## ABOUT THIS GUIDE

The Nebraska Game and Parks Commission's Fishing Guide is a summary of Nebraska's regulations, orders and statutes pertaining to fishing. It is not intended to be a complete digest of regulations, orders and statutes. A complete listing may be found at:

### Regulations and Orders:

[outdoornebraska.org/regulations](http://outdoornebraska.org/regulations)

### Statutes:

[law.justia.com/codes/nebraska/2020/chapter-37/](http://law.justia.com/codes/nebraska/2020/chapter-37/)

### Neb. Rev. Statute 84-901.03:

This guidance document is advisory in nature but is binding on an agency until amended by such agency. A guidance document does not include internal procedural documents that only affect the internal operations of the agency and does not impose additional requirements or penalties on regulated parties or include confidential information or rules and regulations made in accordance with the Administrative Procedure Act. If you believe that this guidance document imposes additional requirements or penalties on regulated parties, you may request a review of the document.

### Advertising Sales

# 2022 Season Dates

Season	Dates	More Info
Hook and Line	Year-round	Page 12
Paddlefish	Archery: June 1 - 30; Snagging: Oct. 1 - 31	Page 21
Underwater Spearfishing	Game Fish: July 1 - Dec. 31 statewide, except Box Butte Reservoir and private waters, where the season is June 1 - Dec. 31; Non-game Fish: year-round	Page 20
Surface Spearfishing	Year-round for nongame fish only	Page 20
Archery	July 1- Dec. 31 for game fish; Year-round for nongame fish	Page 20
Bullfrog	Aug. 15 - Oct. 31, east of Hwy. 81; Year-round, west of Hwy. 81	Page 19
Snapping turtle	Year-round	Page 19
Mussel	Year-round, no harvest in any river or stream	Page 19

## New for 2022

**Black Bass** – The area where there is no minimum length limit on smallmouth bass is expanded to: the NPPD Canal starting at the Sutherland Reservoir outlet to the confluence with the South Platte River in Lincoln County, including Lake Maloney. Bufflehead Wildlife Management Area and David City Ponds are added to the list of waters where the minimum length limit on black bass is 21 inches.

**Striped Bass, White Bass and Striped Bass Hybrid** – Wagon Train Reservoir is removed from the list of waters where the exception for bag limit is three fish in the daily bag.

**Channel Catfish** – Box Butte Reservoir is added to the list of waters where the bag limit shall not include more than one fish 30 inches or greater in length.

**Lake McConaughy** – It is illegal to possess striped bass hybrids (wipers) on Lonergan Creek from its junction at the McConaughy lakeshore upstream to, and including, the culvert under Highway 92.

**Paddlefish** – In lieu of participating in the draw for a paddlefish permit, anglers now may purchase one preference point per season during the application period. Resident preference point: \$10; Nonresident preference point: \$20.

**No Live Baitfish** – DeFair Lake WMA in Grant County is added to the list of water bodies where it is illegal to possess or use live baitfish while fishing.

# Save up to 30%

# with a 3-year or 5-year fishing permit.

# Permit Information

## WHO NEEDS A FISHING PERMIT?

A Nebraska permit is required of residents and nonresidents age 16 and over. Nonresidents under age 16 need not have a fishing permit if they are accompanied by someone who has a Nebraska fishing permit. A fishing permit is required to take or attempt to take fish, bullfrogs, snapping turtles, barred salamanders or mussels by any legal method. An angler must carry the fishing permit while actively fishing.

## RESIDENT PERMITS

The requirements to qualify as a Nebraska resident to buy a fishing permit:

- Reside in Nebraska continuously for at least 30 days before making application for a permit and intend to become a Nebraska resident.
- Residents in school in another state or stationed outside Nebraska as part of a military assignment that have maintained Nebraska as their state of legal residency.
- Active-duty military personnel and full-time students stationed or attending school in Nebraska for a period of at least 30 days.
- A new resident should be prepared to provide documentation of residency (driver's license, voter registration, etc.) to an officer when in possession of a permit.

## NONRESIDENT PERMITS

A nonresident fishing permit is required of all people who are not Nebraska residents, except those listed above and those under 16 years of age who are accompanied by someone with a Nebraska fishing permit.

## MOBILE PERMITS

Nebraska hunt (small game), fish, resident fur harvest permits and associated stamps may be purchased, accessed or displayed on a mobile device. The image of a mobile permit may be displayed and saved on a device such as a phone or tablet. Visit [OutdoorNebraska.org](http://OutdoorNebraska.org) for more information.

## OTHER TYPES OF PERMITS

**Fee-Exempt Permits** – These are available to resident veterans who:

- are 50 percent disabled as a result of armed forces service
- receive a pension from the Veterans Administration as a result of a total and permanent disability not incurred in the line of duty while in military service
- obtained fee-exempt permits before Jan. 1, 2006

# Fishing Permit and Stamp Fees

**Issue Fees** – A \$3 issue fee is included on all fishing, fish/hunt, and paddlefish permits listed below EXCEPT veteran fish/hunt, senior fish/hunt and deployed military permits.

**Nonrefundable Application Fees** – A \$7 nonrefundable application fee is included on paddlefish permits.

**Stamps** – Aquatic Habitat Stamp included in price of all fishing permits listed below EXCEPT the following that do not require one: paddlefish, veteran fish/hunt, senior fish/hunt, and disabled permits.

## RESIDENT FISH

Fish, annual	\$38	Fish, 5-year	\$132 <sup>3</sup>
Fish/Hunt, annual	\$52	Fish/Hunt, 3-year	\$191 <sup>2</sup>
Fish, 1-day	\$10	Fish/Hunt, 5-year	\$285 <sup>4</sup>
Fish, 3-day	\$31	Fish, lifetime (age 0-15)	\$616
Paddlefish	\$33	Fish, lifetime (age 16-45)	\$710
Deployed military, annual	\$5	Fish, lifetime (age 46-over)	\$616
Veteran Fish/Hunt, annual	\$5	Fish/Hunt, lifetime (age 0-15)	\$859
Senior Fish/Hunt, annual	\$5	Fish/Hunt, lifetime (age 16-45)	\$1,008
Special disabled, annual	\$8	Fish/Hunt, lifetime (age 46-over)	\$859
Fish, 3-year	\$90.50 <sup>1</sup>	Paddlefish Preference Point	\$10

## NONRESIDENT FISH

Fish, annual	\$84	Fish/Hunt, 3-year	\$534 <sup>2</sup>
Fish/Hunt, annual	\$177	Fish/Hunt, 5-year	\$800 <sup>4</sup>
Fish, 1-day	\$14.50	Fish, lifetime (age 0-16)	\$929
Fish, 3-day	\$37	Fish, lifetime (age 17-over)	\$1,306
Paddlefish	\$57	Fish/Hunt, lifetime (age 0-16)	\$1,600
Fish, 3-year	\$216.50 <sup>1</sup>	Fish/Hunt, lifetime (age 17-over)	\$2,391
Fish, 5-year	\$326 <sup>3</sup>	Paddlefish Preference Point	\$20

<sup>1</sup> Includes 3-year Aquatic Habitat Stamp      <sup>2</sup> Includes 3-year Aquatic Habitat Stamp and Habitat Stamp

<sup>3</sup> Includes 5-year Aquatic Habitat Stamp      <sup>4</sup> Includes 5-year Aquatic Habitat Stamp and Habitat Stamp

**NOTE:** Nebraska Waterfowl Stamps may be purchased with 3- and 5-year Fish/Hunt permits

## VEHICLE PARK ENTRY

Nebraska licensed:		Non-Nebraska licensed:	
Annual	\$30	Annual	\$60
Duplicate annual	\$15	Duplicate annual	\$30
Daily	\$6	Daily	\$12

Issue fees on park permits may apply.

