General Regulations

NOTICE

This is a guide only. For sources, consult Nebraska statutes and official regulations.

WHY BUY A PERMIT?

It is important for anglers to buy a fishing permit to support Nebraska fisheries management and habitat protection and restoration projects.

WHO MUST HAVE A PERMIT?

A fishing permit is required to take, or attempt to take, fish, bullfrogs, snapping turtles, tiger salamanders or mussels by any method. An angler must carry the fishing permit while actively fishing. A resident fishing permit is required for all Nebraskans 16 years of age and older. A resident is a person who has resided in Nebraska continuously for at least 30 days and has a bona fide intention of becoming a legal resident of this state. Others who may obtain a resident permit include: **(1)** military personnel stationed in Nebraska and on active duty here for at least 30 consecutive days; **(2)** nonresident students upon proof they have attended classes full time for at least 30 consecutive days at any Nebraska college, university, junior college, vocational school or any foreign exchange high school student; and **(3)** any person duly enrolled in and attending a civilian conservation center or similar government work or training facility for 30 consecutive days.

A **nonresident fishing permit** is required of all people who are not Nebraska residents, except those listed above and those under 16 years of age who are accompanied by someone possessing a valid Nebraska fishing permit.

See the Border Waters section for

permit requirements for fishing the waters of the Missouri River.

The owner, or a guest of the owner, of any totally private body of water which: **(1)** is located entirely on private land; **(2)** is entirely privately stocked; **(3)** does not connect by inflow or outflow with any other off-property body of water; and **(4)** is not commercially operated, is not required to have a fishing permit on that body of water.

Fee-exempt permits are available to the following resident veterans: **(1)** 50 percent disabled as a result of armed forces service, **(2)** those who received a pension from the Veterans Administration as a result of a total and permanent disability not incurred in the line of duty in military service, and **(3)** those who obtained fee-exempt permits prior to Jan. 1, 2006. Information and application forms are available from Nebraska Game and Parks Commission offices and permit agents. An annual \$5 fish/hunt permit is available for veterans 64 and older and residents 69 and older.

A **“special fishing permit”** is available for physically or developmentally disabled persons who cannot cast or retrieve unassisted. This permit entitles the disabled person and one person assisting them or her to take, fish, catch, harvest or possess any aquatic organism in compliance with state regulations. If the person assisting does not possess a current fishing permit, they are restricted to one daily bag limit between the two anglers. The annual permit is issued on a calendar year basis and costs \$5. A “disabled person” means a person certified by a physician to have a permanent physical impairment or developmental disability that results in the inability to use fishing equipment unassisted. Applications are available from the Commission headquarters in Lincoln or offices in Alliance, Bassett, Kearney, Norfolk, North Platte, Omaha and the Ak-Sar-

Ben Aquarium near Gretna.

An **educational fishing project permit** can be obtained by instructors at any university, college, or high school from the Fisheries Division for his/her students, 16 years of age and older, who are participating in an educational fishing project.

CHANGES FOR 2009

- Trout and salmon – The daily bag limit of trout (rainbow, brown and brook in combination) in inland waters and waters of the Missouri River has been reduced from 7 to 4, with a possession limit of 8. The intent is to reduce and spread the harvest over a longer period among more anglers in waters where trout survive year-round, particularly in streams.
- The trout daily bag limit and possession limit has been increased from 7 and 14, respectively to 8 and 16 at designated put and take lakes and ponds that do not support trout year-round and are stocked in the fall, winter, and/or spring. The intent is to boost fishing participation, particularly in urban areas. The following waters are included in this regulation: Arnold Lake SRA (Custer Co.), Auble Pond (Valley Co.), Auburn Rotary Club Lake (Nemaha Co.), Barnett Park Lake (Red Willow Co.), Benson Lake (Douglas Co.), Birdwood WMA Lake (Lincoln Co.), Bowling Lake (Lancaster Co.), Crystal Cove Lake (Dakota Co.), Crystal Springs lakes (Jefferson Co.), Curtis Golf Course Pond (Frontier Co.), David City Park ponds (Butler Co.), Fremont SRA lakes (Dodge Co.), Grand Island Such's Lake (Hall Co.), Lake Halleck (Sarpy Co.), Heartwell Park Lake (Adams Co.), Hitchcock Lake (Douglas Co.), Holdrege City North Lake (Phelps Co.), Holmes Lake (Lancaster Co.), Humphrey Pond (Keith Co.), Lexington City Park Lake (Dawson Co.), Niobrara State Park ponds (Knox Co.), Pawnee Park East Lake (Platte Co.), Qwest Lake (Cass Co.), Standing Bear Lake (Douglas Co.), Steinhart Park ponds (Otoe Co.),

TaHaZouka Park Pond (Madison Co.), Towl Park Pond (Douglas Co.), Weeping Water Pond (Cass Co.), and Windmill SRA lakes (Buffalo Co.).

- Black bass – Establish a 15-inch minimum length limit on all black bass (largemouth, smallmouth and spotted) in all inland waters, both public and private. The intent is to simplify black bass length limit regulations and to improve the quality of smallmouth bass by reducing harvest of bass less than 15 inches in length.
- Added Swan Creek 67 (Saline Co.) to the waters with 21-inch black bass minimum length limits and deleted Willow Lake (Brown Co.).
- Added the entire Two Rivers SRA and Bowling Lake to waters where no black bass harvest is allowed.
- Striped Bass, White Bass and their hybrids – removed the special regulations of a minimum length limit of 18 inches and daily bag limit of 1 from Bridgeport SRA (Morrill Co.), Fremont SRA (Dodge Co.), Fort Kearny SRA (Kearney Co.), Windmill SRA (Buffalo Co.) and Louisville SRA (Cass Co.).
- Added Wagon Train Reservoir (Lancaster Co.) to the list of waters with a daily bag limit of 3 hybrid striped bass and possession limit of 6.
- Channel Catfish – reduced the daily bag limit to 5 and possession limit to 10 at Calamus (Garfield and Loup Cos.), Harlan Co. and Merritt (Cherry Co.) reservoirs.
- Added Bowling Lake (Lancaster Co.) to the list of waterbodies with a daily bag limit of 3 channel catfish.
- Walleye, Sauger and Saugeye – Harlan Co. and Calamus (Garfield and Loup Cos.) reservoirs will be managed using the same regulations Merritt Reservoir. This regulation allows the harvest of no more than one fish 15 to 18 inches and three over 18 inches or four over 18 inches of which no more than one can be 22 inches or greater in length.
- Sherman Reservoir (Sherman Co.)

has a daily bag limit that allows two walleyes greater than 15 inches but less than 20 inches and one walleye greater than 28 inches. There is a slot limit protecting walleyes 20 through 28 inches. The goal is to protect large walleyes that will be available for use as brood stock for statewide walleye stocking needs.

- Northern Pike – Cottonmill Lake (Buffalo Co.) will retain a 30-inch minimum length limit, but the daily bag limit will be changed to the statewide limit of 3.
- Panfish – The 8-inch minimum length limit on bluegill was removed from Mormon Island SRA (Hall Co.) and Windmill SRA (Buffalo Co.). Bowling

2009 FISHING AND PARK PERMITS	
ALL FISHING PERMITS INCLUDE AN AQUATIC HABITAT STAMP	
RESIDENT	
Annual Fish*	\$26.00
Combination Fish-Hunt*	37.50

BAG AND POSSESSION LIMITS

***Be sure and check the “Nebraska’s Public Fishing Waters”
(page 30) section for special bag,
possession and length limits on specific water bodies.**

STATEWIDE

SPECIES	Bag	Poss.
TROUT (ALL SPECIES COMBINED)*	.4	.8
STRIPED BASS, WHITE BASS & THEIR HYBRID* (no more than 1 fish over 18 inches on all waters)	.15	.30
WALLEYE/SAUGER/SAUGEYE* (in combination, only one 22 inches or longer allowed in daily bag. Inland waters only)	.4	.8
MUSKELLUNGE/TIGER MUSKIE	.1	.2
BAITFISH, TIGER SALAMANDERS AND LEOPARD FROGS (in combination)	.100	.100
SHOVELNOSE STURGEON (no harvest allowed on the Missouri River upstream from mouth of the Big Sioux River)	.10	.20
PALLID AND LAKE STURGEON	.No Harvest Allowed	
NORTHERN PIKE*	.3	.6
BLUE CATFISH	.1	.2
FLATHEAD CATFISH*	.5	.10
PANFISH* (see species list on page 14)	.30	.60
MUSSELS AND CLAMS	.10	.20
GAME FISH and NON-GAME FISH SPECIES NOT LISTED	.No Limit	
BULLFROGS	.8	.16
SNAPPING TURTLES	.10	.20

INLAND WATERS

SPECIES	Bag	Poss.
LARGEMOUTH, SMALLMOUTH, SPOTTED BASS, (BLACK BASS COMBINED)* (only one bass 21 inches or longer allowed in the daily bag)	.4	.8
CHANNEL CATFISH*	.10	.20

WATERS OF THE MISSOURI RIVER

SPECIES	Bag	Poss.
LARGEMOUTH, SMALLMOUTH, SPOTTED BASS, (BLACK BASS COMBINED) (only one bass 21 inches or longer allowed in the daily bag)	.5	.10
CHANNEL CATFISH (including the Niobrara River downstream from Spencer Dam)	.5	.10
PADDLEFISH (special permit required)	.2	.2

Lake (Lancaster Co.) was added to the list of waterbodies with a daily bag limit of 10 bluegills.

- High Use Fishing Area Regulations – With the growing number of waterbodies managed with a simple set of harvest restrictions, this designation was developed to simplify fishing regulations for anglers. High Use Fishing Area Regulations are: 21-inch minimum length limit on black bass, 10-fish daily bag limit on panfish and 3-fish daily bag limit on channel catfish. A complete listing of waterbodies managed with this set of regulations can be found on page 11 as well as listed in the Public Waters Section.
- Bait Fish Regulations – Baitfish taken by anglers from the Missouri River below Gavins Point Dam can only be used in that area. It is illegal to move any baitfish away from that area of the river. This also includes collections by bait dealers. The intent is to reduce the likelihood of invasive species, particularly Asian carp, being introduced above Gavins Point Dam or to inland waters.
- Individual anglers will no longer be allowed to import live baitfish (from out of state) for use in inland waters. This does not include the Missouri River. The intent is to reduce the likelihood of fish diseases, particularly Viral Hemorrhagic Septicemia (VHS), from entering Nebraska.
- Private Waters and Fish Salvage can now be found on the web at www.OutdoorNebraska.org

BAG, POSSESSION, AND LENGTH LIMITS

Bag and possession limits may vary between “inland waters” and “waters of the Missouri River.” For this purpose only, “inland waters” includes all waters of the state except the waters of the Missouri River. “Waters of the Missouri River” includes all of the river along Nebraska’s border and all reservoirs, oxbows, sloughs, chutes, backwaters

and marshes that have annual surface water connection to the river and the first 300 yards upstream from the mouth of all tributary streams.

Any fish that is not to be counted in the bag limit must be returned immediately to the water with as little injury as possible. Any fish placed on a stringer or in a container, or not returned to the water must be counted in the bag; thus, no culling or high-grading is allowed.

