 31*
 *All application periods begin at 1 P.M. Central Daylight Savings Time. Mailed applications must be received in the Lincoln office by 5 P.M. on the last day of the application period. On line applications end at midnight.

APPLICATION FOR PADDLEFISH HARVEST TAG

Cost: \$5.00 per Application (Non-refundable)

Type of Paddlefish tag requested

- Paddlefish Archery Harvest Tag
 Paddlefish Snagging Harvest Tag

There will be no second drawing if all harvest tags are issued in the first drawing.

You may apply for all your permits online at:
www.outdoornebraska.org