## BOATING (includes \$3 issue fee)

Nonresident Aquatic Invasive Species Stamp, annual      \$18

**Veteran and Senior Permits** – An annual fish/hunt permit is available for resident veterans age 64 and older and resident seniors age 69 and older.

**Special Fishing Permit** – This annual permit is for physically or developmentally disabled residents who cannot cast or retrieve unassisted.

- This entitles the disabled person and one person assisting him or her to take, fish, catch, harvest or possess any aquatic organism in compliance with state regulations.
- If the person assisting does not have a valid fishing permit, they are restricted to one daily bag limit between the two anglers.
- Disabled person is a person certified by a physician to have a permanent physical impairment or developmental disability that results in the inability to use fishing equipment unassisted.
- Applications are available from Game and Parks district offices, service centers and the Schramm Education Center.

**Educational Fishing Project Permit** – This may be obtained by instructors at any university, college or high school from the Fisheries Division for his/her students, 16 years of age and older who are participating in an educational fishing project.

**Paddlefish Permit** – Required, along with a Nebraska fishing permit, for taking paddlefish by snagging or archery during designated seasons.

**Salvage Permit** – The permit allows for the salvage of fish from selected irrigation canals located in the Platte River, Republican River and Loup River drainages. Applications must be submitted to Game and Parks' North Platte district office or the Kearney service center. Live fish cannot be transported in water from a canal because of the potential for moving diseases and aquatic invasive species. Fish for consumption should be transported on ice.

## PERMIT REVOCATION

Under Nebraska law, hunting and fishing privileges may be revoked for some game law and court-determined violations. This could include certain one-time offenses by individuals or repeated violations by habitual offenders. Any person whose privilege to hunt, fish or harvest fur has been suspended or revoked in another jurisdiction within the United States or Canada also shall be prohibited from obtaining a permit for such activity in Nebraska for the duration of the suspension.

Paid Advertisement

**MAJOR  
IN NATURE**

**N** SCHOOL OF NATURAL RESOURCES  
[go.unl.edu/StudyNature](http://go.unl.edu/StudyNature)

## PERMIT REQUIREMENTS ON BORDER WATERS

Anglers holding a Nebraska, South Dakota, Iowa or Missouri sport fishing license may fish all waters of the Missouri River in the state they are licensed, as well as Missouri River waters of the state immediately across the river.

- Missouri River waters are defined to include all flowing portions and backwaters, sloughs and chutes that draw water from the Missouri River.
- Oxbows and backwaters separated from the Missouri River by land are included if the state boundary line passes through some part of such waters.
- Mouths of tributaries may be fished only in the state that the angler is licensed.
- Anglers may fish from either bank or boats.
- Anglers fishing in the state for which they do not hold a fishing permit must abide by the more restrictive of the two state's regulations.
- Iowa and Missouri resident anglers may fish waters of Hamburg Bend Wildlife Management Area and the Nebraska portion of the Missouri River from the chute entrance (adjacent to Iowa) to the chute exit (adjacent to Missouri).

## WHEN FISHING PERMIT IS NOT REQUIRED

Owners or their guests fishing on a private water body are not required to have a fishing permit if all of the following apply to that water: 1) is located entirely on private land, 2) is entirely privately stocked, 3) does not connect by inflow or outflow with any other water outside such land, and 4) is not operated on a commercial basis for profit. In addition, any licensed commercial put-and-take operation is exempt from a fishing permit.

# Fishing Regulations

## HOOK-AND-LINE REGULATIONS

Hook-and-line fishing is allowed year-round throughout the state, except as noted or as posted at an area.

**Definition of a Hook** – One hook means a single-, double- or treble-pointed hook. All hooks attached to an artificial bait or lure shall be counted as one hook.

**Ponds, Lakes or Reservoirs** – Anglers are limited to no more than two lines, with a maximum of two hooks on each line, with these being any type of attached line (such as rod and reel or fishing pole) on all lakes, ponds or reservoirs or in their inlets, outlets and canals within one-half mile of these bodies of water, with the exception of ice-fishing line limits. This includes Lewis and Clark Lake from Gavins Point Dam upstream to the Santee boat ramp in Knox County.

**Ice-Fishing** – A total of five lines with two hooks on each line are permitted. Each line must be under direct supervision and within unaided observation of the angler. Holes made for ice-fishing may not exceed 10 inches in diameter on any area controlled or managed by Game and Parks, including U.S. Fish and Wildlife Service refuges. A special \$5 permit is required for a permanent shelter on state recreation areas and wildlife management area lakes. Applications and regulations are available from conservation officers or Game and Parks offices. This does not apply to temporary shelters used and removed each day.

**Rivers or Streams** – A total of 15 hooks are allowed, ranging from 15 lines each with a single hook attached, to three lines with a maximum of five hooks attached. These hook-and-line limits apply to anglers who must be one-half mile from any lake, pond or reservoir that is associated with that river or stream. These can be rods and reels, poles, bank lines, limb lines or setlines that are attached to a fixed object in a river, stream or canal and not free-floating. Jug lines are illegal and are defined as a free-floating line that contains fishing hooks entirely supported by flotation. All bank lines, limb lines and setlines must contain the angler's name, address and fishing-permit number or driver's license number. Bank lines, limb lines and setlines must be checked every 24 hours.

**Removal of Bank Lines, Limb Lines and Setlines** – Upon completion of fishing, all bank lines, limb lines and setlines must be removed. Within the boundaries of the Missouri National Recreational River, limb lines and setlines are prohibited within 200 feet of public boat landings or swimming areas.

## SNAGGING

Snagging of paddlefish and nongame fish is permitted only in the Missouri River under season dates and limits specified in the Paddlefish snagging section. All other state waters are closed to snagging for all species at all times. All fish snagged accidentally or otherwise foul-hooked, must be returned to the water immediately.

## BAG, POSSESSION AND LENGTH LIMITS

Bag and possession limits may vary between "inland waters" and "waters of the Missouri River." For this purpose only:

- "inland waters" include all waters of the state except the waters of the Missouri River
- "waters of the Missouri River" include all of the river along Nebraska's border and all reservoirs, oxbows, sloughs, chutes, backwaters and marshes that have annual surface water connection to the river and the first 300 yards upstream from the mouth of all tributary streams
- "statewide" includes all inland waters of the state and waters of the Missouri River

**Culling** – Culling and high-grading are not allowed. Any fish that is not to be counted in the daily bag limit must be returned immediately to the water with as little injury as possible. Any fish placed on a stringer or in a container, or not returned to the water must be counted in the bag.

**Daily Bag Limit** – The number of fish harvested from midnight to the following midnight taken by all legal methods combined. No person may possess more than one day's bag limit of fish while on the water.

**Restricted Species** – It is unlawful to possess or transport any live white perch, black carp, silver carp, bighead carp, grass carp or yellow bass.

Largemouth Bass

Smallmouth Bass

Spotted Bass

## Black Bass (Largemouth, Smallmouth, Spotted)

Location	Species	Length Limit	Bag	Possession
Inland Waters, and DeSoto National Wildlife Refuge, Snyder Bend and Lake Yankton	Black Bass	15-inch minimum; One 21 inches or longer	5 in aggregate	10 in aggregate
EXCEPTIONS:				
Selected areas listed in Public Fishing Areas section and on private waters leased in Open Fields and Waters and PATH Fishing programs	Black Bass	21-inch minimum	1	10
Missouri River between Nebraska and Iowa/Missouri	Black Bass	12-inch minimum; One 21 inches or longer	5	10
Missouri River between Nebraska and South Dakota	Black Bass	No minimum; One 21 inches or longer	5	10
Nebraska Public Power District Canal from Sutherland Reservoir outlet to confluence with South Platte River, including Lake Maloney	Smallmouth Bass	No minimum; One 15 inches or longer	5 <sup>a</sup>	10 <sup>b</sup>
Big Elk Lake, Portal Lake	Smallmouth Bass	12-inch maximum	2 <sup>a</sup>	10 <sup>b</sup>
<sup>a</sup> still included in aggregate black bass bag limit (5 fish)				
<sup>b</sup> still included in aggregate black bass possession limit (10 fish)				

**Possession Limit** – The total number of fish that a person may possess in portable coolers, home freezers, registered in their name in a commercial cold storage locker, or in any way under their control. Fish or aquatic animals placed in public storage or transferred must be labeled with the owner’s name, address, phone number, date of birth, signature, date taken, species and numbers, and the name of recipient, if transferred.