Daily Bag: The daily bag limit is fish harvested from midnight to the following midnight. No person may possess more than one day’s bag limit of fish while on the water or actively engaged in fishing.

Possession Limit: This is the total number of fish that a person may possess in portable coolers, home freezers, registered in his/her name in a commercial cold storage locker or in any way under their control. Fish or aquatic animals placed in public storage or transferred must be labeled with the owner’s name, address, phone number, date of birth, signature, date taken, species and numbers and the name of recipient, if transferred.

Length Limit: The proper method to measure length is to lay the fish on its side with its mouth closed and the tail lobes pressed together. With a yardstick or tape measure under the fish, measure the length from the tip of the snout to the end of the tail. (Do not follow the contour of the fish, which would exaggerate its length). A minimum length limit means a fish must be equal to or longer than the defined length to be legally harvested. A maximum length limit means a fish must be shorter than the defined length to be legally harvested.

Protected Slot Limit: This is a range of lengths of a particular species that cannot be legally harvested. For instance, a 28-to-34 inch protected slot limit on northern pike means that only northern pike less than 28 inches in length or greater than 34 inches can be harvested.

One-Over Length Bag Limits: For some species, such as largemouth bass and walleye, the number of large fish that can be harvested may be limited on some or all waters. For example, while it may be legal to harvest four largemouth bass more than 15 inches from a given lake, statewide regulations prohibit an angler from harvesting more than one largemouth bass 21 inches or longer each day from any waters. Therefore, for lakes with a 21-inch minimum length limit on largemouth bass, the daily bag limit becomes one fish.

LENGTH LIMITS

Statewide & Special Length Limits: These species have minimum length limits statewide: largemouth, smallmouth and spotted bass; walleye, sauger, saugeye, and muskellunge. Refer to the Public Waters Section of this guide for special regulations on specific waterbodies.

Black Bass (largemouth, smallmouth, and spotted)

Daily bag limit can contain only one black bass of 21 inches or longer, statewide.

12-inch minimum – The Missouri River between Nebraska and Iowa, and between Nebraska and Missouri.

15-inch minimum – All inland waters. This includes DeSoto National Wildlife Refuge (Washington Co.), Snyder Bend Lake (Dakota and Thurston cos.) and Lake Yankton (Cedar Co.). Exceptions are those waters that are regulated by either a 21-inch minimum or catch and release on all black bass species.

Walleye, Sauger and Saugeye

Daily bag limit can contain only one walleye, sauger or saugeye of 22 inches or longer on all inland waters, except Elwood and Sherman Reservoirs.

15-inch minimum – statewide except for that portion of the Missouri River downstream of Gavins Point Dam (no minimum length) and selected reservoirs listed below. DeSoto National Wildlife Refuge (Washington Co.) has a 15-inch minimum length.

• **Merritt, Calamus and Harlan Co. reservoirs** – daily bag limit of four may include one walleye from 15 to 18 inches and three over 18 inches or four over 18 inches, but no more than one over 22 inches allowed in the daily bag.

• **Sherman Reservoir** – daily bag limit may include two walleye greater than 15 inches but less than 20 inches and one walleye greater than 28 inches. There is a slot limit protecting 20-to-28-inch walleyes.

• **Elwood Reservoir** – 15-inch minimum length in conjunction with an 18 to 24-inch protected slot limit

KNOW YOUR CATCH

Channel Catfish

- Anal fin has 24 - 29 rays, with outer margin rounded
- Spots not present on large fish

Blue Catfish

- Anal fin has more than 30 rays, with outer margin straight

Flathead Catfish

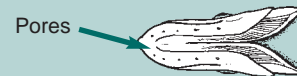

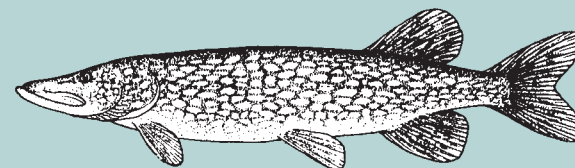

- Lower jaw extends past upper jaw.
- Square, unforked tail

KNOW YOUR CATCH

Northern Pike

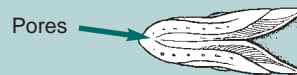

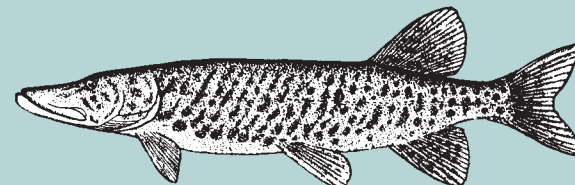

- Five or fewer pores on each side of lower jaw
- Cheeks fully scaled

Northern Pike

Muskellunge

- Six or more pores on each side of lower jaw
- Upper half of cheeks scaled

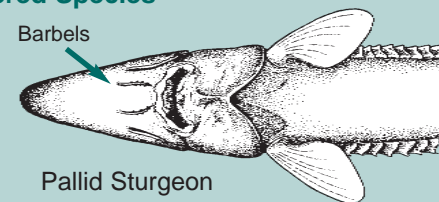

Muskellunge

KNOW YOUR CATCH

Pallid Sturgeon - An Endangered Species

- Illegal to possess
- Outer barbels twice as long as inner barbels
- Base of barbels "U" shaped, inner two set out in front

Barbels

Pallid Sturgeon

Lake Sturgeon - A Threatened Species

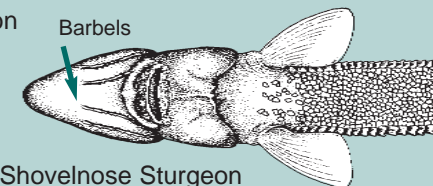

- Illegal to possess
- Short snout turns up at end
- Barbels are not fringed

Lake Sturgeon

Shovelnose Sturgeon

- Nebraska's most common sturgeon
- Barbels all the same length
- Barbels straight across
- Smallest Nebraska sturgeon, rarely exceeds 4 pounds

Barbels

Shovelnose Sturgeon

with only one walleye over 24 inches allowed in the daily bag limit.

- **Branched Oak Reservoir** – daily bag limit is one walleye 22 inches or longer.

Muskellunge/Tiger Muskie

40-inch minimum – statewide

Northern Pike

28-inch maximum – Valentine National Wildlife Refuge

30-inch minimum – Alda DOR (Hall Co.), Grove Lake (Antelope Co.), Cottonmill Lake (Buffalo Co.), Enders Reservoir (Chase Co.), Red Willow Reservoir (Frontier Co.), Maskenthine Reservoir (Stanton Co.) and Sherman Reservoir (Sherman Co.).

28-to-34 inch protected slot length limit – Box Butte Reservoir (Dawes Co.) and Goose Lake (Holt Co.)

Crappie

10-inch minimum: Branched Oak Reservoir (Lancaster Co.), Czechland Lake (Saunders Co.), Sherman Reservoir (Sherman Co.), Walnut Creek Recreation Area (Sarpy Co.), Wehrspann Lake* (Sarpy Co.), and Zorinsky Lake* (Douglas Co.).

*Note: The length limit is not in effect during April on Wehrspann and Zorinsky lakes.

Sunfish

8-inch minimum – Czechland Lake (Saunders Co.), Walnut Creek

Recreation Area (Sarpy Co.), Wildwood Lake (Lancaster Co.), and Yankee Hill Lake (Lancaster Co.).

Striped Bass, White Bass and their hybrids (combined)

Daily bag limit can contain only one fish 18 inches or longer - Statewide

Bullfrogs

4½-inch minimum – Snout to vent statewide.

AREAS WITH SPECIAL DAILY BAG LIMITS

Trout (All species)

Daily bag limit – 8

Special Put and Take Trout lakes – Arnold Lake SRA (Custer Co.), Auble Pond (Valley Co.), Auburn Rotary Club Lake (Nemaha Co.), Barnett Park Lake (Red Willow Co.), Benson Lake (Douglas Co.), Birdwood WMA Lake (Lincoln Co.), Bowling Lake (Lancaster Co.), Crystal Cove Lake (Dakota Co.), Crystal Springs lakes (Jefferson Co.), Curtis Golf Course Pond (Frontier Co.), David City Park ponds (Butler Co.), Fremont SRA lakes (Dodge Co.), Grand Island Such's Lake (Hall Co.), Lake Halleck (Sarpy Co.), Heartwell Park Lake (Adams Co.), Hitchcock Lake (Douglas Co.), Holdrege City North Lake (Phelps Co.), Holmes Lake (Lancaster Co.), Humphrey Pond (Keith Co.), Lexington City Park Lake (Dawson Co.), Niobrara State Park ponds (Knox Co.), Pawnee Park East Lake (Platte Co.), Qwest Lake (Cass Co.), Standing Bear Lake (Douglas Co.), Steinhart Park ponds (Otoe Co.), Ta-Ha-Zouka Park Pond (Madison Co.), Towl Park Pond (Douglas Co.), Weeping Water Pond (Cass Co.), and Windmill SRA lakes (Buffalo Co.).

Two Rivers Trout Lake (Douglas Co.) (Four fish allowed per tag with up to three tags purchased per day.)

Black Bass (largemouth, smallmouth, and spotted)

Total catch and release: Refer to the

Public Waters Section for the waters managed with this regulation.

Striped Bass, White Bass and their hybrids

Daily bag limit – 3 (no more than 1 longer than 18 inches)

Elwood Reservoir (Gosper Co.), Stagecoach Reservoir (Lancaster Co.), Wagon Train Reservoir (Lancaster Co.) and Willow Creek Reservoir (Pierce Co.)

Total Catch and Release: Branched Oak Reservoir (Lancaster Co.)

Northern Pike

Daily bag limit – 10

Box Butte Reservoir (Dawes Co.)
The daily bag limit of 10 pike can include only 1 over 34 inches and 9 less than 28 inches or all 10 under 28 inches. Possession limit is 20.

Panfish

Daily bag limit – 10

Total catch and release.

Refer to the Public Waters Section for the waters managed with these regulations.

Channel catfish

Daily bag limit – 3

Refer to the Public Waters Section for the waters managed with this regulation.

Total Catch and Release: Fort Kearny SRA No.2 (Kearney Co.), Two Rivers SRA Lake No.3 and No.4 (Douglas Co.), Wildwood Lake (Lancaster Co.) and Windmill SRA No.3 (Buffalo Co.).

Flathead catfish

Total Catch and Release: Branched Oak Reservoir (Lancaster Co.)