**How to Measure a Fish** – Lay the fish on its side with its mouth closed and the tail lobes pressed together. With a yardstick or tape measure under the fish, measure the length from the tip of the snout to the end of the tail. Do not follow the contour of the fish.

**Minimum Length Limit** – A fish must be equal to or longer than the defined length to be legally harvested.

**Maximum Length Limit** – A fish must be shorter than the defined length to be legally harvested.

**Protected Slot Limit** – A range of lengths of a particular species that may not be harvested legally. For instance, a 20- to 28-inch protected slot limit on walleye means that only walleye less than 20 inches in length or greater than 28 inches may be harvested.

**One-Over Length Bag Limits** – For some species, the number of large fish that may be harvested may be limited on some or all waters. For example, while it may be legal to harvest four black bass more than 15 inches from a given lake, statewide regulations prohibit an angler from harvesting more than one black bass 21 inches or longer each day from any waters. Therefore, for lakes with a 21-inch minimum length limit on black bass, the daily bag limit becomes one fish.

Walleye

Sauger

Saugeye

## Walleye, Sauger, Saugeye

Location	Length Limit	Bag	Possession
Inland Waters	15-inch minimum; One 22 inches or longer	4	8
EXCEPTIONS:			
Branched Oak Lake	22-inch minimum	1	8
Elwood Reservoir, Harlan County Lake (including Republican River upstream to Hwy. 183 bridge), Merritt Reservoir	One from 15 to 18 inches and three longer than 18 inches OR four longer than 18 inches; No more than one 22 inches or longer	4	8
Calamus Reservoir	Two from 15 to 18 inches; Two over 18 inches; No more than one 22 inches or longer	4	8
Sherman Reservoir	20- to 28-inch protected slot (no harvest); Two between 15 inches and not greater than 20 inches; One longer than 28 inches	3	8
Missouri River waters – upstream of Gavins Point Dam (Lewis and Clark Lake and portion of river upstream to Neb./S.D. border); DeSoto Bend NWR	15-inch minimum	4	8
Missouri River waters – downstream of Gavins Point Dam	No minimum	4	8

### IT IS UNLAWFUL TO ...

- borrow or use the permit of another or lend your permit to another
- leave dead fish or any part of one on the banks or in the water of any stream, lake or other body of water
- fish on any private land without landowner permission
- release into public waters of the state any fish that did not originate from that body of water, including the dumping of bait buckets.
- seine sport fish of any size
- leave fish in a trap for more than 24 hours
- attempt to snag fish, except in designated seasons
- use limb lines or set lines in any pond, lake or reservoir
- catch fish by hand
- buy or attempt to buy a permit while under license suspension or revocation in any state
- keep an externally foul-hooked fish, except those legally snagged
- leave a water body with lake or river water present in a boat or container
- transport any fish or baitfish in water from any stream, river, pond or lake

Blue Catfish

Channel Catfish

Flathead Catfish

## Catfish (Blue, Channel and Flathead)

Location	Length Limit	Bag	Possession
<b>Blue Catfish</b>			
Statewide	No minimum	1	2

Fort Kearny SRA No. 2, Two Rivers SRA Nos. 3 and 4, Wildwood Lake, Windmill SRA No. 3	Catch and release	0	0
<b>Channel Catfish</b>			
Standing Water (reservoirs, lakes, ponds and pits)	No minimum	5	20
Flowing Water (rivers, streams and canals), including the Republican River upstream of Hwy. 183 bridge, North Platte River west of Hwy. 26 bridge, and Jeffrey Reservoir, Lake Babcock, Lake North, Midway Canyon Reservoir, Plum Creek Canyon Reservoir, Gallagher Canyon Reservoir, Johnson Lake, Lake Maloney, Lewis and Clark Lake, Phillips Canyon Reservoir, Sutherland Reservoir	No minimum	10	20
Merritt Reservoir, Calamus Reservoir, Box Butte Reservoir	No minimum; One 30 inches or longer	5	20
Fort Kearny SRA No. 2, Two Rivers SRA Nos. 3 and 4, Wildwood Lake, Windmill SRA No. 3	Catch and release	0	0
<b>Flathead Catfish</b>			
Statewide	No minimum; One 30 inches or longer	5	10
EXCEPTION:			
Branched Oak Lake	Catch and release	0	0

## Catch-and-Release for All Species

- West Brady
- East Hershey
- Kea West
- Flanagan Lake
- Jenny Newman Pond
- Baright Lake

### LENGTH LIMITS AND CLEANING OF FISH

Where length and bag limits apply, fish may not be filleted until fishing is completed for the day and anglers are off the water. Fish subject to bag and possession limits but not length limits, may be processed before transport if the fillets are kept in one piece until cooked, so the bag and possession limits can be determined. Fish species subject to a length limit may not be possessed with more than the gills, viscera and scales removed while on the water, wading or engaged in fishing. Any fish in possession while on the water will be subject to length and bag limits that apply to that water body. Once off the water, the fish may be filleted for transportation and storage.

Muskellunge

Tiger Muskie

Northern Pike

## Muskellunge, Tiger Muskie and Northern Pike

Location	Length Limit	Bag	Possession
<b>Muskellunge and Tiger Muskie</b>			
Statewide	40-inch minimum	1	2

Only entrails may be removed before transport.</li> <li>No minimum length limit</li> </ul>
Bullfrog, West of U.S. Hwy. 81	Year-round	8/16	<ul style="list-style-type: none"> <li>May be taken by methods above, plus archery and gigging. Artificial light may be used.</li> </ul>	
Snapping turtle	Year-round	5/10	<ul style="list-style-type: none"> <li>May be taken only by hand, hand net, hook-and-line, bow-and-arrow, gaff hook or legal trap. (Traps allowed only on private waters.)</li> </ul>	
Mussel	Year-round	10/20	<ul style="list-style-type: none"> <li>May be taken only by hand, hand net or hook-and-line.</li> </ul>	<ul style="list-style-type: none"> <li>All rivers and streams closed to harvest.</li> </ul>

# Archery and Spearfishing

## ARCHERY AND SURFACE SPEARFISHING

- Game fish may be taken by archery statewide from July 1 through Dec. 31 from sunrise to sunset.
- Game fish must meet the length limit requirements for the water body from which they were harvested, as well as daily bag limits and possession limits.
- Game fish may not be taken with surface spears.
- Nongame fish may be taken by archery or surface spear statewide 24 hours a day year-round.
- Note the closed area below Gavins Point Dam during the archery paddlefish season.
- Use of crossbows is illegal in the area from the Gavins Point Dam downstream to the U.S. Hwy. 81 bridge. They are allowed only downstream of the bridge.
- Artificial lights are allowed.
- Only hand-drawn longbows (including compound bows) and crossbows (designed to be shoulder fired) are legal.
- Arrows may have only one point, which must be barbed, and must be attached by a line to the bow at the time the arrow is released.
- For surface spearing, only hand spears are legal.
- The following waters are closed year-round: Platte River State Park, Eugene T. Mahoney State Park, and other park areas as posted.

## UNDERWATER SPEARFISHING

Lawful spear guns include hand spears, rubber band-powered spear guns, compressed air spear guns, and spring-loaded spear guns. All spears used on powered spear guns must be attached to a shooting line no more than 20 feet long. Underwater spearfishing is not permitted within 100 yards of any designated swimming or water-ski jump area, boat dock, boat ramp or spillway.

**Seasons** – The season for game fish is July 1 through Dec. 31 in waters listed below, except \*Box Butte Reservoir and private waters, which starts June 1. Bag, possession and length limits are the same as for hook and line. Hours are sunrise to sunset. The season for nongame fish is year-round in waters listed below. There are no size, bag or possession limits for nongame fish species. Hours are sunrise to sunset.

**Waters Open to All Species** – All privately-owned lakes are open, with permission of the owner, as well as:

Lake McConaughy	Harlan County Reservoir	Sutherland Reservoir	Swanson Reservoir
Lake Ogallala	Enders Reservoir	Maloney Reservoir	Merritt Reservoir
Lake Minatare	Elwood Reservoir	Jeffrey Reservoir	Calamus Reservoir
Box Butte Reservoir *	Red Willow Reservoir	Johnson Reservoir	
Lewis and Clark Lake	Medicine Creek	Sherman Reservoir	

**Waters Open to Nongame Fish Species Only:**

<b>Buffalo County</b>	Kea West WMA	<b>Dawson County</b>	<b>Hall County</b>
Union Pacific SRA	East Odessa WMA	Dogwood WMA	Cheyenne SRA
War Axe SRA	Blue Hole West WMA	Cozad WMA	Wood River West WMA
Bassway Strip WMA	North Kearney Rest Stop	Cozad West WMA	Alda DOT
Bufflehead WMA	Sandy Channel SRA	Willow Island WMA	
Kea Lake WMA		East Gothenburg WMA	

**Diver's Flag** – A diver's flag must be displayed on the water on a float or buoy when diving or underwater spearfishing. Divers and underwater spearfishers must remain within 150 feet of the flag. The flag must be at least 12 inches square, with a red background and white diagonal stripe that is one-fifth the width of the flag. The white stripe must run from the top of the hoist to the bottom of the flag. It is unlawful to display this flag when diving or spearfishing is not in progress.

# Paddlefish Regulations

## PERMITS

- One person may have no more than two Nebraska archery permits and two Nebraska snagging permits per year.
- Permits and their accompanying tags are nontransferable.
- Permits are issued using a preference system. The applicant will receive a preference point if he or she is unsuccessful in being awarded a permit. **Nonrefundable fee due at time of application: \$7.**
- A permit fee is due if successful in the draw. Residents: \$26; Nonresidents: \$50.
- A person who does not apply at least once during five consecutive years will lose all accumulated points.
- Application must have valid email address provided to assist in contacting on draw results.
- In lieu of participating in the draw, anglers may purchase one preference point per season during the application period. Resident preference point: \$10; Nonresident preference point: \$20.

**Buddy Applications** – Buddy permits are for two applicants only. Applicants must be either both residents or both nonresidents. If there is a difference in preference points, the applications will be assigned to the applicant with the lowest preference points.

## APPLICATION PERIODS

**Archery permit:** March 1-14

Permits remaining following the drawing will be made available to the next resident unsuccessful applicant(s).

**Snagging permit:** July 1-14

Permits remaining following the drawing will be made available to the next resident unsuccessful applicant(s)

**NOTE:** All application periods begin at 1 p.m. Central Time. Mailed applications must be received in the Lincoln office by 5 p.m. on the last day of the application period. Online applications end at midnight.

## ARCHERY PADDLEFISH

Paddlefish may be taken by bow and arrow and possessed in a designated area of the Missouri River only during the season.

**Season** – June 1-30

**Legal Hours** – sunrise to sunset

**Open Area** – The open area is from Gavins Point Dam downstream to the mouth of the Big Sioux River at mile marker 734.

**Closed Area** – The area extending downstream from Gavins Point Dam to a line extending from the east end of the south cement wall of the discharge channel northwest to the east end of the north wall of the spillway is closed to all archers during the archery paddlefish season. The area downstream of this line is open to archers taking game and nongame fish during the appropriate seasons. See image on page 22. The use of crossbows is not allowed in the area from the Gavins Point Dam downstream to the U.S. Highway 81 bridge.

**NOTE:** From the open area below Gavins Point Dam to 0.6 miles downstream, archers may harvest paddlefish if they possess a valid Nebraska resident or Nebraska nonresident archery paddlefish permit as well as a valid Nebraska fishing permit or a South Dakota resident archery paddlefish permit. A South Dakota nonresident fishing permit/tag is not valid in this area. In the remainder of the river open to archery paddlefish, South Dakota nonresident archery paddlefish permits are valid.

**Requirements** – All paddlefish archery anglers must have in their possession a paddlefish tag and a Nebraska fishing permit, if required. Applicants for tags must be 12 years old by June 1.

**Tag limit** – Each angler may have no more than two tags.

## SNAGGING PADDLEFISH

Snagging of paddlefish and nongame fish in the Missouri River is permitted from the Gavins Point Dam downstream to the mouth of the Big Sioux River at mile marker 734.

**Season** – Oct. 1-31

**Legal Hours** – 7 a.m. to 7 p.m.

**Closed Area** – The area extending downstream from Gavins Point Dam to a line extending from the east end of the south cement wall of the discharge channel northwest to the east end of the chalk point is closed to snagging.

Also:

- Snagging off the north wall of the spillway is prohibited.
- All inland waters are closed to paddlefish harvest.

**Requirements** – Snaggers must have in their possession an unfilled paddlefish tag while actively snagging, in addition to a valid fishing permit, if required.

From Gavins Point Dam to 0.6 miles downstream, snaggers must possess a valid Nebraska resident or Nebraska nonresident snagging permit or a South Dakota resident snagging permit.

A South Dakota nonresident fishing permit/tag is not valid in this area. In the remainder of the river open to snagging, South Dakota nonresident permits are valid.

- No snagging off north wall
- ▨ Closed to all paddlefish fishing
- ▩ Closed to archery paddlefish fishing

**Possession** – Paddlefish harvested by snagging may be possessed only on the Missouri River during the open season in the designated open area.

**Minimum Age** – Applicants must be 12 years old by Oct. 1 to be eligible to apply for a snagging permit.

**Hooks** – Only one hook may be used when snagging, and the gap between the point of the hook and the shank may not exceed one-half inch.

**Bag and Possession Limits** – The daily bag and possession limits are the total number of tags issued to an individual.

**Casting and Hooking** – All paddlefish anglers are required to cast for and hook their own fish.

**Length Limit** – All paddlefish between 35 and 45 inches long (measured along the centerline of the fish, lying flat, from the front margin of the eye to the natural fork of the tail), must be returned to the water immediately.

**Gaff Hook** – It is unlawful to use a gaff hook or other penetrating device while landing snagged paddlefish.

## TAGGING, CLEANING AND TRANSPORTATION

A paddlefish must be tagged immediately in the dorsal fin with the angler's tag upon addition to the creel. Any paddlefish tag that is locked before attachment, altered or modified shall be void and will not be replaced. Anglers harvesting a paddlefish are allowed to process the fish down to two whole fillets after completion of the fishing trip and upon leaving the Missouri River with both the closed paddlefish tag and paddlefish permit remaining with the fillets.

## DISCARDING NONGAME FISH

It is unlawful to discard nongame fish on the bank.

# Application for Paddlefish Permit

# Bait Regulations

Baitfish, listed amphibians and crayfish may not be sold, except by permit. The following regulations apply only to bait obtained for personal use. For commercial purposes (bait dealers, private aquaculturists and nonresident fish dealers), refer to the regulations supplied with your permit.