HIGH USE FISHING AREAS

The following areas will be managed under a "High Use Fishing Area" regulation combination that consists of a 21-inch minimum length limit (1-fish daily bag limit) on black bass, 10-fish daily bag limit on panfish and 3-fish daily bag limit on channel catfish: Adams Park Pond

KNOW YOUR CATCH

White Bass

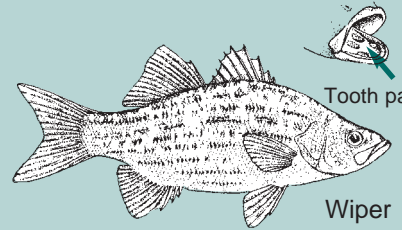

- Anal fin spines stair-stepped
- Broken lateral stripes
- One tooth patch on base of tongue

White Bass

Wiper

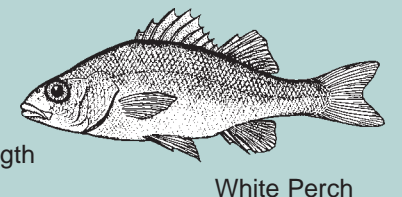

- Broken horizontal lines
- Usually two tooth patches on base of tongue

Wiper

White Perch

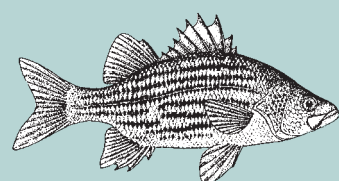

- Second and third anal spine same length
- Sides plain, no stripes

White Perch

Yellow Bass

- Has yellow cast
- Six or seven lateral stripes, three are above lateral line
- Lines are broken toward tail
- Second and third anal spine same length

Yellow Bass

(Douglas Co.), Ansley City Lake (Custer Co.), Auble Pond (Valley Co.), Auburn Rotary Club Lake (Nemaha Co.), Bader Memorial Co. Park Pits (Merrick Co.), Baright Lake (Cass Co.), Barnett Park Pond (Red Willow Co.), Bennington Lion Club Pond (Douglas Co.), Benson Park Pond (Douglas Co.), Bethphage Pond (Kearney Co.), Columbus Hospital Pond (Platte Co.), Cornhusker WMA Pond (Hall Co.), Cottontail Lake (Lancaster Co.), Cottonmill Lake (Buffalo Co.), Crystal Cove Lake (Dakota Co.), David City Park Ponds (Butler Co.), Fontenelle Park Pond (Butler Co.), Glenn Cunningham Reservoir (Douglas Co.), Grand Island Eagle Scout Lake (Hall Co.), Grand Island (Heartland) Gun Range Pond (Hall Co.), Grand Island Such's Lake (Hall Co.), Hanscom Park Pond (Douglas Co.), Heartwell Park Lake (Adams Co.), Henderson Pond (York Co.), Hitchcock Park Pond (Douglas Co.), Holdrege City North Lake (Phelps Co.), Humboldt City Park Lake (Richardson Co.), Indian Creek WMA Pond (Webster Co.), Johnson Park Lake (Dodge Co.), Laing Lake (Box Butte Co.), Lake Halleck (Sarpy Co.), Lawrence Youngsman Lake (Douglas Co.), Lexington City Lake (Dawson Co.), L.E. Ray Lake (Hall Co.), Lincoln Park Pond (Nuckolls Co.), Meadowlark Lake (Seward Co.), Melham Park Pond (Custer Co.), Memphis SRA Lake (Saunders Co.), Midlands Lake (Sarpy Co.), Miller Park Pond (Douglas Co.), Morman Island SRA (Hall Co.), Neligh Park Pond (Cuming Co.), Niobrara State Park Ponds (Knox Co.), Pawnee City Pond (Pawnee Co.), Pawnee Park East and West (Platte Co.), Plattsmouth City Lake (Cass Co.), Prairie View Lake Recreation Area (Douglas Co.), Qwest Lake (Cass Co.), Ravenna Lake (Buffalo Co.), Sacramento-Wilcox WMA (Phelps Co.), Shadow Lake (Sarpy Co.), Skyview Lake (Madison Co.), Steinhart Park Ponds (Otoe Co.), Sutton Clark Pond (Clay Co.), TaHaZouka Park Pond (Madison Co.), Tecumseh City Pond (Johnson Co.), Tilden City Pond (Antelope Co.), Towl Park Pond

(Douglas Co.), Walnut Grove Park Pond (Douglas Co.), War Axe SRA (Buffalo Co.), Weeping Water Pond (Cass Co.), Wolbach City Pond (Greeley Co.), Yanney Park Lake (Buffalo Co.) and York Recharge Lake (York Co.).

LENGTH LIMITS AND CLEANING OF FISH

Where length and bag limits apply, fish cannot be filleted until fishing is completed for the day and anglers are off the water. Fish species subject to a bag limit and possession limit, but not a length limit, can be processed prior to transport if the fillets are kept in one piece until cooked, so the bag and possession limits can be determined. Fish species subject to a length limit cannot be possessed with more than the gills, viscera and scales removed while on the water, wading or engaged in fishing. Any fish in possession while actively fishing or on the water will be subject to length and bag limits that apply to the water being fished. Once off the water, the fish can be filleted for transportation and storage.

Know what you caught. When in doubt – release the fish unharmed.

HOOK-AND-LINE REGULATIONS

Hook-and-line fishing is allowed year-round throughout the state (no closed season), except as noted or as posted at an area. Definition of a hook: one hook means a single, double, or treble-pointed hook. All hooks attached to an artificial bait or lure shall be counted as one hook.

Ponds, Lakes or Reservoirs: Anglers are limited to no more than two lines, with a maximum of two hooks on each line, with these being any type of attached line (rod and reel or fishing pole) on all lakes, ponds or reservoirs or in their inlets, outlets and canals within one-half mile of these bodies of water, with the exception of ice-fishing line limits. This includes Lewis and Clark Lake from Gavins Point Dam

upstream to the Santee boat ramp in Knox Co., Nebraska.

Ice-Fishing: A total of five lines with two hooks on each line are permitted. Each line must be under direct supervision and within unaided observation of the angler. Holes made for ice-fishing may not exceed 10 inches in diameter on any area controlled by the Commission.

A special \$5 permit is required for a permanent shelter on state recreation and wildlife management area lakes. Applications and regulations are available from conservation officers, Commission offices or by mail from the Game and Parks Commission, Box 30370, Lincoln, NE 68503. This does not apply to temporary shelters used and removed each day.

Rivers or Streams: A total of 15 hooks are allowed, ranging from 15 lines each with a single hook attached, to three lines with a maximum of five hooks attached. Anglers must be at least one-half mile from any lake, pond or reservoir that is associated with a river or stream. These can be rods and reels, poles, bank lines, or set lines that in some way are attached to the bank and not free-floating. Float lines are illegal and defined as any line not attached to the shoreline or a pole. All bank lines and setlines must contain identification, to include the angler's name, address and fishing-permit number or driver's license number. Note: Upon completion of fishing, all bank lines and set lines must be removed.

IT IS UNLAWFUL TO...

- borrow or use the permit of another or lend your permit to another.
- leave dead fish or any part thereof on the banks or in the water of any stream, lake or other body of water.
- fish on any private land without landowner permission.
- release into public waters of the state any fish that did not originate in that body of water.
- use a crossbow or similar device

while archery fishing, except for a disabled person who has a medical certificate on file.

- seine sport fish of any size.
- use float lines.
- leave fish in a trap for more than 24 hours.
- attempt to snag fish, except in designated areas. See the Snagging section for details.
- use limb lines or set lines in any pond, lake or reservoir.
- catch fish by hand.
- buy or attempt to buy a permit while under license suspension or revocation in any state.
- keep an externally foul-hooked fish, except those legally snagged.
- consume and/or have an open container of alcohol at any state park, state recreation area or wildlife management area.

SNAGGING

Snagging of paddlefish and nongame fish is permitted only in the Missouri River under season dates and limits specified in the Paddlefish and Snagging of Nongame Fish section. All other state waters are closed to snagging for all species at all times. All fish snagged accidentally or otherwise foul-hooked, must be returned to the water immediately.

FISH KILL REPORTS

Report dead or dying fish to your local conservation officer, Commission district office, or the 24-hour Nebraska State Patrol pollution complaint number, (402) 471-4545, promptly to make it easier to determine the cause.

Keep the water safe and clean for future fishing. Report dumping/pollution activities to the Environmental Protection Agency at 1-800-223-0425.

BAIT REGULATIONS

Baitfish, listed amphibians, and crayfish may not be sold, except by permit. For commercial purposes (bait

Fish Species Categorization

GAME FISH

Is defined to include all baitfish, commercial fish and sport fish:

SPORT FISH

The following fish species are designated as sport fish:

- all sunfish hybrids
- American eel
- black crappie
- blue catfish
- bluegill
- brook trout
- brown trout
- burbot
- channel catfish
- chinook salmon
- cutthroat trout
- flathead catfish
- goldeye
- grass pickerel
- green sunfish
- largemouth bass
- muskellunge
- northern pike
- orangespotted sunfish
- paddlefish
- pumpkinseed
- rainbow trout
- redear sunfish
- rock bass
- sauger
- saugeye
- shovelnose sturgeon
- skipjack herring
- smallmouth bass
- spotted bass
- striped bass
- striped bass hybrid (wiper)
- tiger muskellunge
- walleye
- white bass
- white crappie

PANFISH

The following fish species are designated as panfish:

- all sunfish hybrids
- black crappie
- bluegill
- green sunfish
- orangespotted sunfish
- pumpkinseed
- redear sunfish
- rock bass
- white crappie
- yellow perch

SUNFISH

The following fish species are designated as sunfish:

- all sunfish hybrids
- bluegill
- green sunfish
- orangespotted sunfish
- pumpkinseed
- redear sunfish

COMMERCIAL FISH

The following fish species are designated as commercial fish:

- black bullhead
- freshwater drum
- yellow bullhead
- yellow perch

dealers, private aquaculturists, and nonresident fish dealers), refer to the official regulations supplied with your permit. The following regulations apply only to bait obtained for personal use. It is unlawful to take baitfish, listed amphibians, or crayfish from any lake, reservoir, or bayou unless otherwise stated below. Digging and trapping for bait or any other purpose is prohibited on all state-owned or controlled areas. Seining for baitfish, listed amphibians,

or crayfish is allowed on streams located on SRAs and WMAs unless the stream is listed as closed. All nonbaitfish, of whatever size, taken while netting or seining for bait, must be immediately returned to the waters from which taken. The bag and possession limit of baitfish and listed amphibians for personal use is 100.

Gizzard shad and alewife may be taken for use as bait by legal dip nets from lakes, ponds, reservoirs, and below

Fish Species Categorization

BAITFISH

The following fish species are designated as baitfish:

- alewife
- bigmouth shiner
- brassy minnow
- creek chub
- emerald shiner
- fathead minnow
- gizzard shad
- golden shiner
- goldfish
- longnose dace
- plains killifish
- red shiner
- river shiner
- sand shiner
- stoneroller
- suckermouth minnow
- white sucker

The following

amphibians and crustaceans are covered under the baitfish regulations:

- devil crayfish
- northern crayfish
- northern leopard frog
- papershell crayfish
- plains leopard frog
- ringed crayfish
- tiger salamander

THREATENED AND ENDANGERED SPECIES

The following fish species are designated as Threatened or Endangered in Nebraska and are not legal to possess:

- blacknose shiner
- finescale dace
- lake sturgeon
- northern redbelly dace
- pallid sturgeon
- pearl dace
- sturgeon chub
- topeka shiner

NONGAME FISH

All species that do not appear on any of the above lists are considered nongame.

dams and other artificial obstructions for a distance of 200 yards below such obstructions. Live shad and alewife can only be used in the body of water in which they were captured (see section on cast nets). Shad and alewife may be taken by legal seine or dip net in streams, except those streams closed to the taking of baitfish or bait by such method. The bag and possession limits are 100.

Below Dams: The seining of baitfish, listed amphibians, or crayfish is unlawful for a distance of 200 yards below any dam or spillway. In these waters, baitfish, listed amphibians, and crayfish can be taken by legal baitfish dip nets for personal use only.

Restricted Species: It is unlawful to sell, transport, or offer for sale as bait, any live carp, carpsucker, bullhead, buffalo, gar, quillback, gizzard shad, alewife or bowfin. Live fish of those

species may be used for bait only in the same waters from which they are legally taken. Dead carp, carpsucker, bullhead, buffalo, gar, quillback, gizzard shad, alewife or bowfin may be transported for use as bait. Sport fish can be used for bait: (1) if they have been legally acquired from a licensed aquaculturist or a nonresident fish dealer. The angler must keep a legible receipt or invoice from the dealer listing the date, seller's name and address; and number and size of each species sold, or (2) if they are captured using hook and line and used at the body of water from which they were captured. In the latter case, the angler will be required to follow both the length and bag limits that are enforced on that body of water.

Missouri River: The use of baitfish seined by anglers from the Missouri River below Gavins Point Dam is

restricted to that area. It is illegal for either anglers or bait dealers to transport baitfish from this area of the Missouri River.

Importation of baitfish: It is unlawful for individuals to import live baitfish (from out of state) for use in inland waters. This does not include the Missouri River.

NO-LIVE-BAITFISH AREAS

The following areas do not allow the use or possession of live baitfish:

- Ansley City Lake (Custer Co.)
- Bethphage Pond (Kearney Co.)
- Chalkrock Lake (Cedar Co.)
- Cottonmill Lake (Buffalo Co.)
- Crescent Lake National Wildlife Refuge (Garden Co.)
- Frye Lake (Grant Co.)
- Grand Island Such's Lake (Hall Co.)
- Heartwell Park Pond (Adams Co.)
- Holdrege City North Lake (Phelps Co.)
- Holmes Lake (Lancaster Co.)
- Lexington City Lake (Dawson Co.)
- Lincoln Park Pond (Nuckolls Co.)
- Meadowlark Lake (Seward Co.)
- Olive Creek Lake (Lancaster Co.)
- Pibel Lake (Wheeler Co.)
- Ravenna Lake (Buffalo Co.)
- Skyview Lake (Madison Co.)
- Ta-Ha-Zouka Park Pond (Madison Co.)
- Valentine National Wildlife Refuge (Cherry Co.)
- Wildwood Lake (Lancaster Co.)
- Yankee Hill Lake (Lancaster Co.)
- Yanney Park Lake (Buffalo Co.)

White Perch: It is illegal to transport or possess live white perch away from the body of water from which they were caught.

Dumping Baitfish: It is illegal to release your baitfish, or any fish caught from a different body of water, into public waters.

Exporting: Up to 100 legally captured baitfish and/or listed amphibians may be exported by a resident for personal use

for fishing outside the state. No other baitfish taken from Nebraska waters may be transported out of the state in any manner, except baitfish artificially propagated in man-made impoundments by licensed aquaculturists.

Importing: It is unlawful to import or transport carp, carpsucker, buffalo, quillback, gar, gizzard shad, alewife or bowfin into the state for use as bait. Special permits are required for a person to import and sell bait or baitfish.

Baits and Scents: Cutbait is legal if the fish used has been legally acquired and the size, bag and possession limits for that species and body of water have been followed. It also is legal to chum for fish using nonharmful baits. Anise oil and other scents that do not stun, kill, or harm fish are permitted.

Leopard Frogs and Tiger Salamanders: All regulations that cover the legal use of baitfish also apply to these species.

Crayfish: There is no possession limit on crayfish. Anyone over the age of 16 must have a bait dealer's license in order to sell crayfish. Crayfish may be captured by hook and line, by hand, or by legal fish nets and traps as described below.

Fish Nets and Traps: The possession or use of nets, traps and electrical gear capable of stunning fish is prohibited except for the following:

- Baitfish seines of one-fourth inch nonmetallic square mesh only and not more than 20 feet long and four feet deep.
- Baitfish dip nets of one-fourth inch, nonmetallic square mesh. Neither length nor width may exceed 36 inches.
- Baitfish and bait traps of one-fourth inch square mesh material with a length of 24 inches or less, a diameter of 16 inches or less and a throat one inch or less in diameter. All minnow traps shall be raised and the baitfish removed at least every 24 hours.
- Landing nets, made of nonmetallic mesh, used only for landing fish caught on hook-and-line.

CAST NETS

Cast nets may be used to collect bait with the following restrictions:

Cast nets may be used only on the following bodies of water: Calamus Reservoir, Davis Creek Reservoir, Elwood Reservoir, Enders Reservoir, Farwell South Reservoir, Gallagher Canyon Reservoir, Harlan County Reservoir, Jeffrey Reservoir, Johnson Lake, Lake Maloney, Medicine Creek Reservoir, Lake McConaughy, Phillips Canyon Reservoir, Plum Creek Reservoir, Red Willow Reservoir, Sherman Reservoir, Sutherland Reservoir, Swanson Reservoir and the Tri-County Canal from the diversion dam in Lincoln County to the J-2 return.

- Only cast nets up to 10 feet in diameter with a mesh size no larger than three-eighths inches square measure are legal gear.
- Cast nets may be used only during July, August, September, October and November.
- Cast nets may be used to collect gizzard shad and alewife only.
- Live gizzard shad and alewife only may be used for bait the same day they were captured and only in the same body of water where they were collected.

FISH STOCKING

It is unlawful to release any non-native fish, reptile or amphibian in waters of the state or to release any fish in any public waters in the state except in those waters from which it came, without written authorization from the Game and Parks Commission.

NOTICE: DO NOT transfer any fish from one lake or stream to another. It is illegal to dump baitfish into a body of water. You could be destroying your own fishing!

TROUT WATERS

It is unlawful to possess a dip/landing net or seine of any type on trout streams in Sioux, Scotts Bluff, Morrill, Garden and Keith Counties that are

tributaries to the North Platte River and Lake McConaughy, including: Pumpkin, Red Willow, Wildhorse, Stuckenhole, Ninemile, Tub Springs, Winter, Sheep, Dry Sheep, Spotted Tail, Dry Spotted Tail, Otter, Clear, Lonergan, Upper Dugout, Indian, Silvernail Drain and Cedar creeks.

It is unlawful to take or attempt to take sport or nongame fish by bow and arrow or spearing or to take or attempt to take by seine or trap any bait or minnows in any of the following trout streams:

Antelope Co.: Verdigre Creek and all tributaries.

Brown Co.: Bone Creek and all tributaries, Long Pine Creek and all tributaries, Plum Creek and all tributaries and Fairfield Creek.

Box Butte Co.: Niobrara River.

Cherry Co.: Middle Loup River and all tributaries, North Loup River and all its tributaries, Schlagel Creek, Fairfield Creek, Snake River and all tributaries, and Plum Creek and all tributaries.

Cheyenne Co.: Lodgepole Creek west of Brownson.

Dawes Co.: Chadron Creek, Big Bordeaux Creek, Little Bordeaux Creek, White River above Crawford, Niobrara River from Box Butte Reservoir west to the Wyoming border and all tributaries, Dead Horse Creek, Squaw Creek and White Clay Creek.

Garden Co.: Blue Creek.

Holt Co.: Steel Creek and North, Middle and South branches of Verdigre Creek.

Hooker Co.: Dismal River and all tributaries.

Keith Co.: Otter Creek, Whitetail Creek, and Lonergan Creek and all tributaries.

Kimball Co.: Lodgepole Creek and all tributaries.

Knox Co.: North, Middle and South branches of Verdigre Creek and all tributaries above the town of Verdigre, and Steel Creek.

Loup Co.: Gracie Creek.

Morrill Co.: Red Willow Creek, Cedar

Creek, Greenwood Creek, Wildhorse Creek, Lawrence Fork Creek, Silvernail Drain, Indian Creek, Stuckenhole Creek and Pumpkin Creek below Nebraska Highway 88.

Rock Co.: Long Pine Creek.

Scotts Bluff Co.: Ninemile Creek, Winters Creek, Tub Springs, Wet Spotted Tail Creek, Dry Spotted Tail Creek, Sheep Creek, Dry Sheep Creek, Stuckenhole Creek, Akers Draw, Mitchell Drain, Moffat Drain, Alliance Drain and Bayard Drain.

Sheridan Co.: Snake River, Larabee Creek, White Clay Creek, Pine Creek, Deer Creek and Little Bordeaux Creek.

Sioux Co.: Sheep Creek Drain, Dry Sheep Creek Drain, Dry Spotted Tail Creek, Spotted Tail Creek, Niobrara River and all tributaries, White River, Soldier Creek and all tributaries, Monroe Creek, Sowbelly Creek and Hat Creek.

Webster Co.: Elm Creek.

ARCHERY/SURFACE SPEARFISHING

Game fish may be taken by bow and arrow from July 1 through Dec. 31 from sunrise to sunset, statewide. Game fish may not be taken with surface spears. Nongame fish may be taken by archery or surface spear statewide from sunrise to sunset between Sept. 1 and March 31, and 24 hours a day from April 1 through Aug. 31.

Only hand-drawn longbows (including compound bows) are legal. A disabled person who has a medical certificate on file with the Commission may use a crossbow or a bow fitted with a drawlock type device. Arrows may have only one point, which must be barbed, and must be attached by a line to the bow at the time the arrow is released. For surface spearing, only hand spears are legal. All spearing devices must be barbed.

The following waters are closed year-round: Two Rivers, Louisville, Fort Kearny, Fremont, Mormon Island and Windmill SRAs; Platte River and Eugene T. Mahoney State Parks, and trout streams (see Trout Waters section).

UNDERWATER SPEARFISHING

Lawful spear guns include hand spears, rubber band-powered spear guns, compressed air spearguns and spring-loaded spear guns. All spears used on powered spear guns must be attached to a lanyard no more than 20 feet long. Underwater spearfishing is not permitted within 100 yards of any designated swimming or water-ski jump area, boat dock, boat ramp, or spillway.

Seasons

Game Fish: July 1 through Dec. 31 in waters listed below. Bag, possession and length limits are the same as for hook and line, except that there is a daily bag limit of 2 walleyes and a possession limit of 4 walleyes in effect on all lakes listed below. Hours are sunrise to sunset.

Nongame Fish: Open year-round in waters listed below. There are no size, bag or possession limits. Hours are sunrise to sunset.

Waters Open to All Species

- Privately owned lakes, with permission of the lake owner
- Lake McConaughy, Keith Co.
- Lake Ogallala, Keith Co.
- Lake Minatare, Scotts Bluff Co.
- Box Butte Reservoir, Dawes Co.
- Lewis and Clark Lake, Knox Co.
- Harlan Co. Reservoir
- Enders Reservoir, Chase Co.
- Elwood Reservoir, Gosper Co.
- Hugh Butler (Red Willow) Reservoir, Frontier and Red Willow Cos.
- Harry Strunk (Medicine Creek) Reservoir, Frontier Co.
- Sutherland Reservoir, Lincoln Co.
- Maloney Reservoir, Lincoln Co.
- Jeffrey Reservoir, Lincoln Co.
- Johnson Reservoir, Gosper and Dawson Cos.
- Sherman Reservoir, Sherman Co.
- Swanson Reservoir, Hitchcock Co.
- Merritt Reservoir, Cherry Co.