- It is unlawful to take baitfish, listed amphibians or crayfish from any public lake, reservoir or bayou unless otherwise stated below.
- Digging and trapping for bait or any other purpose is prohibited on all state-owned or controlled areas.
- It shall be unlawful for any individual or bait dealer to transport away from the river any live fish to be used for bait that has been collected on the Missouri River downstream below Gavins Point Dam to the Kansas border and all other rivers and streams located east of U. S. Hwy. 81 from the South Dakota border to York, north of Interstate 80 from York to Lincoln, and east of U. S. Hwy. 77 from Lincoln to the Kansas border. The use of baitfish seined by anglers from these rivers and streams may only be used at the body of water from which they were captured.
- Seining for baitfish, listed amphibians or crayfish is allowed on streams located on state recreation areas (SRA) and wildlife management areas (WMA) unless the stream is listed as closed.
- It is illegal to possess while fishing or use for bait Red Swamp Crayfish, White River Crayfish or Rusty Crayfish. If you suspect that you have either collected or purchased one of these species, bring them to a Game and Parks office.
- All non-baitfish taken while netting or seining for bait must be returned immediately to the waters from which taken.
- The bag and possession limit of baitfish and listed amphibians for personal use is 100.

**NOTE:** Anglers who seine their own baitfish must properly identify the fish species collected to avoid transfer of invasive species. It is illegal to dump baitfish or water from the seining location into a different water body as that could also transfer invasive species including fish diseases. Seined baitfish should be transported in domestic water to reduce the chance of transporting diseases or aquatic invasive species.

**Gizzard Shad and Alewife** – May be taken for use as bait by legal dip nets from lakes, ponds, reservoirs, and below dams and other artificial obstructions for a distance of 200 yards below such obstructions.

- Live shad and alewife may be used only in the body of water from which they were captured.
- Shad and alewife may be taken by legal seine or dip net in streams, except those streams closed to the taking of baitfish or bait by such method, but cannot be transferred alive and used in other waters.

Lincoln, NE 68504**

**LUND BOATS | MERCURY / MERCUISER  
FACTORY AUTHORIZED | SALES & SERVICE**

**[www.premierboatingcenter.com](http://www.premierboatingcenter.com)**

**Below Dams** – The seining of baitfish, listed amphibians or crayfish is unlawful for a distance of 200 yards below any dam or spillway. In these waters, baitfish, listed amphibians and crayfish may be taken by legal baitfish dip nets for personal use only.

**Restricted Species** – It is unlawful to sell, transport or offer for sale as bait, any live carp, carpsucker, bullhead, buffalo, gar, quillback, gizzard shad or alewife. Live fish of those species may be used for bait only in the same waters from which they are legally taken. Dead carp, carpsucker, bullhead, buffalo, gar, quillback, gizzard shad or alewife may be transported for use as bait.

**Sport fish may be used for bait if:**

- they can be purchased from a bait dealer that have been acquired legally from a licensed aquaculturist or a nonresident fish dealer. The angler must keep a legible receipt or invoice from the dealer listing the date, seller's name and address, and number and size of each species sold.
- they are captured using hook and line and used at the body of water from which they were captured. Anglers must follow both the length and bag limits for that body of water.

**Importation** – It is unlawful for individuals to import live baitfish from out of state for use in inland waters. This does not include the Missouri River. It is unlawful to import or transport live carp, carpsucker, buffalo, quillback, gar, gizzard shad or alewife into the state for use as bait. Special permits are required for a person to import and sell bait or baitfish.

## Categories of Fish Species

Includes all species not on any of the above lists.				

## THREATENED AND ENDANGERED SPECIES

It is unlawful to take by seine, dip net or trap any baitfish in the following streams, which contain threatened and endangered fish species:

Cherry County – Brush Creek west of Brownlee, and Gordon Creek west of Neb. Hwy. 61

Dawes County – Niobrara River east of Box Butte Reservoir and west of U.S. Hwy. 385

Keya Paha County – Cottonwood Creek, East Holt Creek and Holt Creek

Madison County – Taylor Creek west of U.S. Hwy. 81

## NO-LIVE-BAITFISH AREAS

The following areas do not allow the use or possession of live baitfish:

### Southeast:

Bennington Lake  
Big Elk Lake (WP 7)  
Conestoga Lake  
Duck Creek Rec. Area  
Flanagan Lake  
Glenn Cunningham Lake  
Hedgefield Lake  
Holmes Lake  
Iron Horse Trail Lake  
Lake Wanahoo  
Meadowlark Lake  
Olive Creek Lake  
Prairie Queen Rec. Area

Stagecoach Lake  
Wehrspann Lake  
Wildber Reservoir  
Wildwood Lake  
Portal Lake (WP 6)  
Yankee Hill Lake

### Southwest:

Ansley City Lake  
Arnold Lake  
Bethphage Pond  
Bowman Lake  
Cottonmill Lake  
Heartwell Park Pond

Holdrege City North Lake

Rat and Beaver Lake

Valentine NWR

### Northeast:

Chalkrock Lake

Kramper Lake

Pibel Lake

Skyview Lake

TaHaZouka Park Pond

Clear Lake (Brown County)

### Northwest:

Avocet WMA

Crescent Lake NWR

## OTHER BAIT RESTRICTIONS

**White Perch** – It is illegal to transport or possess live white perch. The introduction of white perch into new bodies of water may destroy the quality of the fish community and may require the total renovation of the fishery.

**Dumping** – It is illegal to release baitfish or any fish caught from a different body of water into public waters.

**Exportation** – Up to 100 legally captured baitfish and/or listed amphibians may be exported by a resident for personal use for fishing outside the state if allowed by the destination state. Licensed aquaculturists may transport an unlimited number of baitfish that have been artificially propagated in manmade impoundments out of state if allowed by the destination state.

**We've got your fish!**

# WILLOW LAKE FISH HATCHERY

402.463.8022 or 402.705.2246

Small to large we have all your fish,  
pond and lake needs. We sell fish,  
aeration and pond products. *Hastings, Ne.*

[www.willowlakefishhatchery.com](http://www.willowlakefishhatchery.com)

**Baits and Scents** – Cutbait is legal if the fish used has been legally acquired and the size, bag and possession limits for that species and body of water have been followed. It also is legal to chum for fish using nonharmful baits. Anise oil and other scents that do not stun, kill or harm fish are permitted.

**Leopard Frogs and Barred (formerly tiger) Salamanders** – All regulations that cover the legal use of baitfish also apply to these species. Leopard frogs can only be collected for individual use, not commercial use.

**Crayfish** – There is no daily possession limit on crayfish. Anyone over the age of 16 must have a bait dealer's license in order to sell crayfish. Crayfish may be captured by hook and line, by hand or by legal fish nets and traps as described below. No permit is needed to collect for personal use.

**Fish Nets and Traps** – The possession or use of nets, traps and electrical gear capable of stunning fish is prohibited except for the following:

- Baitfish seines of 1/4 inch nonmetallic square mesh only and not more than 20 feet long and 4 feet deep.
- Baitfish dip nets of 1/4 inch, nonmetallic square mesh. Neither length nor width may exceed 36 inches.
- Baitfish and bait traps of 1/4 inch square mesh material with a length of 24 inches or less, a diameter of 16 inches or less and a throat 2¼ inches or less in diameter. All minnow traps shall be raised, and the baitfish removed at least every 24 hours.
- Landing nets, made of nonmetallic mesh, used only for landing fish caught on hook-and-line.

**Turtle Traps** – A legal snapping turtle trap must contain a throat or funnel to be constructed of netting that is at least 4 inches square mesh. The trap must have an entrance possible only from above the water's surface and must allow turtles to reach the surface to breathe. The trap must be personally checked at least every 24 hours and tagged with a metal tag listing the owner's name, address, and fishing permit number or driver's license number. Turtle traps can only be used on private waters, and it is unlawful to sell, offer for sale or barter any snapping turtles. Any turtle(s) exceeding the daily bag limits shall be released immediately.