- Calamus Reservoir, Loup and Garfield Cos.

Waters Open to Nongame Fish Species Only

- Buffalo Co. - Union Pacific SRA, War Axe SRA, Bassway Strip WMA, Bufflehead WMA, Kea Lake WMA, Kea West WMA, East Odessa WMA, Blue Hole West WMA, West Elm Creek WMA, and North Kearney Rest Stop.
- Dawson Co. - Dogwood WMAs, Cozad WMA, Cozad West WMA, Willow Island WMA, and East Gothenburg WMA
- Hall Co. - Cheyenne SRA, West Wood River WMA and Alda DOR
- Phelps Co. - Sandy Channel SRA

DIVER'S FLAG

A diver's flag must be displayed on the water on a float or buoy when diving or underwater spearfishing. Divers and underwater spearfishers must remain within 150 feet of the flag. The flag must be at least 12 inches square, with a red background and white diagonal stripe that is one-fifth the width of the flag. The white stripe must run from the top of the hoist to the bottom of the flag. It is unlawful to display this flag when diving or spearfishing is not in progress.

THREATENED AND ENDANGERED SPECIES

It is unlawful to take by seine, dip net, or trap any baitfish in the following streams that contain threatened and endangered fish species:

Cherry Co.: Brush Creek west of Brownlee, and Gordon Creek west of Nebraska Highway 61.

Dawes Co.: Niobrara River east of Box Butte Reservoir and west of U.S. Highway 385.

Keya Paha Co.: Cottonwood Creek, East Holt Creek and Holt Creek

Madison Co.: Taylor Creek west of U.S. Highway 81.

BULLFROGS

Bullfrog season runs Aug. 15 through Oct. 31. The bag limit is eight per person. They may be captured only by hand, hand net or hook-and-line. Artificial light may be used. They must measure 4½ inches from snout to vent or be released. Only the entrails may be removed prior to transport.

SNAPPING TURTLES

Snapping turtles may be taken year-round, and limits are 10 in the daily bag and 20 in possession. They may be taken only by hand, hand net, hook-and-line, bow-and-arrow or gaff hook.

MUSSELS (CLAMS)

Mussels may be taken year-round by hand, hand net or hook-and-line. The limit is 10 daily and 20 in possession.

BORDER WATERS

Missouri River (South Dakota, Iowa and Missouri): Anglers holding a valid Nebraska, South Dakota, Iowa or Missouri sport fishing license or permit may fish all waters of the Missouri River in the state they are licensed, as well as Missouri River waters of the state immediately across the river.

Missouri River waters are defined to include all flowing portions and backwaters, sloughs and chutes that draw water from the Missouri River. Oxbows and backwaters separated from the Missouri River by land are included if the state boundary line passes through some part of such waters.

Mouths of tributaries may be fished only in the state that the angler is licensed. Anglers may fish from either bank or boats. Anglers fishing in the state for which they do not hold a fishing permit must abide by the more restrictive of the two state's regulations. Both Iowa and Missouri resident anglers can fish waters of Hamburg Bend WMA and the Nebraska portion of the Missouri River from the chute entrance (adjacent to Iowa) to the chute exit (adjacent to Missouri).

PADDLEFISH SNAGGING PERMIT SYSTEM

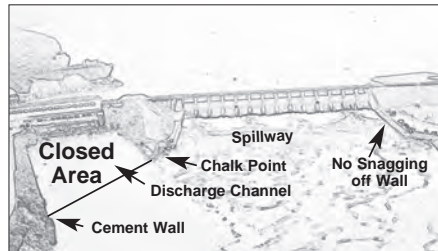

At the start of the 2008 paddlefish snagging permit application period, there were 2,060 residents and 638 nonresidents in the system with one preference point. A total of 937 residents with one preference point submitted a permit application of which 7 were denied due to a problem in the application process. At this time these 7 individuals have been awarded an additional preference point. A total of 190 nonresidents, that had one preference point applied for the 80 available snagging permits set aside for nonresidents. Due to the excessive number of applicants, the 110 unsuccessful nonresident applicants were awarded an additional preference point thus now having two.

A total of 1,505 residents with no preference points applied this year of which 590 were awarded permits while the remaining 915 received a preference point for future drawings. An additional 302 nonresidents also applied with no preference point and since the allotted permits for nonresidents were already over-subscribed they will also be awarded one preference point. The current preference point file has 1,130 residents who received a point in 2007 but didn't apply in 2008 plus 915 unsuccessful residents who applied in 2008 for a total of 2,045 residents with one preference point. At this time there are 7 residents that have two preference points. For nonresidents, 558 have one preference point they received in 2007, but didn't apply in 2008. In addition to these there are an additional 302 nonresident that applied in 2008 for the first time, thus there is a total of 860 nonresidents with one preference point. Due to the limited number of non-resident permits allocated, a total of 110 nonresidents unsuccessful in both 2007 and 2008 drawings currently have two preference points. It is important to remember that any person that does not apply at least

once during five consecutive years will lose all accumulated points. In order to avoid problems with your application it is important to follow these rules: 1) provide accurate personal information; 2) buddy permits can only be for 2 applicants; 3) both applicants on a buddy permit must be either both residents or nonresidents; and 4) in a buddy permit if there is a difference in preference points the application will be assigned to the applicant with the lowest preference points.

PADDLEFISH AND SNAGGING OF NONGAME FISH

Missouri River - Snagging of paddlefish and nongame fish is permitted from the Gavins Point Dam downstream to the mouth of the Big Sioux River at mile marker 734, except for a closed area that extends downstream from Gavins Point Dam to a line that extends from the east end of the south cement wall of the discharge channel northwest to the east end of the chalk point. However, snagging off the north wall of the spillway is prohibited. All snaggers must obtain

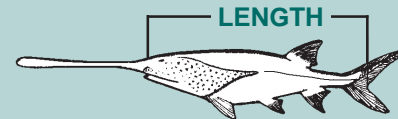

and have in their possession an unfilled paddlefish tag while actively snagging, in addition to a valid fishing permit, if required. From Gavins Point Dam to 0.6 mile downstream, anglers may snag only if they possess a valid Nebraska resident or Nebraska nonresident snagging permit or a South Dakota resident snagging permit. In the remainder of the river open to snagging, South Dakota nonresident permits also are valid.

Paddlefish harvested by snagging may be possessed only on the Missouri River during the open season in the designated open area. All inland waters are closed to paddlefish harvest. **The snagging season runs only from Oct. 1 through Oct. 31.** Legal hours are 7 a.m. to 7 p.m. Applicants must be 12 years old by Oct. 1 in order to apply for a snagging permit (see section on Paddlefish Tags). A paddlefish must be tagged immediately in the dorsal fin with the angler's tag upon addition to the creel. Any paddlefish tag that is locked prior to attachment, altered or modified shall be void and **WILL NOT BE REPLACED.** Only one hook may be used when snagging, and the gap between the point of the hook and the shank may not exceed one-half inch.

The daily bag and possession limits are the total number of tags issued to an individual. A harvest quota will be managed by issuing a limited number of paddlefish tags with a limit of no more than two tags per person. (See section on Paddlefish Tags). All paddlefish anglers are required to cast for and hook their own fish. All paddlefish between 35 and 45 inches long (measured along the centerline of the fish, lying flat, from the front margin of the eye to the natural fork of the tail), must be returned to the water immediately. The slot limit is designed to protect spawning-size fish.

HOW TO MEASURE A PADDLEFISH

It is unlawful to use a gaff hook or other penetrating device while landing snagged paddlefish. Immediate cleaning of a snagged paddlefish is restricted to the removal of only the

snout, in front of the eye, and the viscera. Final processing may not be completed until anglers have reached their residence or prior to consumption. If you choose to harvest a fish more than 45 inches in length be prepared to transport that fish with only the snout removed.

PADDLEFISH – ARCHERY

Missouri River - Paddlefish may be taken by bow and arrow and possessed on open waters of the Missouri River only during the season that begins on the second Saturday of July (**July 11**) and runs for **30 consecutive days (through Aug. 9)**, with legal hours being sunrise to sunset. The area of the Missouri River open to archery paddlefish is from Gavins Point Dam downstream to the mouth of the Big Sioux River at mile marker 734, except for a closed area downstream from Gavins Point Dam to a line that extends from the east end of the south cement

wall of the discharge channel northwest to the east end of the north wall of the spillway. The area downstream of this line is open to archers taking both game and nongame fish during the appropriate seasons. From the open area below the Gavins Point Dam to 0.6 miles downstream, archers may harvest paddlefish if they possess a valid Nebraska resident or Nebraska nonresident archery paddlefish permit or a South Dakota resident archery paddlefish permit. In the remainder of the river open to archery paddlefish, South Dakota nonresident archery paddlefish permits also are valid. The area downstream of this line is open to archers taking both game and nongame fish during the appropriate seasons.

Paddlefish harvested by bow and arrow may be possessed only on the Missouri River during the season in the designated open area. All paddlefish archery anglers must obtain and have in their possession a paddlefish tag in addition to a fishing permit. Applicants must be 12 years old by the second Saturday of July to apply (see section on Paddlefish Tags). Any paddlefish landed must be tagged immediately in the dorsal fin with the angler's tag. Any

paddlefish tag that is locked shut prior to attachment, altered, or modified shall be void and **WILL NOT BE REPLACED**. A harvest quota will be managed by issuing a limited number of paddlefish tags with a limit of no more than two tags per person. Only the head, viscera and tail may be removed from archery-harvested paddlefish during transport until the place of residence is reached or the paddlefish is consumed.

Office use only. Application number _____

Resident/Nonresident Fee \$21

APPLICATION FOR PADDLEFISH PERMIT

Paddlefish Archery Permit Paddlefish Snagging Permit

First name _____ Middle initial _____ Last name _____

Address - Street / P.O. Box / Rural Route and Box Number _____

Please note that the applicant must be 12 years old by the second Saturday of July to apply for an archery tag and by October 1 to apply for a snagging permit.

Permit cost is \$21 (includes \$1 issuance fee)

If unsuccessful the fee will be returned

Send this application with appropriate fee to:

Nebraska Game and Parks Commission 2200 N 33rd St. P.O. Box 30370, Lincoln, NE 68503-0370

NEBRASKA PADDLEFISH HARVEST TAGS

Paddlefish are a limited and precious resource, and it is important that the harvest be closely regulated. A tag is required for both archers and snaggers who want to harvest a paddlefish.

It is important to remember that one person can have no more than two permits/tags for the archery season and two for the snagging season. Permits and tags are nontransferable, must be in possession while actively pursuing paddlefish, and the tag must be immediately attached and locked shut to the dorsal fin of a harvested paddlefish. Archers will have a 30-consecutive-day season, beginning on the second Saturday of July (July 11), and snaggers will have a 31-day season, Oct. 1-31.

ATVS AND SNOWMOBILES FOR ICE-FISHING

Snowmobiles, all-terrain and motorized off-highway amphibious vehicles may be operated on the frozen surface of the following designated lakes, unless otherwise posted as being closed: Bluestem, Branched Oak, Conestoga, Olive Creek, Pawnee, Stagecoach, Wagon Train, Enders, Medicine Creek, Red Willow, Swanson, Box Butte, Merritt, Oliver, Sherman,

Elwood, Sutherland and Calamus Reservoirs; Fremont Lakes, Gallagher Canyon, Johnson Lake, Lake Maloney, Lake McConaughy, Lake Minatare, Lake Ogallala, Lewis and Clark Lake, Louisville Lakes, Rockford Lake, Shell Lake, Summit Lake, Willow Creek Lake, Walgren Lake, Willow Lake (Brown Co.), Big Alkali Lake, and Cottonwood-Steverson Lake. These vehicles may be operated on these areas only from one-half hour before sunrise until 9 p.m., or as posted. It is recommended that these vehicles not be used unless the ice thickness is a minimum of eight inches.

TOURNAMENTS, CONTESTS AND DERBIES

Registration: All fishing tournaments, derbies or contests that require an entry fee to participate, held on publicly owned, controlled or managed waters, must be registered with the Commission's Fisheries Division at least 45 days prior to the event. Voluntary information on other tournaments, such as club tournaments, is welcome. An event may be denied if the date and location conflicts with a previously approved event. Applicant denial can also be based on safety concerns due to low water conditions or anticipated heavy use that could result in boat ramp

Paddlefish Archery Permit Application Periods

Application Period April 1 - 30*

Any remaining permits after the first drawing will be sold on a first-come, first-serve basis with sales starting at 1:00 P.M. CDT on the first working day of June

Paddlefish Snagging Permit Application Periods

Application Period July 1 - 31*

Any remaining permits after the first drawing will be sold on a first-come, first-serve basis with sales starting at 1:00 P.M. CDT on the first working day of Sept.

**All application periods begin at 1 p. m. Central Daylight Savings Time. Mailed applications must be received in the Lincoln office by 5 p. m. on the last day of the application period. Online applications end at midnight.*

or by calling 1-800-742-0056

congestion. We may impose special conditions not specifically covered herein for a fishing tournament, derby, or contest if deemed necessary to protect the resource or to assure public safety. Special conditions may include, but are not limited to: aerated live wells, release of live fish, designated release areas and on-the-water measurements and immediate release of fish (no on-shore weigh-in ceremony). A Fishing Tournament Approval Certificate must be present at the tournament site. The tournament dates and forms will be listed on our Web site, www.OutdoorNebraska.org.

Results: A "tournament results form" will be sent to the tournament director. This form must be completed and returned to the Fisheries Division within 30 days following the completion of the fishing tournament. Failure to return the form or provide the requested information will result in denial of future fishing-tournament

requests for at least one year.

Tagged Fish: The use of tagged or otherwise marked fish is prohibited in any fishing tournament, derby or contest that is held on: (1) waters owned or controlled by the Commission; and (2) waters stocked by the Commission during the preceding 24 months, excluding private lakes not owned by the state or other governmental entity.

FREE FISHING DAY MAY 16

Free Fishing and Park Entry Day is intended to attract those who no longer fish or who have never fished with an opportunity to do so without purchasing a permit. It is held on the Saturday prior to Memorial Day weekend. Anglers, both resident and nonresident, can take advantage of that day by taking a nonangling friend to any public body of water in the state and showing them how much fun fishing can be.

Nebraska Game & Parks FOUNDATION

Help Preserve Natural Nebraska for the Future

The Nebraska Game and Parks Foundation supports efforts to maintain the habitat, parklands and wildlife that make Nebraska special.

AQUATIC NUISANCE SPECIES PREVENTION

Aquatic nuisance species are defined as any waterborne, non-native organism that threatens the diversity or abundance of native species, the ecological stability of impacted waters, or threatens a commercial, agricultural, aquacultural or recreational activity. These nuisance species have the potential to cause significant ecological problems because they have been introduced into habitat in which there are no natural pathogens, parasites, or predators. Lack of these natural controls in new habitat may allow a nuisance species to grow exponentially. If such nuisance species become established, they may disrupt ecological relationships in their new home. Introduced nuisance species may prey upon, or compete directly with native species and they could transmit diseases to native species.

It is very important that anglers and boaters using the waters of Nebraska,

take precautions to prevent the introduction or spread of exotic nuisance species. This is especially important to boaters who travel to waters that currently have nuisance species not present in any Nebraska waters. Listed below are some procedures that should be followed:

- Inspect boat, trailers, and all boating and fishing equipment and remove any visible plant material and organisms before leaving all water access sites.
- Drain water from the livewell and bilge on land at the water access site. The only exception would be livewells used to transport game fish or baitfish which then must be disposed of properly. Never release live baitfish into any waterbody, or transfer and release any aquatic animal from one waterbody into another.
- Wash mud off of waders since it is a means by which various organisms, especially snails and parasites, gain access to a new watershed.

Nebraska—well-stocked with fun things to do!

Take Me Fishing

You can think about work later.

Rediscover the joys of fishing. There's no better way to reconnect with the great outdoors – not to mention your kids, your spouse, or your best friend. Give yourself a little time for what matters most.

TO GET YOUR PERMIT NOW, GO TO
www.OutdoorNebraska.org or visit your nearest permit vendor

Zebra mussels can survive up to 2 weeks out of water, so after boating in infested water and before transporting your boat either:

- Rinse your boat and all equipment with hot tap water (over 104 degrees F); or
- Spray your boat and trailer with a high pressure sprayer. (The hot-water sprayer at car washes can be used); or
- Dry your boat and all equipment for a least 5 days; and
- Be sure to run the water out of the lower unit.

There are a multitude of exotic aquatic nuisance species that are of concern across the United States. The list of potential exotic species is long, but several species that are of immediate concern to Nebraska would be: zebra mussels, New Zealand mud snail, Asian clams, Eurasian water

milfoil, curlyleaf pondweed, salt cedar (Tamarisk) purple loosestrife, phragmites, bighead carp, silver carp, snakehead, rusty crayfish, *Daphnia lumhotzi* (zoophankton species), and Viral Hemorrhagic Septicemia (VHS), a fish disease.

Once an exotic nuisance becomes established the cost to the environment is high as is the cost to control them.

LAKE MAPPING

Want a better understanding of the bottom contours of the lake you are fishing? Then check out our Web site www.OutdoorNebraska.org. Click on the Fishing icon then go to Fishing Programs and scroll down to Lake Mapping. Now you are ready to check out the various maps available for lakes. The list of lakes continues to grow, so be sure to check this site throughout the year.

STATE RECORDS / MASTER ANGLERS

If you make an outstanding catch, it may qualify for either a Nebraska Game and Parks Commission State Record or a Master Angler Award. Application forms are available from any Commission office, conservation officer or permit vendor, or are found in the Fishing Guide or on our Web site www.OutdoorNebraska.org.

STATE RECORD RULES

1. Fish MUST be caught in accordance with Nebraska Fishing Regulations by rod and reel (not set/limb lines), underwater spear-fishing, surface spearing, or archery and MUST be taken from Nebraska waters.
2. Fish MUST be weighed on an accredited or certified scale. A commercial measuring tape or stick should be used to measure the fish. The fish should be measured, from the tip of the mouth (closed) to the tip of the tail (tail lobes pressed together) with the fish laying flat on the tape.
3. Only fish that exceed the current record by at least one ounce are eligible for a state record.
4. Two witnesses, one of which MUST be a permanent employee of the Commission, must witness the weighing and measuring of the fish and sign the application.

5. The angler MUST display a Nebraska fishing permit to the Commission employee that witnesses the weight.
6. One clear photograph showing a close-up side view of the fish, and one clear photograph showing the angler with the fish MUST accompany the completed application form. All photographs become the property of the Commission.
7. A Commission fisheries biologist MUST verify the species of fish. The fish MUST be preserved flat until the species is verified.
8. The Commission reserves the right to collect fish scale, tissue or spine samples to check fish identification, and to refuse any questionable application submitted.
9. The Commission reserves the right to revoke state records if the record holder is found in possession of illegal fishing gear or has been cited for repeated fishing violations that cast suspicion on the authenticity of the record catch.
10. No fish caught from any aquaculture or commercial put-and-take facility is eligible.
11. The application must be submitted within 30 days of the date the fish is caught.

MASTER ANGLER RULES

1. All fish must be taken from Nebraska waters.
2. If a fish is caught from private waters, a valid fishing permit is required to receive the award.
3. Fish must be taken by hook-and-line. Fish caught on bank lines are not eligible. Fish must be legally hooked, played and landed by the applicant for the award.
4. The catch must be verified. This may be done by an employee of the Commission, a permit vendor, a witness or a photograph.

5. Anglers 16 years of age or older must possess a current Nebraska fishing permit and enter the permit number on the application.
6. Only fish immediately released are eligible for an award based on length. Any fish kept in a livewell or on a stringer must meet the minimum weight requirement to receive an award.
7. Anglers may receive only one award based on weight per year for each species. Catch-and-release awards are unlimited.
8. Anglers who release a Master Angler fish will receive a "Catch and Release Master Angler" pin in addition to the Master Angler certificate.

9. Minimum weights must be met to qualify for a Master Angler Award for a harvested fish.
10. Minimum lengths are used strictly for Master Angler Awards for a fish that was caught and released.

THE MINIMUM SIZE REQUIREMENTS ARE:

American Eel 24 in. or 1lb.
Bass	
Largemouth 20 in. or 5 lbs.
Rock 11 in. or 1 lb.
Smallmouth 18 in. or 3 lbs.
Spotted 18 in. or 3 lbs.
Striped 32 in. or 10 lbs.
Striper (hybrid) 24 in. or 8 lbs.
White 17 in. or 2.5 lbs.
Bluegill 10 in. or 1 lb.

Public Fishing Areas

How to use this guide

The Fisheries Division divides the state into five geographic regions, or management districts, with an office in each district. In this guide, lakes, rivers and streams are listed in alphabetical order within the district they are located. The five districts are; Northwest, Northeast, Southwest, South Central and Southeast.

NORTHWEST

The Northwest district is a large area that covers the Pine Ridge and North Platte Valley in the west, to most of the Sandhills region. It contain numerous natural Sandhills lakes and clear water streams and rivers. This area contains many of the state trout-supporting streams, along with several reservoirs and numerous Sandhills lakes that provide excellent walleye, muskie, channel catfish, northern pike, and panfish fishing opportunities.

Al Hanson,
Fisheries Supervisor
Alliance Office
(308)763-2940

Bessey Fish Pond (Thomas Co.) - 3 acres, 1W, 1/4S of Halsey - Bessey National Forest. Camping. Bluegill, channel catfish, largemouth bass; rainbow trout stocked in October. No motorized boating. Fish cleaning station, fishing deck.

Big Alkali WMA (Cherry Co.) - 842 acres, 16S, 4W, 1/2 S of Valentine. Bluegill, carp, channel catfish, black crappie, largemouth bass, northern pike, yellow perch. All boats allowed, ramp, camping, fishing camp. Snowmobiles and ATVs allowed on ice.

Boardman Creek (Cherry Co.) - 35SW of Valentine. Brown and rainbow trout. Private access, permission required.

Bourdeaux Creek (Dawes Co.) - SE of Chadron. Brook and brown trout. Public access on Big Bourdeaux Creek WMA.