## CAST NETS

- Only cast nets up to 10 feet in diameter with a mesh size no larger than 3/8 inches square measure are legal gear.
- Cast nets may be used only during July, August, September, October and November.
- Cast nets may be used to collect gizzard shad and alewife only.
- Live gizzard shad and alewife may only be used for bait the same day they were captured and only in the same body of water where they were collected.
- Cast nets may be used to collect bait only on the following bodies of water:

<b>Northeast:</b>	Gallagher Canyon	Plum Creek Reservoir	Red Willow Reservoir
Calamus Reservoir	Reservoir	Sherman Reservoir	Sutherland Reservoir
Davis Creek Reservoir	Harlan County Reservoir	Enders Reservoir	Swanson Reservoir
<b>Southwest:</b>	Johnson Lake	Jeffrey Reservoir	Tri-County Canal from
Elwood Reservoir	Midway complex	Lake Maloney	diversion dam in Lincoln
Farwell South Reservoir	reservoirs	Medicine Creek Reservoir	County to J-2 return
	Phillips Canyon Reservoir	Lake McConaughy	

## FISH STOCKING

It is unlawful to release any non-native fish, reptile or amphibian in waters of the state or to release any fish in any public waters in the state except in those waters from which it came, without written authorization from the Nebraska Game and Parks Commission.

## TROUT WATERS

It is unlawful to possess a seine of any type on trout streams in Sioux, Scotts Bluff, Morrill, Garden, and Keith counties that are tributaries of the North Platte River and Lake McConaughy, including Red Willow, Wildhorse, Stuckenhole, Ninemile, Tub Springs, Winter, Sheep, Dry Sheep, Spotted Tail, Dry Spotted Tail, Otter, Clear Lonerган or Cedar creeks.

Legal landing nets on these waters can have a maximum diameter of 12 inches, a maximum depth of 15 inches and a maximum handle length of 3 feet.

It is unlawful for anyone to use a seine, baitfish dip net or bait trap in any of the following trout streams:

**NORTHEAST:**

**Rock County**

- Long Pine Creek

**Antelope County**

- Verdigre Creek/tributaries

**Brown County**

# Aquatic Invasive Species

## AQUATIC INVASIVE SPECIES PROGRAM

Aquatic invasive species fees collected from boaters fund the Aquatic Invasive Species Program in Nebraska. These fees pay for programs to educate the public about AIS, prevention efforts to keep AIS from being introduced into Nebraska, such as monitoring waters across the state; inspection and decontamination of conveyances; treatment for AIS populations; and other AIS projects as needed.

## AQUATIC INVASIVE SPECIES PREVENTION

**Aquatic Invasive Species** – Any waterborne, non-native organism that threatens the diversity or abundance of native species, the ecological stability of impacted waters, or commercial, agricultural, aquacultural or recreational activities.

**Impact** – Invasive species may cause significant ecological problems because they have been introduced into habitat in which there are no natural pathogens, parasites or predators. Lack of these natural controls may allow a nuisance species to grow exponentially in new habitat. Introduced nuisance species may prey upon or compete with native species and could transmit diseases to native species.

**Preventive Steps** – Anglers and boaters should take precautions to prevent the introduction or spread of invasive species. This is especially important to boaters who travel to waters that have invasive species not present in any Nebraska waters.

Follow these procedures:

- It is unlawful for a boat to arrive at or leave any body of water in Nebraska with water other than from a domestic source except for fire-fighting purposes. Drain water on site.
- It is unlawful for a boat or trailer to arrive or leave a launch area with any aquatic vegetation from that water body still attached. Boat blinds cannot use plants listed as invasive species or noxious weeds.
- Wash mud off waders. Felt-sole wading boots are unlawful.
- These steps are intended to prevent or delay the establishment of aquatic invasive species in Nebraska waters.

### Report Suspected AIS Observations

For questions, or to report any suspected AIS observations, contact the Nebraska Game and Parks Commission's aquatic invasive species program manager at 402-471-7602 or [ngpc.ais@nebraska.gov](mailto:ngpc.ais@nebraska.gov).

## CLEAN, DRAIN AND DRY

Zebra and quagga mussels can survive out of water for up to two weeks. AIS, such as zebra mussels, are invisible to the naked eye during the larval stage and can be spread through drops of water that live up to 27 days in cooler temperature. Aquatic plants can be spread by tiny fragments as well. After boating and before launching your boat in a different water body:

- Rinse boat and all equipment with hot tap water ideally more than 140 degrees F to kill zebra and quagga mussels;
- Spray boat, live well, engine and trailer with a high-pressure sprayer;
- Pull plugs from bilge, live wells and engine to drain upon leaving a water body.
- If washing the boat away from the water body you are leaving, do not allow runoff to enter a drainage. Control your runoff.
- Dry boat and all equipment for at least five days. Use a towel to speed up the drying process.
- AIS inspectors are present at several Nebraska water bodies from May to October to ensure compliance with Game and Parks regulations.
- Visit [stopaquaticinvasives.org](http://stopaquaticinvasives.org) for more information on procedures and AIS on watercraft.

# IF YOU SEE SOMETHING, SAY SOMETHING ... REPORT THESE OFFENDERS!

## EURASIAN WATERMILFOIL

Eurasian watermilfoil is an invasive aquatic plant that reproduces primarily through fragmentation, meaning only a tiny piece of the plant is needed to grow an entirely new plant. It is spread through boaters not following Clean, Drain, and Dry procedures between water bodies. This plant is extremely invasive and outcompetes other plant species resulting in near total lake coverage. Eurasian watermilfoil looks similar to our native species, with four leaves around a single stem, but contains

12-plus leaflets per side on each leaf. It is unlawful to transport aquatic vegetation between water bodies. If you encounter Eurasian watermilfoil at any location not listed below, contact the Game and Parks Aquatic Invasive Species Program Manager immediately.

**List of Water Bodies That Contain Eurasian Watermilfoil** – Populations of Eurasian watermilfoil are present in these Nebraska waters: Louisville No. 2, Louisville No. 2A, Louisville No. 3, Prairie Queen, Wagon Train, Flanagan, Walnut Creek, Two Rivers No. 5, Smith Lake WMA, Carter P. Johnson, Carter Lake, Cottonwood, Swanson Reservoir, Box Butte, North Platte I-80, East Hershey, Lewis and Clark, and Lake Yankton.

## WHITE PERCH

White perch are native to the East Coast and look very similar to white bass. Once established, this species has the ability to overwhelm an entire fishery, often resulting in the need to eliminate the entire fish population in an infested lake. White perch also consume eggs of several fish species, including white bass and walleye. Because white perch look similar to white bass, anglers have mistaken the species and moved them to other water bodies around the state.

Never release any aquatic organism into a water body where it did not originate. It is illegal to possess or transport any live white perch.

**List of Water Bodies That Contain White Perch** – Populations of white perch are present in these Nebraska waters: Wagon Train, Rockford, Branched Oak, Pawnee, Holmes, Bowling, Wildwood, Prairie Queen, Bluestem, and various Platte River sandpits.

## ZEBRA MUSSELS

The zebra mussel is a highly invasive species that looks like a small D-shaped clam with alternating light and dark bands (resembling the coloration of a zebra). Most zebra mussels are less than 1 inch long. Zebra mussels decrease the food supply for native species and pollute swimming areas with sharp shells and also clog intake water pipes. Once established,

this species is almost impossible to remove or control. If you encounter zebra mussels, contact the Game and Parks aquatic invasive species program manager immediately.

**List of Water Bodies That Contain Zebra Mussels** – Populations of zebra mussels are present in these Nebraska waters. It is illegal to leave these infested areas with live fish or any water. Live baitfish need to be disposed of properly, such as at the fish cleaning station, restroom or undeveloped areas.

- Offutt Base Lake
- Lewis and Clark Lake
- Missouri River
- Lake Yankton

## SILVER CARP and BIGHEAD CARP

Silver and Bighead Carp (commonly referred to as Asian or invasive carp) are two invasive fish species found in Nebraska. They are found in the Missouri River downstream of Gavins Point Dam and in free-flowing tributaries connected to the Missouri River. These fish species can be identified with the location of the eye, found below the center line of the body set down on the head in line with the mouth. If encountered in locations where they may not be found easily, contact the Game and Parks Aquatic Invasive Species Program Manager immediately.

Silver Carp

Bighead Carp

**Transportation and Possession** – It is unlawful to possess or transport live black carp, silver carp, bighead carp, grass carp, white perch and yellow bass.

### NONRESIDENT AQUATIC INVASIVE SPECIES STAMP

Motorized watercraft registered outside of Nebraska are required to purchase and display an Aquatic Invasive Species Stamp (image on the right) before launching from any Nebraska boat ramp.

- The fee for the decal-like stamp is \$18, which includes a \$3 issuing fee.
- The stamp can be purchased at [OutdoorNebraska.org](http://OutdoorNebraska.org), at Commission offices (see list on page 6), or authorized permit agents.
- At the time of purchase, the purchaser will receive a valid temporary permit. The actual stamp will be mailed within 10 business days.
- The stamp is required annually.

- The stamp must be permanently affixed to the starboard and rearward side of the boat, on the outside of the hull above the water line. (See image on left.)

# Additional Information

## ATVs AND SNOWMOBILES FOR ICE-FISHING

Snowmobiles, all-terrain and motorized off-highway amphibious vehicles may be operated on the frozen surface of designated lakes listed below, unless posted as closed. All Game and Parks wildlife management areas are open to ATVs and snowmobiles on the ice, unless posted otherwise. It is unlawful for any person to operate a motorized vehicle on anything other than roadways, parking areas or trails specifically designated for vehicle use. Therefore, WMAs that don't have direct access (boat ramp, parking lot, adjacent roadways, etc.) to the frozen ice surface would not allow these vehicles. These vehicles may be operated only from one-half hour before sunrise until 9 p.m., or as posted. Recommended ice thickness for vehicle use is 8 inches. The designated lakes are, unless posted as closed:

Bluestem	Gallagher Canyon	Medicine Creek	Red Willow	Wagon Train
Box Butte	Harlan County	Merritt	Rockford	Walgren
Branched Oak	Johnson	Minatare	Sherman	Willow Creek
Calamus	Lewis and Clark	Ogallala	Stagecoach	
Conestoga	Louisville lakes	Olive Creek	Sutherland	
Enders	Maloney	Oliver	Summit	
Fremont lakes	McConaughy	Pawnee	Swanson	

## FREE FISHING AND PARK ENTRY DAY

Free Fishing and Park Entry Day is held annually in Nebraska. It is a chance for people to fish for a day without purchasing a permit. Also on that day, no permit is needed to enter a state park area. Go to [OutdoorNebraska.org](https://www.outdoornebraska.org) for more information.

## COMMUNITY FISHING EVENTS

The Nebraska Game and Parks Youth Fishing Program sponsors Community Fishing Events at lakes across the state. This is an opportunity for people who have never fished, or have not fished in years, to learn or refresh their skills. Visit [OutdoorNebraska.gov/FamilyFishing](https://www.outdoornebraska.gov/FamilyFishing) for dates and locations of Community Fishing Events.

## FISH KILL REPORTS

To make it easier to determine the cause, promptly report dead or dying fish to a conservation officer (page 94), Nebraska Game and Parks Commission district office (page 6), the Nebraska Department of Environment and Energy at 402-471-2186, or the 24-hour Nebraska State Patrol pollution complaint number at 402-479-4921.

## POLLUTION

Keep the water safe and clean for future fishing. Report dumping or pollution activities to the Nebraska Department of Environment and Energy (Monday through Friday, 8 a.m.-5 p.m.) at 402-471-2186, the 24-hour Nebraska State Patrol pollution complaint number at 402-479-4921, or the Environmental Protection Agency 24 hours a day at 913-281-0991.

## RESOURCES FOR LAKE MAPPING AND WATER LEVELS

Lake contour maps are available at [OutdoorNebraska.org](https://www.outdoornebraska.org). For lake levels and stream flows, visit:

CNPPID: [cnppid.com/lake-river-data/](https://cnppid.com/lake-river-data/)

Nebraska Public Power District: [nppd.com/about-us/power-plants-facilities/hydroelectric/water-data/](https://nppd.com/about-us/power-plants-facilities/hydroelectric/water-data/)

U.S. Geological Survey: [waterdata.usgs.gov/ne/nwis/rt](https://waterdata.usgs.gov/ne/nwis/rt)

Bureau of Reclamation: [usbr.gov/gp/lakes\\_reservoirs/nebraska\\_lakes.html](https://usbr.gov/gp/lakes_reservoirs/nebraska_lakes.html)

U.S. Army Corps of Engineers: [rivergages.mvr.usace.army.mil/WaterControl/new/layout.cfm](https://rivergages.mvr.usace.army.mil/WaterControl/new/layout.cfm)

## FISH CONSUMPTION ADVISORY

For information on the fish consumption advisory program and the status of water bodies across the state go to the Nebraska Department of Environment and Energy website: [deq.ne.gov/NDEQProg.nsf/OnWeb/FCA](http://deq.ne.gov/NDEQProg.nsf/OnWeb/FCA).

## TOURNAMENTS, CONTESTS AND DERBIES

**Registration** – All fishing tournaments, derbies or contests that require an entry fee, on publicly owned, controlled or managed waters, must be registered with Game and Parks' Fisheries Division at least 45 days before the event. In addition, it is strongly suggested that all fishing tournaments, including those that do not charge an entry fee, register in order to avoid user conflicts. Download a registration form at [OutdoorNebraska.gov](http://OutdoorNebraska.gov).

**Special Occasion Permit** – If the tournament is to be held at a state park or state recreation area, also contact the park superintendent to complete a Special Occasion Permit.

**Denial** – An event may be denied if the date and location conflict with a previously approved event. Denial also may be based on safety concerns due to low water or anticipated heavy use that could result in boat ramp congestion or if tournament organization does not follow all tournament registration and invasive species rules.

**Special Conditions** – Game and Parks may impose special conditions for a fishing tournament, derby or contest if deemed necessary to protect the resource or to assure public safety. Special conditions may include aerated livewells, release of live fish, designated release areas, on-the-water measurements, and immediate release of fish with no on-shore weigh-in ceremony. Tournament directors will be provided instructions on how to operate their tournament to reduce mortality in no harvest/weigh-in tournaments. All watercraft are required to adhere to the Clean, Drain and Dry protocol before launching to ensure that no aquatic invasive species are being transported from another body of water.

**Certificate** – A Fishing Tournament Approval Certificate must be present at the tournament site.

**Posted Dates** – The tournament dates will be listed at [OutdoorNebraska.gov/fishingtournaments](http://OutdoorNebraska.gov/fishingtournaments).

**Results** – A results form will be sent to the tournament director. This form must be completed and returned to the Fisheries Division within 30 days following the completion of the fishing tournament. Failure to return the completed form or provide the requested information will result in denial of future fishing-tournament requests for at least one year.

**Tagged Fish** – The use of tagged or otherwise marked fish is prohibited in any fishing tournament, derby or contest held on waters owned or controlled and stocked by Game and Parks during the preceding 24 months, excluding private lakes not owned by the state or other governmental entity.