Box Butte Reservoir SRA (Dawes Co.) - 1,600 acres, 10N of Hemingford. Bluegill, channel catfish, crappie, largemouth and smallmouth bass, northern pike, walleye, yellow perch, rock bass. Northern pike - protected slot limit of 28 to 34 inches, daily bag limit of 10, only 1 of which may be more than 34 inches with possession limit being 20. Subject to severe summer drawdown; primitive camping and electrical hook-ups are available, all boats allowed.

Bridgeport SRA (Morrill Co.) - 78 acres, in 5 lakes, NW edge of Bridgeport. Bluegill, channel catfish, crappie, largemouth bass, walleye, yellow perch, rainbow trout (NW lake), wiper (middle lake). Channel catfish - daily bag limit of 3. Primitive camping; all boats allowed on the middle pit, all other pits restricted to electric motor and nonpowered boats.

Buffalo Creek WMA (Scotts Bluff Co.) - 7 acres, 4S, 1/2W, 1S of Melbeta. Largemouth bass, yellow perch, crappie, channel catfish, rainbow trout. Access via 1-mile foot trail.

Carter P. Johnson Lake (Sioux Co.) - 15 acres, Fort Robinson SP. Cabins and camping. Rainbow trout, largemouth bass, rock bass, crappie, channel catfish. Electric motor and nonpowered boats allowed, wheelchair-accessible pier.

Chadron City Reservoirs (Dawes Co.) - 20 acres, in 2 ponds, 5/2S of Chadron. Bluegill, channel catfish, largemouth bass, yellow perch, rainbow trout. Nonpowered boats allowed.

Chadron Creek (Dawes Co.) - S of Chadron. Brook and brown trout. Public access at Chadron State Park, otherwise private access, permission required.

Chadron State Park Pond (Dawes Co.) - 2 acres, 9S of Chadron. Rainbow trout. Boats not allowed; wheelchair-accessible deck. Cabins and camping.

Chappell Interstate Lake (Deuel Co.) - 30 acres, 1/2S of Chappell, I-80 Exit 85 - Wheatland Drive. Black crappie, bluegill, channel catfish, largemouth bass, yellow perch.

Clear Lake (Cherry Co.) - 425 acres, 16S, 6W, 8S of Valentine to Refuge H.Q. Black bullhead, bluegill, northern pike, largemouth bass, yellow perch. Northern pike - 28 inch maximum length. Possession of baitfish prohibited, dead smelt allowed. Possession of fish not taken from refuge waters unlawful. No camping. Electric motor and nonpowered boats allowed. Refuge open sunrise to sunset. Dense vegetation in summer.

Cottonwood Lake SRA (Cherry Co.) - 34 acres, 1/2 E, 1/2 S of Merriman. Bluegill, channel catfish, black crappie, largemouth bass, northern pike, yellow perch. Primitive camping; aquatic vegetation hampers summer fishing, all boats allowed.

Cottonwood-Steverson Lake WMA (Cherry Co.) - 680 acres, 30N, 2E of Hyannis. Bluegill, largemouth bass, yellow perch, muskellunge, carp, walleye, black crappie. Concrete boat ramp, boats restricted to 5mph (no wake). Snowmobiles and ATVs allowed on ice.

Crane Lake (Garden Co.) - 128 acres, Crescent Lake National Wildlife Refuge, 22 N of Oshkosh. Yellow perch. Panfish-daily bag limit of 10; no baitfish allowed, only dead smelt. No camping. Open to fishing Nov. 1 - Feb. 15. Fishing allowed during daylight hours only. Fisherman must be off the lake no later than 1 hour after sunset. No boats or float tubes allowed.

Defair Lake WMA (Grant Co.) - 70 acres, 1E, 2S, ½E of Hyannis. Largemouth bass, yellow perch. Shallow lake.

Dewey Lake (Cherry Co.) - 550 acres, 16S, 6W, 8S of Valentine to Refuge H.Q. Bluegill, largemouth bass, northern pike, yellow perch. Northern pike – 28-inch maximum length. Possession of baitfish prohibited, dead smelt allowed. Possession of fish not taken from refuge waters unlawful. No camping allowed. Electric motor and nonpowered boats. Refuge open sunrise to sunset. Dense vegetation in summer.

Dismal River (Blaine Co.) - Brown and rainbow trout, channel catfish, carp. Private access, permission required.

Dry Sheep Creek (Sioux Co.) - NW of Morrill. Brown and rainbow trout. Private access, permission required.

Dry Spotted Tail Creek (Sioux Co.) - NW of Mitchell. Brown and rainbow trout. Private access, permission required.

Duck Lake (Cherry Co.) - 66 acres, 16S, 6W, 8S of Valentine to Refuge H.Q. Bluegill, bullhead, largemouth bass, yellow perch. Possession of baitfish prohibited, dead smelt allowed. Possession of fish not taken from refuge waters unlawful. No camping. Electric motor and nonpowered boats allowed. Refuge open sunrise to sunset. Dense vegetation in summer.

East Hyannis Lake (Avocet WMA) (Grant Co.) - 120 acres, 1E of Hyannis. Largemouth bass, yellow perch. Shallow lake, dense vegetation in summer.

Fairfield Creek (Cherry Co.) - 8N, 2E of Wood Lake to forks or 2½ W of Norden Road on S side of Niobrara River to mouth of creek. Brown and rainbow trout. Private access, permission required, vehicle access difficult, most areas accessible by long hike.

Frye Lake WMA (Grant Co.) - 243 acres, 1N, 1½ E of Hyannis. Bluegill, largemouth bass, yellow perch, channel catfish, walleye, black crappie. Panfish - daily bag limit of 10. No live baitfish can be used or possessed. Boats restricted to 5 mph (no wake).

Gilbert-Baker Pond (Sioux Co.) - 2 acres, 10 N of Harrison. Rainbow trout. Located on the east portion of Gilbert-Baker WMA.

Goldeneye WMA (Deuel Co.) - 17 acres, 1S, 3W of Big Springs. Black crappie, bluegill, channel catfish, largemouth bass, yellow perch.

Gabel Ponds (Dawes Co.) - 6 acres, in 4 ponds, Fort Robinson SP. Cabins and camping. Rainbow trout, largemouth bass, bluegill, rock bass, channel catfish.

Greenwood Creek (Morrill Co.) - SE of Bridgeport. Brown and rainbow trout. Private access, permission required.

Hackberry Lake (Cherry Co.) - 680 acres, 16S, 6W, 8S of Valentine to Refuge H.Q. Bluegill, largemouth bass, yellow perch. Possession of baitfish prohibited, dead smelt allowed. Possession of fish not taken from refuge waters unlawful. No camping allowed. Electric motor and nonpowered boats allowed. Refuge open sunrise to sunset. Dense vegetation in summer.

Hat Creek (Sioux Co.) - NE of Harrison. Brook trout. Private access, permission required.

Home Valley Lake (Cherry Co.) - 220 acres, 30N, 2½E, 1N of Hyannis. Bluegill, largemouth bass, yellow perch, black crappie, walleye, carp. Part of the Cottonwood-Steverson WMA. Boats restricted to 5 mph (no wake), portage route from Cottonwood-Steverson Lake. Snowmobiles and ATVs allowed on ice. Access to the north side of lake via private property, permission is required.

Hudson Lake (Cherry Co.) - 160 acres, 15S, 8W, 1N of Valentine. Largemouth bass, bluegill, yellow perch. Private lake, open to the public for ice-fishing only.

Ice House Ponds (Dawes Co.) - 6 acres, in 3 ponds, Fort Robinson SP. Cabins and camping. Largemouth bass, bluegill.

Isham Dam (Sheridan Co.) - 26 acres, NW of Hay Springs. Bluegill, bullhead, largemouth bass, yellow perch, crappie, channel catfish. Private lake, permission required; all boats allowed.

Island Lake (Garden Co.) - 711 acres, Crescent Lake National Wildlife Refuge, 22N of Oshkosh. Bluegill, crappie, largemouth bass, yellow perch. Panfish - daily bag limit of 10. No baitfish allowed, only dead smelt. No camping; electric motor and nonpowered boats allowed; area open one hour before sunrise to one hour after sunset.

Laing Lake (Box Butte Co.) - 10 acres, Alliance, W. 18th St. and Box Butte Ave. Largemouth bass, bluegill, channel catfish. See High Use Fishing Area Regulations section.

Lake Minatare SRA (Scotts Bluff Co.) - 2,100 acres, 12NE of Scottsbluff. Channel catfish, crappie, smallmouth bass, white bass, walleye, wiper, yellow perch. Waters within 150 feet of the dam are closed to fishing from sunset to sunrise March 1 through April 30. Camping; all boats allowed; closed Oct. 15-Jan. 14 or as posted. Subject to severe drawdowns.

Lake Winters Creek (Scotts Bluff Co.) - 235 acres, N of Minatare. Channel catfish, yellow perch, bluegill, largemouth bass. Electric motor and nonpowered boats allowed; closed Oct. 15-Jan 14, or as posted. Area is open sunrise to sunset only. Subject to severe drawdowns.

Larabee Creek (Sheridan Co.) - N of Rushville. Brook and rainbow trout. Private access, permission required.

Lodgepole Creek (Kimball Co.) - Kimball to Wyoming border. Brown and rainbow trout. Private access, permission required. Subject to low water or no water.

Merritt Reservoir SRA & WMA (Cherry Co.) - 2,900 acres, 26SW of Valentine. Bluegill, yellow perch, bullhead, channel catfish, black crappie, largemouth and smallmouth bass, muskellunge, northern pike, walleye, white bass, yellow perch, carp. Walleye - daily bag limit of 4 may include one walleye from 15 through 18 inches and three over 18 inches or four over 18 inches but no more than one over 22 inches in length allowed in the daily bag. Channel catfish - daily bag limit of 5. All boats allowed. Modern and primitive camping.

Middle Loup River (Hooker and Thomas Co.) - Upper river - brown and rainbow trout, Lower river - carp, channel catfish. Private access, permission required.

Minnechaduz Creek (Cherry Co.) - Valentine, below hatchery supply and in Valentine City Park. Rainbow trout seasonally.

Monroe Creek (Sioux Co.) - 4½N of Harrison. Brook trout. Public access on Gilbert-Baker WMA, otherwise private access, permission required.

Morrill Sandpits (Scotts Bluff Co.) - 25 acres, in 3 lakes, 3S of Morrill. Black crappie, bluegill, largemouth bass, rainbow trout, yellow perch, channel catfish. County owned, permission required, check with the City of Morrill. No boating or camping allowed. South and Middle sandpits renovated and restocked in 2007.

Ninemile Creek (Scotts Bluff Co.) - Brown and rainbow trout. Public access at Nine Mile Creek WMA 3 E of Minatare. Walk-in access SE of WMA and 1E 2N 1E of Minatare, otherwise permission required.

Niobrara River (Sioux and Dawes Co.) - Brown and rainbow trout. Private access, permission required. Extremely low water in summer. Public access on Agate Fossil Beds National Monument.

North Loup River (Cherry Co.) - Upper river - brown and rainbow trout, Lower river - carp, channel catfish. Private access, permission required.