Lincoln, NE 68503-0370

# State Records/Master Anglers

If you make an outstanding catch, it may qualify for either a Nebraska Game and Parks Commission State Record or a Master Angler Award. Application forms are available from: Game and Parks offices, conservation officers, permit vendors, [OutdoorNebraska.gov/fisheriesforms](http://OutdoorNebraska.gov/fisheriesforms), and this guide.

## STATE RECORD RULES

- Fish must be caught in accordance with Nebraska fishing regulations by rod and reel, underwater spearfishing, surface spearing, or archery and must be taken from Nebraska waters.
- Fish must be weighed on an accredited or certified scale. A commercial measuring tape or stick should be used to measure the fish.
- Only fish that exceed the current record by at least one ounce are eligible for a state record.
- Two witnesses, one of which must be a permanent employee of Game and Parks, must witness the weighing and measuring of the fish and sign the application. The angler must display a Nebraska fishing permit to the Game and Parks employee who witnesses the weight.
- One clear photograph showing a close-up side view of the fish and one clear photograph showing the angler with the fish must accompany the completed application. All photographs become the property of Game and Parks.
- A Game and Parks fisheries biologist must verify the species of fish, and the fish must be preserved flat until the species is verified.
- Game and Parks may collect fish scales, tissue or spine samples to check fish identification and to refuse any questionable application.
- Game and Parks may revoke a state record if the record holder is found in possession of illegal fishing gear or has been cited for repeated fishing violations that cast suspicion on the authenticity of the record catch.
- No fish caught from any aquaculture or commercial put-and-take facility is eligible.
- Applications must be submitted within 30 days of the date the fish was caught.
- Visit [outdoornebraska.gov/nebraskafishspecies](http://outdoornebraska.gov/nebraskafishspecies) to see a list of Nebraska's state fish records.

***Denny Doolittle with his state record brown trout, weighing 20 pounds, 1 ounce, caught in 1973.***

## MASTER ANGLER RULES

- A fish cannot be harvested or verified by a Game and Parks employee to receive a Master Angler.
- All fish must be taken from Nebraska waters.
- If a fish is caught from private waters, a valid fishing permit is required to receive the award.
- Fish must be taken by hook-and-line, not bank lines or set lines.
- Fish must be legally hooked, played and landed by the applicant.
- The catch must be verified by a Game and Parks employee, a permit vendor, a witness, or a photograph.
- Anglers 16 years of age or older must possess a valid Nebraska fishing permit and enter the permit number on the application.
- Only fish immediately released are eligible for an award based on length. Any fish kept in a livewell or on a stringer must meet the minimum weight requirement.
- Anglers may receive only one award based on weight per year for each species. Catch-and-release awards are unlimited.
- Anglers who release a Master Angler fish will receive a Catch and Release Master Angler pin in addition to the Master Angler certificate.

***Angler with his Master Angler northern pike.***

# Public Fishing Areas

These are areas open to the public for fishing. Public areas include Nebraska Game and Parks Commission-owned or leased state recreation areas (SRA) and wildlife management areas (WMA), as well as federal, Corps of Engineers, Bureau of Reclamation, U.S. Fish and Wildlife Service (FWS), U.S. Forest Service (USFS), power and irrigation, Natural Resources Districts (NRD), Nebraska Department of Transportation (DOT), city and leased private waters.

## HOW TO USE THESE PUBLIC FISHING AREAS TABLES

Lakes and reservoirs are listed alphabetically within each of the following fisheries management districts: northwest, northeast, southwest and southeast. Rivers and streams are broken down into separate coolwater and warmwater streams tables and listed alphabetically. The Missouri River public fishing areas are displayed in a separate table and listed alphabetically.

## PUBLIC ACCESS ATLAS

The Nebraska Public Access Atlas is published each summer to provide hunters, trappers and anglers a guide to publicly accessible land statewide. It is printed in hard-copy form and is available in digital and interactive versions. Visit [OutdoorNebraska.org](http://OutdoorNebraska.org) for more information. Most of the areas listed in the following Public Fishing Areas section can be located in the Public Access Atlas. Map sheet numbers are displayed in each of the tables.

## ATTRIBUTES

**Family Friendly** – Areas listed in the Lakes and Reservoirs table denoted with **FF** are designated as Family Friendly. These lakes are identified as being safe, comfortable and having great fish-catching potential. These locations have a combination of barrier-free fishing piers, fishing trails, groomed park areas, concessions, playgrounds, picnic areas, and highly maintained fish populations. Contact the nearest fisheries supervisor for details.

**Accessible** – Areas listed in the Lakes and Reservoirs table denoted with **A** have some accessibility. Those amenities are listed for each area.

**Underwater Spearfishing** – Areas listed in the Lakes and Reservoirs table denoted with **SF** allow underwater spearfishing. Refer to the Fishing Regulations column of the table for season dates and species allowed. Also refer to the Archery and Spearfishing section for more information.

**Cast Netting** – Areas listed in the Lakes and Reservoirs table denoted with **CN** allow cast netting for the collection of Gizzard Shad and Alewife during July, August, September and November. Live gizzard shad and alewife may only be used for bait the same day they were captured and only in the same body of water where they were collected. Refer to the Bait Regulations section for more details.

## ABBREVIATIONS OF FISH SPECIES

This list contains abbreviations used for fish species denoted in the public fishing areas.

A Missouri River ORIGINAL

Keep Kool

THE ENTIRE product line

ORIGINAL

Keep Kool

LIVE BAIT COOLER

- Holds up to 12 dozen nightcrawlers
- Inner chamber holds up to 5 lbs of ice
- Also can hold 6 refreezable ice packs
- Capable of filling ice chamber with water and freezing
- Secure locking cover doubles as a carrying handle

NEVER BEFORE HAS BAIT MAINTENANCE BEEN SO SIMPLE!

Can of Worms

- Holds up to 8 dozen nightcrawlers
- Works with nightcrawlers, worms, leeches, minnows, shrimp, waxworms, crickets, cut bait, and catfish bait
- Refreezable shell

Keep Kool Mini

- Holds up to 4 dozen nightcrawlers
- Refreezable ice chamber
- Custom insulated koozie slides over container

Bait Bucket

- 5 gallon design
- 2 gallon removable inner bait container
- Holds 10 lbs ice
- Custom fit insulating koozie with pockets
- Great for most baits you want to keep cold

## Missouri River

Below is a list of Nebraska's major public access locations to the Missouri River. Visit [outdoornebraska.gov/mrrecreationguide](http://outdoornebraska.gov/mrrecreationguide) for a complete guide that shows public access sites on both sides of the river along Nebraska's border. The river is infested with zebra mussels. Clean, drain and dry your watercraft to prevent the spread of this invasive species to other waters in the state. See the Aquatic Invasive Species section on page 30 for more details.

Name/County/Map ID	Comments
<b>Bazile Creek WMA</b> Knox (33)	Gravel road to ramp gets muddy with heavy rains. Primitive boat ramp. Subject to flooding.
<b>Beck Memorial Park (Decatur)</b> Burt (46)	Concrete boat ramp. Primitive camping.
<b>Big Elk Park</b> Thurston (40)	Concrete boat ramp. Primitive camping.

# YOU NEVER KNOW WHAT IS IN YOUR LURKING FIREWOOD

Tree-killing pests, like the emerald ash borer, hitchhike on firewood and spread insects and diseases that destroy our trees. Keep your backyard, campgrounds and favorite places safe from these pests.

## PREVENTION IS KEY:

- Buy locally-harvested firewood.
- Ask a park ranger or campground host about where to get local firewood when you travel.
- If you brought firewood in from another area, BURN IT! Don't leave it, don't take it with you.

## BUY IT WHERE YOU BURN IT.

To report potential emerald ash borer, contact the  
Nebraska Department of Agriculture at 402-471-2351.