Oliver Reservoir SRA (Kimball Co.) - 270 acres, 10W of Kimball. Bluegill, crappie, largemouth bass, yellow perch, walleye, channel catfish, carp, muskellunge. Primitive camping, all boats allowed, wheelchair-accessible pier. Subject to low water.

Pelican Lake (Cherry Co.) - 798 acres, 16S, 6W, 8S of Valentine to Refuge H.Q. Bullhead, bluegill, largemouth bass, northern pike, yellow perch. Northern pike - 28-inch maximum length. Possession of baitfish prohibited, dead smelt allowed. Possession of fish not taken from refuge waters unlawful. No camping. Electric motor and nonpowered boats allowed. Refuge open sunrise to sunset. Dense vegetation in summer.

Pine Creek (Sheridan Co.) - 20S of Rushville. Brown trout. Private access, permission required.

Rat and Beaver WMA (Cherry Co.) - 450 acres, in 2 lakes, 30S, 7W of Valentine. Bullhead, crappie, bluegill, carp, northern pike, yellow perch. Primitive boat ramp.

Red Willow Creek (Morrill Co.) - E of Bayard. Brown and rainbow trout. Private access, permission required.

Schlagel Creek WMA (Schlagel Creek) (Cherry Co.) - 16S, 4W, 4N of Valentine. Brown trout. Private access, permission required except on Schlagel Creek WMA.

Schoolhouse Lake (Cherry Co.) - 105 acres, 24S of Nenzel. Black crappie, bluegill, bullhead, largemouth bass. Private access, permission required.

Sheep Creek (Sioux Co.) - NW of Morrill. Brown and rainbow trout. Private access, permission required.

Shell Lake WMA (Cherry Co.) - 160 acres, 3N, 4E, 8N of Gordon. Bluegill, channel catfish, largemouth bass, northern pike, yellow perch. Aquatic vegetation hampers summer fishing. Boats restricted to 5 mph (no wake). Snowmobiles and ATVs allowed on ice.

Silvernail Drain (Morrill Co.) - E of Northport. Brown and rainbow trout. Private access, permission required.

Smith Lake (Garden Co.) - 225 acres, Crescent Lake National Wildlife Refuge, 26N of Oshkosh. Bluegill, black crappie, largemouth bass, yellow perch. Panfish-daily bag limit of 10. No baitfish allowed, only dead smelt. No camping. Open to fishing Nov. 1-Feb. 15. Fishing allowed during daylight hours only. Fisherman must be off the lake no later than 1 hour after sunset. No boats or float tubes allowed.

Smith Lake WMA (Sheridan Co.) - 290 acres, 23S of Rushville. Bluegill, black crappie, bullhead, largemouth bass, yellow perch, northern pike, walleye. Panfish-daily bag limit of 10. Primitive camping, boats restricted to 5 mph (no wake). Handicap accessible concrete boat ramp.

Snake River (Upper Reach) (Cherry Co.) - near Gordon. Brown and rainbow trout. Private access, permission required.

Soldier Creek (Dawes Co.) - 3W of Crawford. Brook, rainbow and brown trout. Public access at Fort Robinson State Park and Soldier Creek Wilderness Area.

Sowbelly Creek (Sioux Co.) - NE of Harrison. Brook and brown trout. Private access, permission required.

Spotted Tail Creek (Scotts Bluff Co.) - NW of Mitchell. Brown and rainbow trout. Private access, permission required.

Stuckenhole Creek (Scotts Bluff Co.) - W of Bayard. Brown and rainbow trout. Private access, permission required.

Terry's Pit (Scotts Bluff Co.) - 7 acres, Terrytown. Largemouth bass, channel catfish, rainbow trout.

Tub Springs (Sioux Co.) - NE of Mitchell. Brown and rainbow trout. Private access, permission required.

Valentine Mill Pond (Cherry Co.) - 20 acres, north edge of Valentine. Largemouth bass, bluegill, channel catfish.

Walgren Lake SRA (Sheridan Co.) - 100 acres, 5SE of Hay Springs. Bluegill, crappie, bullhead, largemouth bass, northern pike, walleye, yellow perch, channel catfish. Primitive camping; boats restricted to 5 mph (no wake), wheelchair-accessible fishing pier.

Watts Lake (Cherry Co.) - 230 acres, 16S, 6W, 8S of Valentine to Refuge H.Q. Bluegill, largemouth bass, muskellunge, yellow perch. Possession of baitfish prohibited, dead smelt allowed. Possession of fish not taken from refuge waters unlawful. No camping allowed. Electric motor and nonpowered boats allowed. Refuge open sunrise to sunset. Dense vegetation in summer.

West Long Lake (Cherry Co.) - 62 acres, 16S, 6W, 8S of Valentine to H.Q. Bluegill, largemouth bass, yellow perch, pike. Northern pike - 28-inch maximum length. Possession of baitfish is prohibited, dead smelt allowed. Possession of fish not taken from refuge waters unlawful. No camping allowed. Electric motor and nonpowered boats allowed. Refuge open sunrise to sunset. Dense vegetation in summer.

White Clay Creek (Sheridan Co.) - NW of Rushville. Brown trout. Private access, permission required.

White River (Dawes Co.) - W of Fort Robinson. Cabins and camping. Brown and rainbow trout. Public access at Fort Robinson State Park, otherwise private access, permission required.

Whitney Lake (Dawes Co.) - 900 acres, 1½W of Whitney. Channel catfish, crappie, walleye, yellow perch, white bass. Private irrigation reservoir, access limited. Subject to drawdowns. Public boat ramp on SE corner of the lake.

Wildhorse Creek (Morrill Co.) - N of Bayard. Brown trout. Private access, permission required.

Winters Creek (Scotts Bluff Co.) - NE of Scottsbluff. Brown and rainbow trout. Private access, permission required.

Wood Reserve Ponds (Dawes Co.) - 2 acres, in 4 ponds, Soldier's Creek Wilderness Area, Fort Robinson SP. Rainbow trout. Access via 1 mile hike up the middle branch of Soldiers Creek.

NORTHEAST

The Northeast district ranges from the Missouri River to the eastern edge of the Sandhills, thus containing fishing areas such as Lewis and Clark Lake and Calamus Reservoir. This area provides diverse fishing opportunity that includes species such as smallmouth bass, sauger and paddlefish along with some excellent walleye, largemouth bass, northern pike, flathead catfish, channel catfish and panfish. Quality trout streams such as Long Pine and Verdigre Creek are also in this area of the state along with many medium-size reservoirs.

Jeff Schuckman
Fisheries Supervisor
Norfolk Office
(402) 370-3374

Atkinson SRA (Holt Co.) - 5 acres, ½W of Atkinson. Bluegill, channel catfish, carp, largemouth bass, northern pike. Primitive camping, electrical hookups. Elkhorn River access.

Bazile Creek WMA (Missouri River) (Knox Co.) - 4E, 1½N of Niobrara, river mile 838.8. Carp, channel and flathead catfish, smallmouth bass, northern pike, sauger, walleye. Walleye and sauger - 15-inch minimum length. Gravel road to ramp gets muddy with heavy rains, ramp subject to flooding.

Black Island WMA (Elkhorn River) (Cuming Co.) - 2½E of Pilger on county road. Carp, channel and flathead catfish.

Boyer Chute National Wildlife Refuge (Washington Co.) - 3½E of Fort Calhoun. Restored channel off the Missouri River. Channel catfish, flathead catfish, common carp and other riverine species. Ice fishing is not allowed. No more than two lines with two hooks on each line maybe used. Trot lines, bank lines, set lines and float lines are prohibited. Archery and spearfishing are permitted for rough fish only. Digging or seining for bait is not allowed. Collecting and/or possession of frogs, toads, turtles and clams are not allowed. All water craft are prohibited in the Boyer Chute waterway. Check with refuge for additional regulations. Open a half-hour before sunrise to a half-hour after sunset.

Brooky Bottom Park (Missouri River) (Cedar Co.) - 4NE of Wynot, river mile 784.9. Carp, channel and flathead catfish, freshwater drum, paddlefish, sauger, walleye. Concrete boat ramp.

Buckskin Hills Lake WMA (Dixon Co.) - 75 acres, 2W, 3S, ½W of Newcastle. Bluegill, crappie, channel catfish, largemouth bass, walleye. Largemouth bass - 21-inch minimum length. Primitive camping; boats restricted to 5 mph (no wake). Owned by Lewis and Clark NRD.

Burwell Lake (Ladybird) (Garfield Co.) - 3 acres, 1E of Burwell. Largemouth bass, bluegill, channel catfish.

Calamus Reservoir SRA (Garfield and Loup Co.) - 5,200 acres, 2W, 5NW of Burwell. Channel catfish, black crappie, northern pike, muskellunge, walleye, wiper, yellow perch, white bass, carp. Channel catfish - daily bag limit of 5. Walleye - daily bag limit of 4 may include one walleye from 15 through 18 inches and three over 18 inches or four over 18 inches, but no more than one walleye over 22 inches in length allowed in the daily bag. Modern/primitive camping; boating on upper lake restricted to 5 mph (no wake). Fish-cleaning stations at Homestead Knolls and Nunda Shoals.

Calamus River (Brown and Loup Co.) - Brown Co. and Loup Co.. Carp, channel catfish, northern pike. Private access, permission required; canoe sites and camping.

Carney Pond (Holt Co.) - 2½ acres, O'Neill City Lake, ½S on Hwy 281. Largemouth bass, bluegill, channel catfish. Fishery renovated and restocked in 2007.

Chalkrock Lake WMA (Cedar Co.) - 44 acres, 5N, 1½E of Hwy 81 and 12 Jct. Largemouth bass, bluegill, channel catfish. No live baitfish can be used or possessed. Boats restricted to 5 mph (no wake).

TaHaZouka Park Lake (Madison Co.) - 5 acres, Norfolk - south edge of Norfolk just east of Hwy 81 and just north of the Elkhorn River. Largemouth bass, bluegill, channel catfish, rainbow trout stocked seasonally - daily bag limit of 8 trout. See High Use Fishing Area Regulations section. No live baitfish can be used or possessed.

SOUTHWEST

The Southwest district contains the majority of the state's larger irrigation reservoirs and their related canal systems. These areas provide excellent fishing opportunities for channel catfish, flathead catfish, walleye, white bass and smallmouth bass. Numerous smaller lakes provide fishing opportunities for largemouth bass, channel catfish and panfish.

SOUTH CENTRAL

A variety of fishing opportunities are available for anglers in south-central Nebraska. Large reservoirs, such as Harlan and Sherman, offer fishing for walleye, white bass, crappie and channel catfish. This area of the state also contains the bulk of the interstate lakes that offer excellent largemouth bass, bluegill, and channel catfish opportunities. Elm Creek near Red Cloud provides spring and fall rainbow trout fishing.

2009 FAMILY FISHING NIGHTS

Nebraska's Youth Fishing Program is sponsoring Family Fishing Nights at Lincoln and Omaha Metro area lakes. Meet at the white Urban Fisheries Trailer, where rods and reels, as well as bait and fishing instruction are available to participants. This is the perfect opportunity for people who have never fished or haven't fished in years. All participants ages 16 or older need a 2009 fishing license if they fish at the event.
